DR. MILES' NERVINE

There is nothing like the RESTORATIVE NERVINE discovered by the great specialist—DR. MILES—to cure all nervous diseases, as Headache, the Blues, Nervous Prostration, Sleeplessness, Neuralgia, St. Vitus' Dance, Fits and Hysteria. Many physicians use it in their practice, and say the results are wonderful.

Dr. Miles' Restorative Nervine has been a godsend to me. I had expended about $200 in doctoring with eleven physicians, but everything seemed to get worse. I could not go anywhere for fear of an attack from spasms. I then tried *Dr. Miles' Restorative Nervine*, taking a number of bottles, and I have not had an attack for five months. I recommend the Nervine to all afflicted with this disease. D. J. PIKE, Vanlom, S. D.

We have hundreds of testimonials like those from druggists: "We have never known anything like it."—Snow & Co., Syracuse, N. Y. "Every bottle sold brings words of praise."—J. G. Wolf, Hobdale, Miss. "The best seller we ever had."—Woodworth & Co., Fort Wayne, Ind. "Nervine sells better than anything we ever had."—H. F. Wyatt & Co., Concord, N. H. Book of testimonials Free at druggists.

The persons who are declaring that the back rail. A taxes will have to be paid will find out in due time that they were orating through their head gear.

Several persons, who were not interested in the matter, called our attention to the fact that the merchants who advertised in this city were the ones who enjoyed the large holiday trade. These fortunate ones are not of that class, either, who advertise just before holidays, but the ones who keep everlastingly at it. This seems natural, to, when it is thought over, for the names of the regular advertisers have been stamped on the minds of the people for a year, and when anyone starts out to buy any thing it occurs to them that these firms handle the goods they want, and they make a call for that purpose. These regulars, being up to business in every way, always have a complete line of holiday goods and the purchasers provide themselves with what they want before going elsewhere. We ask all to make a minute of this and see if it is not true.

"It is not so hard after all to get rich," remarks an exchange. It is to trust nobody, befriend none, to get everything and save all you get; to stint ourselves and everybody belonging to us; to be the friend of no man and have no man for our friend; to hord interest upon interest, cent upon cent; to be mean, miserable and despised for some thirty years; and riches will come as sure as disease and disappointment. And when pretty near enough wealth is collected by a disregard of human heart, at the expense of every enjoyment save that of wallowing in filthy meanness, death comes to finish the work—the body is buried in a hole, the heirs dance over it and the spirit goes—where?

The following from the Edina Independent could as well be said of this town: "We know of nothing that would pay so well as a pork packing establishment at this place. While hogs readily command 5 1-2 cents per pound, next summer we will pay from 12 to 15 cents per pound for this same meat under the name of bacon. The consumer pays the freight both ways, besides paying a percentage to each party handling it. Would it not be better to keep all this money at home and let our people secure the profits in the premises? There should be no difficulty in securing a stock company for such an enterprise in our town and county."

Last Thursday evening, at the Christian church in this city was solemnized the marriage of Wm. L. Scott and Miss Maybelle Reddish, two of the leading young people of this city. The groom has held a position as deputy county clerk for five years, filling that position to the satisfaction of all. The bride comes from one of the oldest families in Memphis and is loved by all for her many womanly qualities.

John O'Conner died at his late residence in this city, Tuesday, December 20th, aged 75 years and 1 months. The deceased had been sick for several months. Mr. O'Conner was an old resident of this county, and thirty years ago one of the leading business men of the city. The funeral ceremonies were held at the family residence yesterday.

J. P. Tennant was particularly pleasant last Saturday and could scarcely do enough for his friends. Mr Tennant is always very accommodating, but he was carrying the matter a little too far and we could not make out the reason until one of his neighbors whispered to us that Mrs. Tennant had presented him with a new boy on Friday.

The entertainment given by the Nashville University Students, Monday night, was fairly good. As long as they confined themselves to their own specialty, all went well, but for colored troupes to attempt to inflict "high up" singing on the public is too much for the average nerves to stand.

The Kansas City Star says that Miss Lenora K. Murray has been safely married in Montana. It will be remembered that Miss Murray gave an entertainment in this city about a year ago and that many beardless youths were smitten.

Henry Vaught, one of the leading young farmers of this county, died at his late residence, in Union township, near the Cline school house, last Friday. Mr. Vaught leaves a wife and three small children. The cause of his death was typhoid fever.

E. P. Reister, of this city, received a letter Monday night that his elder brother had been seriously injured in a railroad wreck near Little Rock, Arkansas, recently, and that a nephew was killed in the same catastrophe.

As the old year is about to close, look over your past record and see if you can't do a little better in the coming year. A little more kindness and charity for your neighbors, for instance.

Convalescence carried by Dr. Miles' Nervine.

The young men and young women who aspire to obtain Academic or College education, and whose parents cannot well afford them that expense, will be interested in the work of The Cosmopolitan Magazine, which has offered for the year 1893 one thousand scholarships at any of the leading colleges or schools of the United States, upon the condition of introducing the magazine into certain neighborhoods. Yale, Vassar, Harvard, Ann Arbor, Chicago, the Southern colleges, the great school of art and medicine, all are alike open to the ambitious boy or girl who is not afraid of a little earnest work. The Cosmopolitan sends out from its New York office, a handsomely printed pamphlet to any applicant telling just what is necessary in order to secure one of these scholarships. The scholarship itself includes board, lodging, laundry and tuition—all free.

This is the way one of our exchanges gets at it: "For a good, every day household angel give us the woman who laughs. Her biscuits may not always be just right, and she may occasionally burn the bread and forget to replace dislocated buttons, but for solid comfort all day she is a regular paragon. Home is not a battlefield nor life one long mending row. The trick of always seeing the bright side, of shining up the dark one, is a very important faculty—one of the things to women should be without. We are not all born with the sunshine in our hearts, as our Irish friends phrase it, but we can cultivate a cheerful sense of humor if we only try.

In Norway married couples are allowed to ride on railways at one and one half fare for both. On a K. & W. train last week was a newly married pair who certainly were clearly entitled to ride for one fare, as they only occupied room enough for a single passenger.

Joseph Bourn and Bud Johnson have purchased the Memphis House of John S. Pile. Just what the latter will now turn his attention to is difficult to state, but whatever it may be the enterprise will be a success.

Leader Witt has purchased the barn formerly occupied by Clarkson & Fravel as a livery stable, for the purpose of providing a place to keep his fine roadster and saddle horses.

The Citizens' Bank directors, Tuesday, reelected the old officers—J. E. Parish, President; C. R. Combs, Vice-President; N. V. Leslie, cashier; Milo Cowan, assistant cashier.

Don Carlos Tinney has contracted with the Leach & Gardner show to become a member of their band next summer. He expects to join the show about May 1st.

Services will be held in the new M. E. Church for the first time next Sunday, morning and evening. Everybody invited.

Card of Thanks.

It may seem unnatural for us to be thankful for the severe pounding which was administered to us Dec. 23, but as we are bidden in the book to rejoice in "tribulation," which literly mean "pounding," we are obedient, and in this we rejoice with exceeding joy.

Memphis Methodists do not do things by halves, but while our party was a pound party at least one brother administered to a hundred fold (in flour).

In as much as ye done it unto us, who are among the least of the servants of the Master, may you realize that you have done it unto Him. May the Lord meet to you the measure you have meeted to us, and may you have Methodist measure.

B. M. DANFORD AND FAMILY.

The committee of ten, a board of directors of the Citizens' Alliance of Scotland county, Mo., have contracted and employed John D. Smoot and J. Y. McClintock as counsel and attorneys to defend the property of all members of said organization in the county from sequestrations of their property now attempted by persons claiming the authority of law to do so, and all citizens who desire to avail themselves of said defence will join said Citizens' Alliance in their townships and pay to the treasurer 5 per cent of the levies of R. R tax for 1887 and 1888, or pay the same to John L. Holley, treasurer of the committee of ten, at Memphis, Mo. Any member of said alliance can consult said attorneys at Memphis, any time in regard to their defences and get directions how to proceed under all circumstances.

The Ladies' Home Journal.

The social laws that govern girls at the theater, opera and concert form the third of Mrs. Burton Harrison's excellent papers on "The Well-Bred Girl in Society," in the January number of the Ladies' Home Journal, and Mr. William Dean Howells fitly supplements this article with his story of American girl-life, "The Coast of Bohemia," which gains much in brightness and spirited action as it proceeds. "How I Wrote Ouida" is told by Ouida herself through Lucy H. Hooper, and a splendid companion article is given by Mamie Dickens, in which she tells the complete story of "How Father Wrote His Books." Two other articles that fit well together are Mrs. Admiral Dahlgren's exhaustive and clear-cut description of "Social Life in Washington," Mrs. Burton Kingsland's Career." Edward Bok writes well and wisely on "The Literary Chances in New York," a sketch which Brander Matthews supplements by giving an admirable sketch of "Girls' Life in New York City." Palmer Cox and his famous Brownies on a tour around the world. A most beautifully illustrated poem by Frank Stanton, called "The New Year Minuet," opens this number of the Journal, which has again a new cover of the Italian Renaissance style. All through the issue there is that brightness of entertainment and those evidences of careful editing which has made this magazine what it is, and helped to it each month an army of 600,000 readers. "One dollar for one year" is the motto of the Journal, or rather of its publishers, The Curtis Publishing Company, of Philadelphia.
