Labor Queries

Questions and Answers on Labor: What It Has Done; Where It Stands on Problems of the Day; Its Aim and Program; Who's Who in the Ranks of the Organized Toilers, etc., etc.

Q.—How long has the Mexican Federation of Labor (CROM) been in existence? Who was the founder of Mexican trade unionism?

A.—The CROM was founded in 1918. Luis N. Morones, former minister of industry, commerce and labor, is considered the founder of the Mexican labor movement.

Q.—How many nations belong to the International Labor Organization?

A.—Fifty-five. The organization started with twenty-four nations.

Q.—When and where was the Ludlow massacre?

A.—April 20, 1914, at Ludlow, Colo., during the great coal strike in southern Colorado.

Q.—What great labor organization was founded at Fort Jervis, N. Y.?

A.—The brotherhood of Locomotive Firemen and Enginemen. The first lodge was formed at Port Jervis in 1873 and organization of other local lodges followed rapidly.

WORKERS ARE IDLE THROUGH SICKNESS

Washington.—One man out of every 10 loses eight or more consecutive days annually from sickness or non-industrial accidents, according to the United States Public Health Service.

Respiratory diseases were reported as the cause of 42.4 per cent of the cases; digestive diseases, 13.5 per cent, and external causes (non-industrial accidents), 9.8 per cent.

AS THE WORKER SEES HIS WORLD

Summary and Digest of Important Events of the Week, Here and Abroad

After a heated debate over the censorship provisions of the tariff bill, the senate on March 18 adopted the prohibition on importation of books containing "seditious" and "obscene" matter, final decision on the barring of books to be vested in the federal courts.

The railroad employes' department, American Federation of Labor, will meet in regular convention on April 28 in Chicago.

Ballots have been issued to English textile workers for voting on the question of acceptance or rejection of proposals for a new general agreement on wages.

Death rates of industrial workers are from 50 to 100 per cent higher than those of other classes, according to an analysis by the United States Bureau of Labor Statistics of the mortality rates among policyholders of the Metropolitan Insurance Company.

The British National Union of Railwaymen announced recently that the 2½ per cent wage reduction which the British railroad workers accepted in 1918, will be restored beginning in May.

President Ortiz Rubio of Mexico has made public a summary of government plans for providing work for the unemployed and for stimulating agricultural and industrial activities.

Sharply condemning the attitude of Harvard University in dismissing 20 scrubwomen rather than pay them the minimum wage required by Massachusetts law and terming it "harsh, stingy, socially insensitive and considerably short of the highest ethical standards of the time," a group of 52 representative Harvard alumni recently protested in an open letter to the governing boards of Harvard.

Unemployment in New York city reached its peak in February and since then conditions have shown a decided improvement, according to a report sent to Gov. Roosevelt by the New York board of trade.

Railroad communication throughout Argentine was recently greatly hampered and in many places demoralized by the refusal of the trainmen and enginemen to operate freight and passenger trains on time in protest against the refusal of the employers to grant them higher wages.

EASTON JURY

Acquits Eleven In Hosiery Mill Strike

Easton, Pa. (ILNS)—Eleven persons arrested at Nazareth in connection with the strike of employes of the Kraemer Hosiery Company, and charged with riot, unlawful assembly and disorderly conduct on the complaint of Sheriff John J. Snyder, of Northampton county, were acquitted by a jury here.

The jury divided the costs of the case, placing 50 per cent on ten of the defendants, nine women and one man; 25 per cent on Josephine Kaczor, of Salem, Mass., organizer for the American Federation of Full Fashioned Hosiery Workers, the eleventh defendant, and the remaining 25 per cent on Sheriff John J. Snyder, who made the arrests.

KANSAS CITY BUILDERS AGREE TO ARBITRATE

Kansas City, Mo. (ILNS)—Settlement of the strike of 8,000 building trades workers here loomed when the Builders' Association, by a vote of its executive board, agreed to accept the Chamber of Commerce proposal for arbitration and the immediate resumption of work. The unions already had agreed to arbitration.

The strike was called by the unions when their demands for a 5-day week, with pay for the prevailing 5½-day week, were refused. The builders proposed a 10 per cent wage cut.

The decision of the builders came after four contractors handling five of the major downtown building projects signed an independent contract with the Building Trades Council calling for a 5-day week and 25 cents a day increase in wages until June 1.

The separate contract assured work for at least 60 per cent of the men who walked out, according to J. L. Rogers, scretary of the Building Trades Council.

WHAT NEXT?

The Carolinian, first all welded cargo steamship, recently made a successful sea test from Charleston, S. C. The vessel is constructed entirely by arc welding and has not a rivet or bolt in it. A saving of 20 per cent in weight and 25 per cent in cost is said to have been made, compared to riveted vessels.

Vehicles using the Holland tunnel between New York and New Jersey are counted by photo-electric impulse; the passing vehicle interrupts a light ray which registers on a dial in a far-removed administration office.

NEW YORK MAY EXCLUDE PRISON-MADE PRODUCTS

Albany, N. Y.—A committee of the state assembly has favorably reported a bill which accepts the terms of the Hawes-Cooper bill, passed by congress. Under this federal act states may prohibit the importation of goods made in prisons in other states.

This bill, when enacted, will not take effect until January 19, 1934, when the federal act becomes effective .

HIGH COURT OUTLAWS CASH-FOR-WAGES LAW

Baton Rouge, La.—The state supreme court outlawed the Louisiana law which provides that wages shall be paid by cash or check.

The agent of a lumber company paid wages in trade checks redeemable at the company store. He was sentenced to pay a fine of $300 or serve 30 days in jail.

Company attorneys were upheld in their attack on the law, which is a violation of the fourteenth amendment and the right of freedom of contract, said the state supreme court.

ADOPT UNION SCALE

Duluth, Minn.—The city council unanimously adopted the wage scales of local trade unions as the standard to be paid by the city and by all persons doing municipal construction and maintenance work.

The Citizens' Alliance led a long fight against the measure. The union busters were allied with every employers' organization except the Retail Merchants' Association.

The union label, shop card and working button are the hall marks of union goods or service.
