THURSDAY, JUNE 30, 1892.

GEORGE W. CASSIDY DEAD.

Hon. Geo. W. Cassidy died suddenly of apoplexy at Reno last Friday afternoon. He was attending the Silver Convention there and had made an eloquent speech explaining his position. He complained of not feeling well and left the convention about 5 o'clock, going immediately to his hotel. Twenty minutes later he was dead. Mr. Cassidy was one of the most prominent Democrats in Nevada, spent many years in public life and rendered valuable services to the people. He served eight years in the State Senate and represented Nevada in the Forty-seventh and Forty-eighth Congresses. During Cleveland's administration Mr. Cassidy was appointed one of the National Bank Examiners for the Coast, and at the time of his death he was the Democratic nominee for Congress in this State. For many years he has been one of the proprietors of the Eureka Sentinel. Mr. Cassidy's death was sudden and entirely unexpected, and he leaves a host of friends to mourn his sudden taking off.

NEVADA SILVER MEN

The Silver League Convention at Reno on last Friday was largely attended, but the proceedings were brought to an abrupt termination by the untimely death of Hon. Geo. W. Cassidy, one of the prime movers of the organization.

The convention was called to order at 12:30 and Hon. Thomas Wren was elected temporary chairman. After the appointment of committees, a recess was taken until 3 p. m.

At the afternoon session C. C. Powning of Reno was elected permanent chairman. There were ten counties represented by 198 delegates. It was decided to name the organization the Silver Party of Nevada. Three Presidential electors were selected, Thomas Wren of Eureka, M. S. Bonifield of Humboldt, and C. C. Powning of Washoe; and Geo. Nixon of Humboldt county, Geo. Brown of Storey county, and J. W. Westfield of Lyon county, were appointed alternates.

Twelve delegates were also selected to the Omaha Convention, viz:

Judge Ben Curler of Washoe county, W. D. Noteware of Ormsby, J. A. Plummer of Elko, Jos. Mazen of Humboldt, S. L. McNaughton of Esmeralda, W. H. Pike of Washoe, R. Saddler of Eureka, Sam Paull of White Pine, G. S. Nixon of Winnemucca, A. Evans of Washoe.

The convention was addressed by Hon. Geo. W. Cassidy. Shortly after his remarks, he complained of feeling badly and retired to his room at the hotel. A few minutes afterwards the convention was shocked by the announcement of his sudden death and immediately adjourned out of respect to his memory.

On convening Saturday morning a resolution was adopted to send delegates to the Montana Mining Congress. It was resolved to co-operate with the American Bimetalic League of Washington. After adopting resolutions of respect to the memory of Mr. Cassidy, the convention adjourned.

The following is the platform of principles:

First—We demand the full remonetization of silver and the free and unlimited coinage thereof at the present ratio of 16 to 1.

Second—We are radically and unalterably opposed to the national Republican and Democratic parties on the question of the free coinage of silver, and we denounce the action of their recent national conventions as inimical to the material interests of the people of the United States, and especially to those of Nevada and all the other mining States and Territories, and we hereby repudiate the nominees of their conventions.

Third—We pledge the nominees of this convention for Presidential electors to support no man for President or Vice-President of the United States who is not unqualifiedly in favor of free coinage as defined by this convention, and we refer to the Silver League of Nevada assembled the right of directing the said Presidential electors for whom to cast their votes should a contingency require.

DR. GIBBS, a New York specialist who treated ex-President Cleveland for obesity, has been engaged by Jim Corbett, to superintend his training.

THE ministers of Brooklyn, N. Y., have opened a campaign against the saloons of that city, and recently called upon the mayor in reference to enforcing the Sunday law. Among those who called was the Rev. Dr. Dixon, a colored minister, who said that some of his flock on their way to church dropped into a saloon for an eye-opener and then slept during the sermon. Five colored children on their way to a saloon on Sunday dropped their pitchers when they saw him and ran. He didn't mind the breaking of the pitchers, but he did emphatically object to the brethren taking a nip in the saloons and then taking a nap in the church when he was "expounding the Word."

DR. PRICE'S Cream Baking Powder.

Used in Millions of Homes—40 Years the Standard.

THE DEMOCRATIC PLATFORM.

The following is a synopsis of the platform adopted by the National Democratic Convention. The platform is very solicitous about the South and the blighting effects of national legislation for that section, but has little to say about the incubus that now rests on the silver producing section of the country. It denounces the Force bill—that did not pass—as "infamous," but makes no mention of the really infamous bill that did pass Congress—demonetizing silver:

After reaffirming allegiance to the Jeffersonian principles, it warns the people of the dangers of the policy of federal control of elections to which the Republican party is committed, and denounces the Force bill as the most infamous bill that ever crossed the threshold of the Senate; pledges opposition to the Republican policy of profligate expenditure; reiterates the doctrine that the necessity of the government is the only justification for taxation, and that the enormous additional imposition of the existing tariff falls with crushing weight upon the farmers and workingmen; denounces the McKindley bill as the culminating atrocity of class legislation; denounces as a sham the present reciprocity policy of the government; declares that trusts are the consequences of prohibitive taxes; charges the Republican party with giving away the public lands to railroads and non-resident aliens; declares that Cleveland's administration reclaimed nearly a hundred million acres of this land; declares the Sherman act of 1890 as Republican legislation and as a cowardly makeshift; holds to the use of both gold and silver as the standard money of the country, and the coinage of both gold and silver without discrimination against either metal or charges for minting, but the dollar unit coinage of both metals must be of equal intrinsic value or adjusted to such by safeguards in legislation as shall insure the maintenance of parity between the two metals, and the equal power of every dollar in the market and in the payment of debts; demands that paper currency be kept at a par with and redeemable in such coin; recommends the repeal of the prohibitory tax on State bank issues; affirms the declaration for a reform of the civil service; asserts that the Democratic party is the only party that ever had a vigorous and consistent foreign policy; favors a navy strong enough for national defense and to maintain the honor of the country; condemns the oppression of the Jews by Russia, and calls on the American government to use prompt efforts to bring about a cessation of the cruelties; sympathizes with the cause of home rule for Ireland; approves the efforts to stop the immigration of criminals and paupers and contract laborers; demands the rigid enforcement of laws against the Chinese; favors the immigration of industrious and worthy foreigners; favors just and liberal pensions for all disabled Union soldiers, their widows and all dependants; denounces the present pension administration as corrupt, dishonest and incompetent; favors the improvement of the Mississippi and other waterways; demands the early construction of the Nicaragua canal and its protection from foreign control; favors financial aid to the Columbian Exposition by the National government; favors liberal appropriations by the States for public schools, and opposes State interference with parental rights and the rights of conscience in the education of children; approves of the admission as States of Arizona and New Mexico; holds that Territorial appointments to office should be made from bona fide residents of the Territory; favors legislation to protect the lives and limbs of railway employees and other hazardous corporations, and denounces the Republican party for opposing such legislation; opposes all sumptuary laws; favors the passage of laws abolishing contract labor and the notorious sweating system, and prohibiting the employment in factories of children under fifteen years of age. It asks a change of party in order that there may be a change of methods.

NATIONAL MINING CONGRESS.

The second session of the National Mining Congress will convene at Helena, Montana, July 12th. This convention will be one of deep interest, especially since both of the national political parties have virtually tabooed the mining industry. Governor Colcord has appointed the following delegates from Nevada: G. S. Nixon, Winnemucca; F. G. Newlands, Reno; Geo. Russell, Elko; James Shaw, Dayton; F. X. Murphy, Ely; C. W. Hinchcliffe, Austin; S. J. Knapp, Hawthorne; T. J. Osborne, Pioche; W. E. F. Deal, Virginia: Geo. W. Cassidy, Eureka.

THE information of the Munich Allgemeine Zeitung that the Emperor William plans to visit Chicago seems to be authentic. In both the court circles and high official quarters the visit is now considered a certainty.

THE Governor of Montana has issued a proclamation forbidding the bringing of sheep into Montana from Oregon, Nevada, California, Washington, Idaho or Utah. This action is undoubtedly taken at the request of the cattlemen of that State.

WASHINGTON LETTER.

WASHINGTON, June 20.—Republican enthusiasm is plentiful around Washington to-day. The committee appointed by the National convention, headed by Governor McKinley, called at the White House at noon for the purpose of officially notifying the President of his nomination for the Presidency. The President, surrounded by the members of his Cabinet and other prominent Republicans, received the committee in the East room of the White House. Governor McKinley made the notification speech, which was a model address of its kind, not too long, not too short; not too gushing, not too stiff. In short it was the right speech for the occasion, and earned for the Governor the applause and congratulations of all who were fortunate enough to have heard it.

The President's reply was, like all the rest of his speeches, in choice language and in perfect good taste; he indulged in no bragging or blustering—he is incapable of that sort of thing,—but there was a ring in his voice and a look in his eye which left his hearers in no doubt as to his feelings about the result of the election. He is confident of winning, but those who talk with him soon find out that he fully realizes the obstacles to be overcome, and does not expect to win without a hard fight, and the aid of every Republican; and the knowledge that he has conscientiously performed his duty and given the country an administration that every patriotic American is proud of, makes him confident that no Republican will withold his aid or vote.

The Democrats of the House nearly all wanted to go to Chicago to see the fight to the death between Cleveland and Tammany, and not desiring to present such a spectacle to the country as holding sessions with all empty seats on the side of the House to which two-thirds of members belong, they adjourned from Saturday until Wednesday, with the understanding that another adjournment for three days would be taken on that day, and the Republican members good naturedly acquiesced.

Before the House adjourned, Saturday, Representative Kilgore of Texas prevented the passage of a bill by unanimous consent, allowing all G. A. R. men in the employ of the Government in this city seven days leave with pay during the National encampment in September. Mr. Kilgore enjoys nothing better than rapping the old Union soldiers over the knuckles at every opportunity.

The Democratic members of the House Committee on Reform in the Civil Service have signed a report censuring Postmaster-General Wanamaker because he did not dismiss certain employes of the Baltimore Postoffice recommended for dismissal by the Civil Service Commission. It is probable the Republicans on the committee will present a minority report, upholding Mr. Wanamaker for not dismissing the men on such flimsy evidence, when he had a report contradicting even that, made by postoffice inspectors.

The President and other prominent officials have been invited to attend the launching of the big battle-ship Texas, at the Norfolk Navy yard on the 28th inst. This is the vessel about the plans of which there was such a controvesy early in the present administration. It was contended by some naval officials that the plans were radically wrong, and that the vessel would never float if it were built according to those plans. There were some changes made in them under direction of a committee of naval officers, and she is now probably all right. It is expected that a large crowd will go from here to see the launching.

AN English prophet has predicted the death of Queen Victoria in less than one year.

SAN FRANCISCO has long been known to be an immoral city, but at the rate crime of all kinds is increasing the place will soon take rank as the wickedest city in the world. Of late the coroner's department has been kept busy investigating the death of women caused by criminal operations, no less than twenty-five deaths having resulted from such operations in the past few weeks, besides no doubt many cases that did not come to the knowledge of the authorities. An exchange says the death rate from these causes is at least two a day in the chief city of the Pacific.

IN the early part of this month a British steamer left London freighted with a great ocean cable that is to be laid in the Atlantic between Africa and Brazil. The cable is 2,165 miles in length and 4,945 tons in weight, and is superior in several respects to any other submarine cable. It is to be laid during the present summer, and will be in working order in July. It will extend from Port St. Louis near the mouth of the Senegal in Western Africa, to Pernambuco, on the eastern coast of Brazil. In Africa it will connect with lines running northward, as far as England and other European countries. In Brazil it will connect with the cable lines between Pernambuco and Santos, where it will be in communication with the land and water lines running to many other parts of South America.
