## WILL BE IGNORED

### NO NOTICE WILL BE TAKEN OF THE "ROUND ROBIN."

The Administration Will Allow the Matter to Drop—Dispatches Received Which Have Given Comfort and Encouragement to Members of the Cabinet Who Have Seen Them—Natives Endeavoring to Throw Off the Yoke of the Tagals—Colorado Have Sailed.

Washington, July 20.—It was stated at the war department that no attention whatever would be paid to the "round robin" of the Manila correspondents. The protest was not sent to Gen. Otis, and it is said will not be, and Gen. Otis will not be called upon for an explanation. In addition to this, it was intimated that very encouraging news had been received from the Philippines and that the situation was much better than had been generally believed.

The advice which the president received from Manila, and which gave so much comfort and encouragement to the members of the cabinet to whom they were communicated, had a bearing rather on the political than on the military situation, although there is naturally very direct connection between the two at the present time. The commission, or at least so much of it as remains at Manila since the departure of President Schurman and Admiral Dewey, has been unremitting in the effort to restore the confidence of the natives and aid the military operations by inducing defections among Aguinaldo's followers.

Some progress has been made, more it is said, than the public is acquainted with, for not only have the United States authorities been able to secure the unqualified adhesion of the natives of the more important islands outside of Luzon in the Philippine group, but even in that island they have steadily encroached on what was regarded as purely insurgent territory, and are arranging for the establishment of full civil governments in some of the provinces of the island wherein Aguinaldo has heretofore been the strongest. Because this is to be accomplished by peaceful means and with the full assent of the inhabitants naturally felt that it had cause for gratification.

### THE COLORADOS HAVE SAILED.

The following cablegram has been received from Gen. Otis:

Manila, July 19.—Adjutant General, Washington: Continued heavy rain; cyclonic storms impede business in harbor; Colorados sailed on transport Warren yesterday; Privates Horne and Wilder, Company G, left sick; in addition, 130 discharged men of various organizations took passage. Californians on Sherman arrived from Negro; vessel must be coaled. Await subsidence of typhoon now prevailing.—Otis.

### THE CABINET MEETING.

The Members of the Official Family Are Reticent.

Washington, July 20.—The cabinet meeting was longer than usual and the members, after it adjourned, were more reticent than usual. Secretaries Gage, Wilson, Alger and Attorney General Griggs are out of the city. It was admitted that there was some discussion of the "round robin" sent by the American newspaper correspondents from Manila via Hongkong, but all information regarding the character of the discussion or the nature of the decision, if one was reached, was refused. Later it was ascertained that the decision was reached to allow the "round robin" matter to drop.

### IS THIS ALGER'S GOOD NEWS?

Report That the Natives Are Quarreling Among Themselves.

Manila, July 20.—The natives of the provinces of Albay, South Camarines and North Camarines are endeavoring to throw off the domination of the Tagals. It is reported that there has been fighting between the people of the provinces named and small bands of Tagals who were quartered upon them, running the local governments, and that the people in question are willing to declare allegiance to the United States when troops are sent to protect them.

### ROASTS GEN. OTIS.

Creelman Said to Have Made a Kick Last March.

New York, July 20.—The Journal prints half a page of dispatches from Creelman which it says it withheld because it didn't wish to embarrass the government. Among these was the following private cable dated Hongkong, March 47:

Private to Hearst—Censorship absolutely incredible. Practically impossible to cable news. Otis himself suppresses everything except bare routine. Worse than Weyler's censorship. Otis says he won't allow sensations cabled, even if true. Journal not allowed to send news. Have three men assisting me. Otis clique even discussing forcing all but one Journal correspondent out of the Philippines to prevent too much scrutiny. Dewey hates Otis, who is old woman, jealous of everybody; wants to cut Lawton's throat. Otis is honest, but has the mind of a bank clerk. Will not allow interviews with Dewey to be cabled. Lawton saw Dewey. Think Dewey cabled McKinley, advising him to put Lawton in command of forces in the field. That is situation.—Creelman.

### No Decision Rendered.

## SENATOR NELSON PLEADS.

### Asks for a Recall of the Cass Lake Order.

Washington, July 20.—Secretary Hitchcock, Assistant Secretary Ryan, Commissioner Jones, of the Indian office, and other officials of the interior department gave a long hearing to Senator Nelson of Minnesota regarding the order of June 22 last calling for the removal of all intruders and white trespassers from the Cass Lake Indian reservation. The order goes into effect on the 22d inst. The senator made a forcible remonstrance against the carrying out of the order of removal, setting out in detail the equities of the persons who have squatted on the reservation and reciting the hardships they would have to undergo if forced to abandon their homes. He asserted that the reservation was public land and that the settlers had a right to enter it. He asked that action be deferred pending the next meeting of congress, at which time he believed some remedial legislation would be adopted which would result in an amicable settlement of the case. The senator's remarks were directed particularly to the case of the settlers at the town of Cass Lake, which has grown to be a thriving place. Secretary Hitchcock said at the close of the hearing that he would not announce a decision for several days, as he desired some further information on the subject.

### SETTLERS MAY STAY.

### Order of Eviction Will Be Suspended Until Cass Lake Is Platted.

Cass Lake, Minn., July 20.—Capt. Mercer and Inspector Nessler held a conference yesterday afternoon with citizens. Upon their recommendation some 150 applications for land leases were made, assurances being given that such leases would be approved for terms of one to five years. Many more will avail themselves of the opportunity. Capt. Mercer and Inspector Nessler, who came here unannounced, gave the settlers to understand that the order of eviction would be suspended until the town is platted. The people feel this is a great victory and gladly welcome the protection of the government wing title to lands in question can be acquired.

## THE DEADLY FEUD

### FIVE MEN LOSE THEIR LIVES IN KENTUCKY.

Fetched Battle Occurs Between the Sympathizers of Two Opposing Factions, and When the Smoke Clears Away Five Are Found Dead and Three Seriously Wounded—Tragedy Causes Consternation—The Situation Is Most Deploable.

Louisville, Ky., July 19.—A special to the Courier Journal from London, Ky., tells of a report reaching there of the outbreak of another feud in Clay county, by which five men lost their lives yesterday.

The dead are said to be: Robert Penlot, Ed Fisher, Aaron Morris, Jim Griffin and Hugh Griffin.

These fatalities resulted from a pitched battle fought near Little Goose creek, three miles from Manchester. The feud dates back nearly two years. On Christmas, 1897, James Philpot was killed by Aaron Morris, but before he died he shot and killed William Bundy, a friend of Morris. The Morris and Griffins were closely affiliated. Since then the feeling between the two factions has been very bitter and it has been aroused recently by the White-Baker hostilities. The Philpots, who are the strongest faction in the mountain, numbering about 750 voters, openly espoused the cause of the Bakers, while the Griffins took sides with the Whites. The story that reaches here from Manchester is to the effect that Bob Philpot was arrested yesterday morning by Deputy Sheriff Wash Thacker. While the report does not show clearly the origin of the trouble, or give the reason for Philpot's arrest, it is said that while Tucker was talking Philpot's bond the latter was shot from behind by a member of a crowd that had gathered. This precipitated a general fight with Winchester and revolvers, which was participated in by George Granville, Robert and Peter Philpot and Ed Fisher on one side and Aaron Morris, Hugh, Jim and Green Griffin on the other. The battle began at 9 o'clock and raged furiously for fifteen minutes. When it was over it was found that the five men mentioned above had been killed outright, three of the belligerents were seriously injured, while Pete Philpot was the only one on either side to escape injury.

The story of this battle caused consternation here, notwithstanding the fact that serious trouble has been expected to break out among the mountaineers of Clay county ever since the assassination of Tom Baker several weeks ago. An effort was at once begun to secure deputies to go to the seat of the trouble and attempt to restore quiet, but up to a late hour in the afternoon there had not been enough responses to make up a force that would command respect. The situation at Manchester is deplorable. Since the battle the place has been in a state of terror, scarcely any one daring to venture out of doors. Business is suspended and the residents are momentarily expecting a renewal of hostilities.

### ANOTHER KENTUCKY KILLING.

### Man Beaten to Death in the Night.

London Depot, Ky., July 19.—Clay county has another killing for its annals. Dick Loven's body has been found three miles from Manchester. He was beaten to death in the night. When found his head was severed from his body and had been beaten to a pulp. A forty-five-caliber revolver was found on the body. Having killed three men and injured several he was probably killed by the friends of one of his victims. He leaves a widow and eight children. An attempt has been made to kill Will Gray near Manchester. After three shots had passed through his clothing, one of them scraping his body, he ran into the forest.

### Still Another Feud.

Josiah C. Taylor, a school teacher and a member of a family that once waged a feud with the Lees, was shot from ambush while riding home from school along Puckett creek, near Pineville, Ky. There is small hope of his recovery.

### DUEL TO THE DEATH.

### Former Partners Engage in Deadly Combat.

Chicago, July 19.—With the glass doors of a saloon between them William Van Alen, a saloonkeeper, and Frederick Gondoff, a traveling salesman, fought a duel to the death. Gondoff was mortally wounded and Van Alen was shot through the left thigh. The men were business partners some time ago, but the business was broken up and there has been bad blood between them ever since. A telephone message was received by Van Alen from Gondoff, saying that he was coming down to "do up" Van Alen. An hour later Gondoff entered the saloon and Van Alen pushed him on the outside walk. Both men drew revolvers and commenced firing through the glass door, which was shot to pieces. When the shooting was over Gondoff was shot through the groin and in the small of the back. He was taken to the hospital in a dying condition. Van Alen, whose wound is not serious, was arrested.

### Mrs. Babcock, Who Was Most Popular in Washington.

Madison, Wis., July 19.—A telegram has been received here announcing the death at Neenah, Wis., of the wife of Congressman J. W. Babcock. Death was caused by a cancerous growth on the breast, for which Mrs. Babcock underwent two operations. She was forty years old and was married twenty-six years ago. Her parents, Mr. and Mrs. C. C. Finch, are still living and reside at Lyons, Iowa. During her residence in Washington the past ten years she met many people prominent in official life. ### The Germania of St. Paul Couldn't Stand a Run.

Public Examiner Pope was notified by Gustav Willius, president, who asked the bank examiner to take charge of the institution. The closing of the bank is due almost directly to the recent closing of the Savings Bank of St. Paul by the public examiner. The closing of the Germania bank started a run on the Germania bank which has since been constant. Some of the amounts withdrawn were \$5,000 and more.

In striking contrast comes the pace of the snail—one-quarter of an inch. Here, in order, is a list of things animate and inanimate, that follow the snail: A man, walking, 4 feet in a second; a fast runner, 23 feet; a fly, 23 feet; a fast skater, 38 feet; ocean waves, 70 feet; a homing pigeon, 55 feet; swallows, 220 feet; the worst cyclone known, 380 feet. The rate of sound in the air is 1,085 feet a second; the electric current on telegraph wires, 4,000 miles; induction current, 11,045 miles; electric current in copper wire armatures, 21,000 miles; light, 180,000 miles.

### Ants Eat the Paper Money.

Paper money cannot be used in the Philippines. The islands are infested with ants, which eat almost everything, and are particularly fond of paper.

In a recent shipment of money for the troops was \$1,000,000 in paper of small denominations, and preparations were being made to send more paper in the next shipment, when a warning was given that hereafter nothing but gold and silver coin must be sent to the islands.

It was stated that ants got into the boxes and attacked the packing paper, which was saved from destruction only by the greatest care. As far as the officials here know, none of the money was actually destroyed, the damage done being probably no more serious than the eating away of the edges of notes, or, perhaps, making holes through some of them.
