SATURDAY, June 9—P. M.

Gold has been very firm all day, opening at 139⅞, selling at 140, closing at 139⅞.

The shipment of specie to-day was $9,062,707, as follows: Per City of London, $949,364; per Fulton, $741,300, and per Teutonia, $372,043. The total shipment for the week from this port is $4,220,756, or, including the Boston shipment on Wednesday, $5,843,753. The Proponitis, from Philadelphia to-day, took $25,000.

Government bonds were dull, with small transactions at full rates. State and Railway bonds were neglected. Miscellaneous shares generally lower.

The Railway market is excessively dull, and the transactions very small. New-York Central, Cleveland and Pittsburgh, Michigan Southern and the North-Western shares were all weak and rather pressed for sale. Reading was steady. Erie opened firm at 63¼, and rose to 63¾ for cash stock before the Board, but the price was not sustained and it declined to 62⅞, closing finally at 63⅞ bid. A feeble attempt was made to make the stock scarce to-day. A large amount on which the shorts were paying a commission was called in by the bulls, in hopes of advancing the prices, but the supply of cash stock was ample, and the same lots were afterward loaned flat. There is but little disposition to operate at present for an advance, and many of the professional speculators are closing up preparatory to a Summer vacation. Later in the day there was an active demand for Cleveland and Pittsburgh, and the price was advanced to 83⅞, at which price it closed strong. The balance of the market closed flat at the following quotations: Ohio Certificates, 28⅞@29; Canton, 58⅞@59; Cumberland Coal, 45¼@46; Quicksilver, 50⅞@52; Mariposa, Preferred, 23⅞@25; New-York Central, 97⅞@97¾; Erie, 63⅞@63⅞; Reading, 109⅞@109⅞; Michigan Southern, 79⅞@79⅞; Cleveland and Pittsburgh, 83⅞@84; Chicago and Toledo, 84⅞@85; North-Western, 30⅞@30⅞; North-Western, Preferred, 60⅞@60⅞; Fort Wayne, 96⅞@96⅞.

Money is very easy, and large balances are offered at 5 per cent. The street rate continues at 6 per cent on small lots, but no amount could be loaned at that rate.

Freights are dull, and the engagements to Liverpool are 7,000 bushels Corn on private terms. A bark was chartered to Cork for orders at 1s. 6d.

The rates for prime paper range at 5@6½ ⅌ cent.

Foreign exchange closed dull for the steamer. Bills at 60 days on London are quoted at 108⅞@109⅞ for commercial; 109⅞@110 for bankers'; do. at short sight 111⅞@111⅞. London telegrams, under date of June 1, quote Consols, 87⅞@87⅞; Erie Shares, 45⅞@46⅞; Illinois Central 78@79. The bullion in the bank had increased £21,000.

The Pottsville Journal of last week, says:

The quantity of coal sent by railroad this week, is 99,444,12; by canal, 40,150,15; for the week, 129,615,07 tons, against 85,770 tons for the corresponding week last year.

The demand for coal continues good, and prices are firm. Some sizes have advanced 25 cents a ton this month for small quantities, but we doubt whether it will continue after the first of July, when nearly all the present contracts for coal cease. The price of coal ought to be higher, but we doubt whether there will be any further advance for the present. It is however, understood that tolls will advance on the first of July.

The trade sums up this week as follows, compared with last year:

1865.....117,923 | 1866.....288,305 | Inc.....170,382.

The shipments continue heavy, but the trade last year at this time, in the Schuylkill and Lehigh regions, was about entirely suspended.

The Cincinnati Gazette of Friday says:

The money market exhibited no new feature to-day. The supply of currency continues inadequate, and with a fair demand for loans the market is close at 10@12 per cent.

There was less exchange on the market to-day, and with a fair demand rates were a shade better, closing at par buying, and 50@10 premium selling. Gold declined suddenly this afternoon, closing at 142 buying, and 143 selling.

The Chicago Tribune under Friday's date, says:

There is still a very active drain on the banks in this city for currency, and the money market is increasing in stringency. While the demand by the country banks is increasing, the city deposits are falling off, and our bankers are consequently less able than usual to accommodate the public. Discount rates are steady at 10 per cent per annum, at the banks, and 12 and 18 per cent on the street.

The market for Eastern Exchange is unusually weak, and we have to report lower rates. Round lots were sold among bankers at ⅛@1-10 discount, and counter rates were steady at ¼@1-10 discount buying, and par selling. Buffalo bills were taken at ⅛ off, and Oswego at ⅛@¼ off.

The Chicago Times of same date says: The demand for money is still more pressing to-day, and the banks so encumbered with compound interest notes and the keeping such balances on interest in New-York, that they can do nothing toward meeting the demand, or relieving the market from this distressing stringency. Everybody in every branch of business needs money, and we urge upon business men to insist that the banks shall sell out their 'compound," and extend some accommodations to the public. The business of a bank is to lend money to business men, and, by judicious accommodations, facilitate and encourage the transaction of business. A bank has no business to take the money deposited by its customers, and use it in investments, speculations, and business operations of its own, instead of lending it to the business public. And yet this is just what the banks of Chicago are doing. We remind all merchants and commission men, when they fail to obtain accommodations, that the reason the banks cannot lend them money is, because they are using it themselves in speculations in compound interest notes; and we advise them when they cannot procure accommodations, to remove their accounts to some bank which confines itself to a legitimate banking business, and does not invest its capital and one fourth of its deposits in compound interest notes. If our merchants and other business men will adopt this course, the banks will sell out their "compounds," and there will be no difficulty in obtaining accommodations in the future. The banks of this city—we mean now the brood of "Nationals"—have generally but a limited capital; over two-thirds of them could never have raised money enough to do a banking business under a decent banking system; and they are running to-day upon the money deposited with them by private individuals, and upon these deposits are carrying these "compounds." Let the business public withdraw their deposits, and the Peter Funks will be compelled to sell out these "compounds," and release the money of their customers which would be available for general business purposes. It would be a matter of no concern if some of these institutions were to withdraw from business altogether. A dozen or fifteen respectable pawn-brokers would confer far more accommodations upon the public, and, upon the whole, prove more honest and reliable.

As Mr. Gallaher feels aggrieved at our notice of his Evening Exchange, we print his card. If he wishes us to print his circular—said circular being an advertisement—he has only to call at the counting-room and pay his money to our advertising clerk.

To the Editor of The N. Y. Tribune.

SIR: My attention has just been called to a very great wrong your financial editor in his columns of to-day has inflicted upon me by his sweeping abuse of an enterprise I have left called upon by the necessity of the case to embark in.

In referring to Gallaher's Commercial and Financial News Room, THE TRIBUNE is pleased to revert to the "Evening Exchange," formerly under my management, and used the strong and unwarranted assertion that "it was one of the most disgraceful 'institutions' in New-York, and quite as demoralizing as any gambler's hell or bagnio in town."

Now, whatever may be the objections to dealing in gold and stocks up town, after ten, instead of confining all transactions at the Exchange in Wall-street proper, your financial editor has no right to indulge in the sweeping declarations he has made against a very large class of highly-respectable bankers, merchants, and others who were the patrons and constant attendants of the former "Evening Exchange."

By publishing the accompanying circular, which speaks for itself, you will afford the public an opportunity to judge whether the new-room I proposed to open is simply "to gratify a class of customers who are nothing but desperate gamblers, and who had better abandon Wall-st. and confine their operations to faro banks."

Respectfully, R. H. GALLAHER.

N. Y. Wholesale Prices of Country Produce.

FOR THE WEEK ENDING June 9, 1866.

[Expressly for THE N. Y. TRIBUNE by our own Reporter.]

The following are the current rates of articles in good condition, as sold by commission houses at wholesale. Shippers receive 5 to 10 ⅌ cent less, deducted for commissions, beside freight and other charges. Parties receiving produce to sell, often with the request that immediate returns be made, cannot always obtain the prices which transient buyers have to pay. Our figures are intended more for the farmer than the merchant, and we prefer not to disappoint by giving the outside prices of very choice articles.

BEANS AND PEAS.

Beans continue scarce and high if prime. There is a fair but not active demand. Southern peas have advanced. We quote:

Beans, pea, prime, ⅌ bush	$1 85@$2 00
Beans, medium prime, ⅌ bush	1 80@ 2 00
Beans, kidney ⅌ bush., prime	2 40@ 2 50

Beans, marrow hand-picked or screened	2 50@ 2 60

Peas, Southern blackeyed, ⅌ bush	1 50@ 1 70

BUTTER.

To say that butter is flat, weak, don't sell, has a black eye, has declined nearly five cents ⅌ lb. since last Saturday, only expresses, in a mild form, the feelings and remarks of dealers. Receipts are heavy, averaging about 2,000 packages per day for the last two weeks, and, save some 2,500 or 3,000 packages sent to California on the next steamer, there is no outlet. In a declining market, like this, grocers only buy for immediate use, and the large out-of-town demand is now almost wholly cut off, being supplied by the farmers of the surrounding country. California buyers were out of market for a week and only came in on Wednesday for purchases to freight the present steamer, after which they will absent themselves for 10 days, or until the next steamer is about to sail. Most of the present shipment is fine yellow Ohio firkins, bought at about 30c.—a little select at 31@32c. Common Western butter don't sell. It is understood that the make is large at the West, and free receipts are anticipated for some time to come. A few of the dealers think the bottom is reached and they are not offering their butter, though quite likely they would did they see the least prospect of a market—there is no forcing the thing now. The South is full of butter, and parties are shipping it from St. Louis to this city. Good lines of yellow Western Reserve butter were sold to-day at 30@30½c. We quote:

Half firkins, fine, Yellow, ⅌ lb	33@36
Firkins, State, prime, ⅌ lb	34@36
State medium, ⅌ lb	30@32
Orange Co. and Up-River pails, ⅌ lb	35@40
Western Reserve, Yellow	29@30
Western Reserve, fine	—@29
White and Mixed, store packed	22@24
Chicago, Wisconsin, &c., ⅌ lb	23@25
Pennsylvania tubs and pails	32@35
State tubs, Welsh	31@34
Canada, ⅌ lb	25@30

CHEESE.

The cheese market, too, is quite deranged on account of the financial disturbances across the water. English buyers cannot sell their bills of exchange or buy cheese with them, hence none to speak of are going abroad, and the stock is accumulating in consequence. It would be a difficult matter to get over 18c. to-day in a forced sale, though a little is sold in a retail sort of way at 19c., and some which cost 20c., and even 20½c. in the country, is held at about those figures here, but don't sell. A fine Herkimer County State Factory line of Cheese, 105 boxes, were sold at 18c., and a fancy lot of Farm Dairy, Cox's, brought the same figures. Of a perishable nature, shippers know they can, in a measure, dictate terms, and as the home trade are using but a very small portion of present receipts, and only a very few English buyers can operate to advantage, they are getting their cheese 1c. lower than last week, and talk of paying still less next week. We noticed sales of 200 boxes Herkimer County Farm Dairy at 15c. Receipts are not large, but exceed the demand. We quote:

English Dairy, skimmed, ⅌ lb	12@14
English Dairy, new, fine, ⅌ lb	17@18
Factory, skimmed, ⅌ lb	14@16
Factory, new prime, ⅌ lb	18@18½
Farm Dairy, new prime	17@18
Ordinary to good State, ⅌ lb	8@15
Ohio, white, skimmed, ⅌ lb	5@8

EGGS.

With merely nominal receipts for two days past Eggs are getting to be scarce, even with a moderate demand. One lot of poor Indiana Eggs was sold on the dock at 23c., while good, fresh, State Eggs go off readily at 25c., and even 26c. per bbl. We quote:

New-Jersey and Pennsylvania fresh, ⅌ doz	25@26
State, good marks	24@25
Southern and Western, ⅌ doz., good order	23@24
Duck Eggs, ⅌ doz	32@35
Egg Oats, ⅌ bush, good	45@50

FRUITS AND BERRIES.

Strawberries, which were coming in freely from South Jersey early in the week, already give indications that the hight is over from that locality, and everything points to a light crop generally. Many of the berries were sent off in the rain during the early part of the week, and coming poor order had to be sold at 10@12c. per qt. Fine Wilsons brought 30c. to-day, while a few Triomphs brought 75c. Hackensack berries begin to arrive. They brought 8c. per small basket this morning. Fancy fruit is worth 50@75c. per qt. We are glad to notice a disposition on the part of growers and dealers when using the small baskets to obtain what are called *fours*, that is, four to the quart. Some use *threes*, and a few persist in sending in *fives*. The *four* baskets are three inches high, three inches across the top, and two inches square at the bottom. A single dealer received about 8,000 pint boxes Wednesday. We quote:

Apples, good Russets, ⅌ pbl	6 00@ 6 50
Gooseberries, ⅌ bush	3 00@ 4 00
Strawberries, ⅌ qt	15@ 20
Strawberries, Wilson's, ⅌ qt	25@ 30

Strawberries, ⅌ basket (fives)	6@ 7
Strawberries, ⅌ basket (fours)	7@ 8
Strawberries, ⅌ basket (threes)	9@ 10

FRUITS AND NUTS—DRIED.

Dried Apples and Peaches are lower owing to the Strawberry season, together with Gooseberries and Rhubarb. A lot of dried Elderberries was sold at 6c. per lb, while a few fancy Georgia Peaches brought 32c. We quote:

Apples, sliced, ⅌ lb	21@22
Apples, State, ⅌ lb	17@19
Apples, Southern & Western, ⅌ lb	14@17
Blackberries, ⅌ lb	35@40

HIDES, SKINS, AND FURS.

These continue dull of sale, nominally at about former prices, with the exception of Calf Skins, which sell quickly at higher prices. We quote:

Fowls are improving a little with a fair supply offering, and two car loads or 600 dozen expected from the West next week. We quote:

VEGETABLES.

Peas vary greatly from day to day, and even on the same day. They brought $3 50@$4 50 this morning, but fell to $2@$2 50 in the afternoon. Old Potatoes continue scarce and high, with not enough now to affect the market. Arrivals of New are expected from Norfolk next week. Cabbages from there are already in market, with a few Squashes. We quote:

Markets—CAREFULLY REPORTED FOR THE N. Y. TRIBUNE.
SATURDAY, June 9, 1866.

ASHES—The market is fairly active and is better; sales at $7 75@$7 87½ for Pots, and $15@$15 50 for Pearls.

COTTON—There has been rather more doing to-day the demand being partly speculative; prices are stiffer, but without quotable change; sales of 3,900 bales on a basis of 58@60c. for Middling Uplands and New-Orleans and Texas.

COFFEE—The market is very quiet, and we have only to note sales of 500 bags Rio ex Campanero at 16c., duty paid.
