FRICITION IS DISAPPEARING

AGUINALDO AND THE AMERICANS ON BETTER TERMS.

At First the Insurgents Feared Gen. Merritt and Gen. Anderson Would Adopt Harsh Methods Like the Spaniards—Had the Greatest Confidence in Dewey, Whom They Regarded as a Father—Wealthy Filipinos Are in Favor of the United States Retaining the Archipelago—No Trouble Is Feared From the Insurgents if This Policy Is Followed.

London, Aug. 25.—The Associated press learns that the Philippine junta in London has received a dispatch from Manila announcing that matters there are rapidly quieting down and that the friction between Aguinaldo and the Americans is disappearing. According to the junta's advices the Insurgents for a time regarded Gen. Merritt and Gen. Anderson as martinet and feared they would adopt harsh methods, like the Spaniards, toward the Filipinos, but the insurgents, from the first, have had the greatest confidence in Admiral Dewey, whom they regard as a sort of father, and the most important American of Manila.

The junta stated that all friction will soon disappear and that there will be no trouble from the insurgents if the Americans decide to retain the Philippines. According to a wealthy Filipino now in London the Filipinos in Europe are all well-to-do people. Hitherto they have held aloof from the Insurgents, but they now realize that their interests demand action, and they are about to form a committee to open negotiations with the junta here. They are all in favor of having the archipelago retained by the United States. So strong is their conviction of the desirability of this course that they had contemplated approaching the British foreign office to invite Great Britain to intervene, and in any event to prevent the islands again going into the control of Spain.

Manila, Aug. 25.—The rumors of trouble between the natives and Americans are for the most part unfounded. The fact is that the insurgents have been unwilling to disarm until they are assured of the permanence of American protection. The distrust felt as to the Spanish bank, which originated in rumors as to an excessive note issue to the Spanish authorities led to a run on the institution, but the British banking houses came to its assistance and averted a failure. Business is now booming. The obstructions in the River Passig, which floats through the town, have been removed and the water works have resumed operations.

LARGE ARMY NECESSARY.
Labouchere Has Something to Say Regarding America's Future.

London, Aug. 25.—Henry Labouchere, in truth, says that a large standing army would be necessary if the United States were to embark on a spirited foreign policy of annexation. This army, he declares, would soon crush out democracy at home, and in the end some popular general would feel it his duty to save society by making himself such a president as the constitution never contemplated. The old world in its dealings with the new assumes an attitude of condescension, as ridiculous as it is unwarranted. One of the salient features of the late war was the manly, honest, generous and chivalrous conduct of the United States government forces and people from the beginning to the end of the campaign. It is only just to express the feeling of admiration which the new chivalry has created throughout Europe.

DONS IRRITATED
Because Cubans Continue Fighting Regardless of the Protocol.

Madrid, Aug. 25.—There is a growing feeling of irritation at the failure of the Insurgents to respect the protocol and the order for cessation of hostilities. The matter is at such a point that if the Insurgents continue hostilities the government, according to a most important ministerialist, will give orders to the Spanish troops to take the offensive against those Insurgents who do not respect the protocol.

New York, Aug. 25.—In an interview H. S. Rubens, counsel for the Cuban delegation, said that it was possible that some bands of Cubans were still fighting in the interior of Cuba. There are no telephone or telegraph wires running over the island, and he thought that it was possible that some of the bands were not aware of the cessation of hostilities. He was sure, however, that wherever the news of the protocol had been carried the Cubans would cease fighting.

MURDER AND SUICIDE.
Horrible Deed of a New York Mother.

New York, Aug. 25.—Mrs. Kate Mangin, twenty-eight years of age, killed herself and two children aged four years and eighteen months respectively. She had been despondent for some time. The bodies were found by the husband of the woman.

Accident to Gen. Augustin.
London, Aug. 25.—A Singapore correspondent telegraphs that Gen. Augustin had his arm broken while on his way from Hongkong to Singapore during the prevalence of a typhoon. He will proceed to Spain in a German mail boat.

Runaway Mishap.
Granite Falls, Minn., Aug. 25.—In a runaway here, Mousie, the daughter of Judge Powers, had her right arm broken above the elbow and Rev. Erickson sustained slight injury to his legs.

WILL HAVE FULL POWER.

Commissioners Will Rule Cuba and Porto Rico.

Washington, Aug. 25.—The most important subject before the cabinet meeting yesterday was the instructions to be given to the Cuban and Porto Rican military commissioners. A set of instructions in each case have been prepared and were read at the meeting, but as they were found not to conform in several particulars with the views of the cabinet they will be recast on somewhat different lines within the next two or three days and presented to the president for his approval. It is said that these instructions will deal almost entirely with matters of detail. The commissioners will be charged with providing the troops for garrisons of the cities and towns as rapidly as the Spanish forces are withdrawn; the collection of customs and other revenues and the maintenance of police service. They will receive public property surrendered by the Spaniards and exercise all functions of government over the surrendered territory until the president shall otherwise direct. It is believed that the commissioners to both Cuba and Porto Rico will be ready to call for their posts of duty within the next few days.

Colony for Porto Rico.
Kansas City, Aug. 25.—Bernett Prusen, a well known local commission merchant, is at the head of a movement to form a Jewish colony in Porto Rico. "I already have," he said, "the promise of nearly fifty families to join me. These families can raise from \$500 to \$5,000 each to put into the venture, and if all agree, we will form a communistic colony. We hope to leave by Jan. 1."

Carved in a Butcher Shop.
Reedsburg, Wis., Aug. 25.—Frank Priest and Peter Dangel indulged in a fight and Priest is in a dangerous condition. Priest entered Dangel's meat market and abusive words were used. Dangel attempted to put him out. Priest struck him in the face and Dangel returned the blow with a meat carver, inflicting a wound several inches long and penetrating the skull.

Postal Stations in Porto Rico.
Washington, Aug. 25.—The postmaster general has ordered that military postal stations be established in Porto Rico at Guayamas, Mayaguez and San Juan, with facilities for the transaction of money order and registry business, sale of postal supplies and receipt and dispatch of mails. These offices are included in the military station of which the Washington office is the head.

Not True Says Sampson.
Washington, Aug. 25.—Admiral Sampson said, concerning Garcia's claim that Cervera surrendered to the Cubans and was turned over to the navy, that it could not be true. There were no Cubans about except a few on the shore. The admiral says Cervera was taken off his flagship by the Gloucester and was afterward taken aboard the Iowa.

Col. Page Improves.
St. Paul, Aug. 25.—Considerable improvement was noted in the condition of Col. Page yesterday afternoon and the attending physician was partly relieved. As yet he has only developed malarial fever, which is not considered as serious as typhoid. It was believed for a time that his ailment was typhoid, but his improvement yesterday denies that.

Deaths From Heat.
Chicago, Aug. 25.—The official maximum of temperature in Chicago yesterday—93 deg. in mid-afternoon on the Auditorium tower—was within a degree of the record of the hottest day of the year. The cases of prostration reported to the police included four dead, ten seriously overcome and nine whose recovery was expected.

Poisoned by Tomatoes.
Chicago, Aug. 25.—Three members of the family of Rudolph Kunze and two guests, H. N. Frederick and Mrs. Nettie Russell of Peoria, Ill., were poisoned by eating tomatoes which were mistaken for mushrooms. The condition of the victims is critical.

Increase the Army.
Berlin, Aug. 25.—The National Zeitung announces considerable changes and an increase in the army. It says the formation of another army corps, with headquarters at Mainz, is contemplated, and that the artillery arm of the service will be organized.

Bring Home Captured Cannon.
Washington, Aug. 25.—The secretary of war has sent a telegram to Gen. Shafter approving his request to be allowed to bring home the cannon captured from the Spanish army at and near Santiago by the forces under his command.

Murdered His Mistress.
Angouleme, France, Aug. 25.—Near the ground where the grand manoeuvres have been in progress, a captain of artillery murdered his paramour and his orderly and blew out his own brains. The crime grew out of a quarrel.

Armed Bound Over.
La Crosse, Wis., Aug. 25.—Dr. Arno, the confidence man whose operations here created considerable excitement a year ago, and who was captured at Duluth recently, has been bound over to the circuit court.

Health and Spirits Excellent.
Washington, Aug. 25.—In a dispatch received at the war department Gen. Merritt says that the health and spirits of the troops at Manila are excellent.

Fought With Stilettees.
Baltimore, Aug. 25.—John Restivo and John Muscolino quarreled over a trivial matter and fought it out with stilettees in an open field in the presence of a single witness. Restivo was killed. The police are after Muscolino.

Shells for the Navy.
Washington, Aug. 25.—Bids were opened at the navy department for 100,000 six-pounder steel shells, 100,000 three-pounder steel shells and 100,000 one-pounder steel shells for the use of the navy.
