PAVING BOARD URGED BY ERNEST FLAGG

Architect Speaks at Albany for Bills to Improve City Pavements.

SHATTUCK AVE. HEARING

It Is Declared That Measures, if Passed, Will Effect Necessary Reforms.

ALBANY, N. Y., April 23. Jacob A. Cantor, former President of Manhattan Borough; A. R. Shattuck, chairman of Mayor Gaynor's paving committee, and Ernest Flagg, who was the architect of the Singer Building, appeared before the Senate Cities Committee today in favor of the four Foley bills to improve New York city pavements.

One bill creates a paving board to consist of the chief engineer of the Board of Estimate and the chief highway engineer of each borough, another provides for a system of district inspection to insure prompt report of all defects in pavements and proper supervision of repairs, the third provides for the immediate and proper closing of all street openings as soon as the work is done for which the opening was made, and the last provides a way to compel street railway companies to do their share of paving with reasonable promptness.

The bills were opposed by the Commissioners of Public Works of all the boroughs except Queens, who declared that the Borough Presidents already have all the power which is conferred on them by the bills.

Those favoring the bills asserted that the measures will concentrate authority in paving matters in the Borough Presidents and will take away some of the powers now held by the Dock, Park and Water Supply departments for digging up streets and the like.

"The whole subject of paving in this country is in a chaotic condition," said Mr. Flagg. "Even among the five boroughs of New York there is no unity of action in the methods used, no standardization of types, no tabulation of statistics of tonnage and wear and no examples of many of the kinds of pavement which have proved most successful and economical abroad.

"Now the object of these bills is to provide for the construction of pavements of the best type and for the immediate repair of defects in all pavements as they make their appearance.

"To obtain the best and uniform methods of paving in all the boroughs it is proposed to constitute a paving board to establish types, prescribe standard forms of contract and specifications for all the boroughs both for the construction and repair of streets and pavements; fix the maximum price and standard of quality and prescribe and standardize the specification for all paving materials and supplies to be purchased by the city; examine, test and analyze all paving material to be used in the construction and repair of streets and to keep a record of every test and analysis.

"In streets where there are trolleys that part of the pavement which is between the tracks and for a distance of two feet outside of them is supposed to be paid for and kept in repair by the railway companies, but the companies are inclined to do the work at the least expense to themselves.

"These bills, if passed, would do much toward removing a scandal of long continuance and the endowment of the city with a modern system of pavements such as is enjoyed by the great cities of Europe."

TALK OF REORGANIZATION.

Wabash-Pittsburg Terminal Agreement May Be Concluded.

Bankers concerned in the Wabash-Pittsburg Terminal reorganization, which has been hanging fire for five years, said yesterday that an agreement with Wabash Railroad interests may be concluded next week, upon which the basis for a reorganization plan will be founded.

On May 1 $5,000,000 Wabash Railroad notes mature, which are secured by Wabash-Pittsburg Terminal notes, which in turn are secured by $14,000,000 stock and $3,800,000 bonds of the Pittsburg Terminal Railroad and Coal Company, controlled by Wabash-Pittsburg Terminal Railway.

The Wabash-Pittsburg Terminal Railway is suing for return of these underlying securities of Pittsburg Terminal Railroad and Coal Company. The fact that Wabash has not sufficient funds to take up the notes at maturity and that Wabash-Pittsburg Terminal is ready to give a consideration for the securities leads to the understanding that an agreement will be reached before May 1 which will clear the way for the Wabash-Pittsburg Terminal reorganization.

Any reorganization plan must necessarily contain provision for heavy assessment upon security holders. At least $10,000,000 must be raised to pay off $8,439,065 of secured debts, including $2,376,058 of receivers' certificates and to provide funds for paying off other debt and providing working capital. The reorganization of Wabash-Pittsburg Terminal will be undertaken separately from that of its subsidiary, the Wheeling and Lake Erie.

Stock Exchange Listing.

The listing committee of the Stock Exchange has permitted the listing of the following securities: $2,715 capital stock of the Nevada Consolidated Copper Company, making the total amount authorized for listing $10,000,000; on and after May 1, 1913, $1,693,000 common stock of the Ingersoll-Rand Company, making the total amount authorized to be listed $8,469,400.

FINANCIAL NOTES.

A meeting of the board of governors of the Investment Bankers Association of America has been called for in St. Louis on May 16 and 17.

J. Edward Mastin & Co., members of the Stock Exchange, are moving from the Drexel Building, where they have been since 1897, to new quarters in the Mills Building, 15 Broad street.

THE BOSTON MARKET.

BOSTON, April 23.—With dulness still prevailing prices again closed lower after holding generally firm during the morning trading. New Haven was the feature from the start, breaking further to 108½, off 2, and closing at 111. Boston and Maine and Boston elevated each declined 1 point. Shortly after the noon hour Granby advanced to 65, up 1½, on a burst of activity. Utah copper and Wolverine developed some activity, but at the expense of prices. The former sold down to 7½, off 1, the lowest price on record, and the latter sold down to 58, off 3, the lowest price since 1907. Butte and Superior was active and easier.

THE PHILADELPHIA MARKET.

PHILADELPHIA, April 23.—The market was a waiting one to-day. Trading was scattered more than any day this week, but traders seemed to be awaiting a lead from somewhere. Insiders tried to make a market for general asphalt, but found few followers. Philadelphia Electric was in some demand and closed strong at 22½. There was some selling of Tonopah Mining and Tonopah Belmont, but stock was well taken. A small block of Pennsylvania Steel preferred sold down to 52 before it found a buyer, off 3 points from the last previous sale. The summary:

THE CHICAGO MARKET.

CHICAGO, April 23.—Extreme dulness continues to prevail in this market. Chicago Railways first and second participating certificates were the only issues to show any special demand. Rumors of an extra dividend on the first certificates were the reason for the buying movement. Elsewhere the price changes were unimportant. Commonwealth Edison bonds were active, with prices steady. PRESIDENT MABON HONORED.

Governors of Stock Exchange Adopt Resolutions of Praise.

The governing committee of the Stock Exchange yesterday adopted resolutions commending the work of President James B. Mabon during his term, which expires in May. The resolutions were to the effect that Mr. Mabon was deserving of the highest praise for his work in keeping up the honor and the prosperity of the exchange and for his sacrifice of personal interest in fulfilling his duty.

Both the independent and regular nominating committees of the Stock Exchange have unanimously chosen Mr. Mabon for reelection on May 12.
