Mrs. William J. Pickett, of Apalachicola, Fla., is spending a while in this city, visiting her mother, Mrs. M. E. Ansley, and is welcomed to her former home by a wide circle of friend. Before her marriage last November, Mrs. Pickett was Miss Margaret Ansley.

Mr. Leon Grainer announces the presentation of the comedy drama, "The Horse Thief," to be produced at Woodmen Hall, benefit W. O. W., on Monday night, June 9th, by the Grainer-Shields Dramatic Company. The play is one of unusual interest and merit and will attract a large audience.

Messrs. George H. Edwards, Edwin Edwards, Paul Bothe and Miss Edwards made a run from this city to Gulfport a few mornings since in a litte over two hours time, the roads all the way fonnd in an unusually good condition. The trip was taken by way of Kiln, Fenton, DeLisle, Pineville, Pass Christian.

The Bay Benevolent Association is one of the most prosperous organizations in this city, benevolent and fraternal, with an ever increasing membership. On next Saturday night the association will give its ball, and, judging from indications the affair is going to be a big one. Mr. R. C. Engman is president.

Rev. Dr. T. B. Cottrell and Mrs. Cottrell heee returned from Brookhaven, Miss., accompanied by their daughter, Miss Maggie, who graduated with honors from Whitworth Female College. Dr. Cottrell was honored at the commencement exercises by being selected as one from many to present the medals.

Mrs. Howard Pate and accomplished daughters, Misses Myrtle and Verna, left a few days since with Mr. Pate and their son, Roy Pate, for a long tour on the vaudeville stage. From N. O. Picayune: Mr. and Mrs. George H. Dunbar will leave Saturday for their summer home at Biloxi, Miss., to spend the next few months. They will be accompanied by Mr. and Mrs. Auguste Capdevielle, who will spend the season with them. The Dunbar home is one of the most charming and spacious on the coast, and Mr. and Mrs. Dunbar are frequent hosts to friends from New Orleans, who annually enjoy their hospitality. The Olga, their yacht, is one of the largest pleasure boats in commission at Biloxi, and is brought into requisition on numerous occasions each summer for cruises to the islands and for evening or afternoon parties on the sound.

Mrs. Gaston G. Gardebled, residing at Clermont Harbor, came over to Bay St. Louis Thursday morning to be present that night at the memorial exercises held by the Woodmen Circle in memory of the late Mrs. Gray, and of which organization she is an officer. The Gardebled family are residing at Clermont Harbor while the Hopkins-Rhodes Co. people are having constructed a 40-room hotel, of which work Mr. Gardebled is superintendent. It is expected the hotel will be completed about July 4th, when a public reception and barbecue will be given.

One of the delightful events of the week was the moonlight sail given on Tuesday night by Hon. and Mrs. George C. Firsching on board the 'Belle Creole' in compliment to Miss Mary C. Cook, of the Bay High School, on the occasion of her departure for her home at Hazelhurst week after next, where she will spend the summer. The "sail" was a most enjoyable one, largely attended, and an evening with a clearer moon and more propitious breezes could not have been selected to better advantage. A feature of the evening was the dancing on the vessel's broad deck.

Mr. Clark Sintz and family, of Ohio, are among new residents in this county and have purchased a farm in the vicinity of Waveland, and their poultry department has proven a success, shipping their products to New Orleans market. Mr. Stintz is impressed with the agricultural possibilities of this section aad says Southern farmers do not get their full from the soil where the climate is so propitious for the harvesting of more than one crop a season. He is a believer of intense and intelligent farming—the kind that pays.

The beautiful scene presented by the impressive annual first communion ceremonies will take place tomorrow morning at the Catholic church of Our Lady of the Gulf, Rev. J. M. Prendergast, pastor. These are the solemn first communion exercises, and an unusually large number of boys and girls will take part.

We have good watches brought to us every day that are badly damaged from running too long without cleaning. If you have a good watch, have some consideration for it and have it cleaned and oiled once a year, and it will repay you in good timekeeping and, besides, preserve it from wear. Let us do the job; we do it right.

J. E. BRIGGS,
Jeweler and Optometrist.

Contractor T. M. Favre has resumed work on the city sea wall, where it is proposed to build a span over fifteen hundred feet long. Work was started about two weeks since and had to be stopped due to defectiye moulds, but these have been remedied and the work is now progressing rapidly, and Supervising Architect Victor is well satisfied. The plans call for 20-inch concrete pilings, tongue and groove, and will be sunk to a uniform depth.

I know from what experience I have had already, there are scores of people in Bay St. Louis wearing glasses that are unsuited to their eyes. Why not have your work done at home and have it done right. You take no chances when you buy your glasses from me, as I guarantee my glasses to be correct, or money refunded.

J. E. BRIGGS, Optometrist.

The numerous friends of Mr. R. C. Rush, now of Biloxi, were glad to see him here on Tuesday evening, though his stay was short. Mr. Rush, formerly connected with the Power Drug Company, of this city, is now a member of the drug firm of Rush & Grayerson, at Biloxi, one of the leading business houses of that city.

Mr. James Munton and family moved during the early part of the week to their new home at Fenton, where Mr. Munton will engage in stock farming. He has extensive lands and has had a number of buildings erected, including a fine dwelling and another for his son.

ADVOCATES A FREE OYSTER TRAFFIC.

Secretary of State Commission Tells Biloxi State Restrictions Should Be Few.

Biloxi, Miss., May 20. — J. A. Joullian, secretary of the Alabama Oyster Commission, a Biloxi visitor to-day, conferred with prominent packers relative to the oyster industry and also visited his father and other relatives who live here. He went to Gulfport to-night and will return to Mobile tomorrow morning.

While chiefly interested in the Alabama industry, he is concerned for the welfare of the industry in all the Gulf States, and he declared he believed oyster traffic between States should be allowed with as few restrictions as possible. He believes the oyster traffic between States should band closer together to protect their industry against other sections of the country, and pointed out that even now Norfolk was selling to the Birmingham territory, which is legitimately the Gulf Coast's.

He said an effort was made some years ago to form a Gulf States Oyster Association, but lack of interest, chiefly in Louisiana, prevented its consummation.

One important thing his State wants, he says, is better sanitary conditions surrounding the sale of oysters in the interior, as the sale of oysters unfit to eat naturally damages the trade. He commented on the particularly fine factory sites of the Mississippi Coast, and Biloxi in particular.

CLOSING OF BAY ST. LOUIS PUBLIC SCHOOL.

Event Will Occur at the Woodmen of the World Hall on Next Friday Evening, May 30. Prof. Linfield, Superintendent of Schools at Biloxi, Will Deliver Annual Address.

Commencement exercises of the Bay St. Louis High School will take place at the Woodmen Hall on next Friday evening, when nine pupils will receive their diplomas, having completed the full course, as prescribed by the school. The customary program will prevail, with Prof. C. E. Ives, superintendent of city schools, master of ceremonies.

It is worthy of note to say that the annual address will be delivered by Prof. R. P. Linfield, superintendent of schools at Biloxi, and well known at Pascagoula, where he successfully had charge of schools. Prof. Linfield addresses the graduates of the public school at Van Cleave today.

The graduates from the Bay High School are seven young ladies and two young gentlemen, named at random: Messrs. Nolan Reginald Peyroux and William Roy Bell, and Misses Aurora L. Sylvester, Ethel F. Sylvania, Bertha E. Habicht, Gladys M. Ansley, Ann McGinn, Mabel A. Chevis, Georgie R. Krankey.

In addition to diplomas presented to the foregoing graduates, diplomas will also be given to the graduating class from the grammar grade, better known as the eighth grade, which will admit the class to the high school department next fall.

There will be only one night's entertainment this year, according to the wish of the board, in view of the fact that only a few weeks since a splendid entertainment was given for the benefit of the piano debt, which, by the way, was completely wiped away. To give another would necessitate much work and time at the busiest period of the year, when grade examinations are being held and the course of studies for the season will be brought to a close.

The colored school will close on Saturday night.

PROJECTED GULFPORT ROAD ASSURED.

Eighty Thousand Dollars Raised For Proposed Line to Covington, La.

The committees soliciting subscriptions for stock to the Gulfport & Western, a projected railroad from Gulfport to Covington, La., report over $80,000 having been raised of the $100,000 requested by the promoters. That the small additional fund will be raised within a few days is without question. The carrying of the election for the issuance of $150,000 in bonds by the city is practically conceded.

The election will be held May 31st. The result of the election, together with citizens' subscriptions, amounting to $250,000, will be formally delivered to the president of the company, who will proceed to New York with other subscriptions from along the line of the proposed road and its terminus, Covington. Upon his return to Gulfport the actual question as to construction will then be known.

Governor Brewer adheres to his determination to submit only one subject of legislation to the Legislature when the solons get together in extraordinary session the second week in June, and that is the adoption of a measure for the relief of the Mississippi Levee Board. The Governor states that he named Tuesday, June 10, as the date for convening, with the expectation that the body would set immediately to work, the presumption being that a bill for authorizing the proposed bond issue would be already drafted, and that its passage would be a mere matter of procedure. He figures that if this is taken up at once the measure could be passed and the body be ready to adjourn by the end of the week.

The Mississippi State Fair Association has promised to Secretary McDonald to present a handsome silver cup as a prize to the county agent whose county makes the best display of canned tomatoes at the next State fair. The county that wins this cup two years in succession becomes its final owner. Miss Susie Z. Powell, supervisor of school improvement work and in charge of the Girls' Tomato Club, is delighted at the action of the fair association, being confident that it will stir county agents to better efforts than ever. The girls of Mississippi have already made a great record as tomato growers, some of them putting up nearly two thousand cans from one-tenth of an acre of land and selling same for about $100. That means at the rate of about $1,000 an acre for tomatoes.
