The occasion was made an especially interesting one, as it is not every day the lodge has a U. S. senator to work upon. A large number of Knights were in attendance including several visitors from out of town. After finishing the work in the lodge room, adjournment was taken to the Aberdeen, where a choice banquet had been arranged and about one hundred guests sat round the festal board. A Hint to Aberdeen.

W. D. Washburn of Minneapolis, has just purchased 115,000 acres of land in Burleigh and McLean counties North Dakota of the Northern Pacific Railway Company. This land lies north of Bismarck, is in a rich agricultural country and has extensive deposits of coal. Mr. Washburn is a director of the Soo Railway and the purchase of these lands at this time would seem to indicate that that line has intentions of building into that country. This taken in connection with the fact that the Soo company recently issued bonds for five million dollars looks as if that line contemplated doing considerable railroad work the following summer. A little effort on the part of Aberdeen people and those tributary to the line might induce the company to iron the grade from Wishek to Aberdeen. Will such effort be made.—Leola Herald.

Base Ball Association.

A large number of citizens who are interested in organizing a base ball association in Aberdeen, held a meeting last night and it was decided to organize a stock company and offer for sale 200 shares at \$5.00 per share. A large number of them were sold last evening and a committee of seven appointed to dispose of those remaining.

As soon as the 200 shares have been sold the stockholders will hold a meeting and elect a president, vice president, secretary and treasurer and definite plans will be decided upon. The association is to continue for ten years.

Bryan at Tacoma.

The managers of the Tacoma Park meeting have been making an effort to secure William J. Bryan for a speech at Tacoma Park sometime during the camp meeting next month. Mr. Bryan has written that he can probably arrange to come on June 27th. The matter has not been definitely settled yet but it is very probable that Mr. Bryan will be present. The announcement that the greatest American orator would give a speech would no doubt attract the biggest crowd ever gathered together in Brown County.

Two-Thirds Contributed.

About two-thirds of the 12,000 bushels of potatoes have already been subscribed for the desipota factory and it is safe to say that the balance will be given. The farmers are taking right hold of the matter and many who have contributed largely are inducing others to contribute. An institution of this kind will be a great boon to farmers and they seem to recognize the fact. Considering the busy season the farmers have done well and their efforts will result in adding a very important industry to this county.

"Obstinate"

Becky Jones,
of Ballston Spa, N. Y., received the above title because she would not testify in the celebrated Hammersly will case several years ago, and consequently was confined in the Ludlow street jail by the late Judge. She says in a letter recently received:

"When I was released from prison my health was broken down. My nervous system could not recover from the strain. For ten years life was a burden. Good physicians did me no good. I used Dr. Miles' Nerve and Tonic and today I am entirely well."

DR. MILES' Restorative Nerve

what clothing is to the body. It is just as important. You should take as much care in selecting the paint to clothe your property, as you do in selecting the material to clothe your person. Paint preserves the building. Paint gives beauty to the building. In painting the labor costs more than the paint. There will be a large waste if the right paint is not used.
