

ST. ANTHONY'S HOSPITAL.

Oklahoma City, Okla.

Conducted by

Sisters of St. Francis.

As the present building is becoming daily more and more inadequate for the ever increasing demands on its accommodation the Management is confronted with the imperative necessity of completing the original plans. But how can this be undertaken while there is still a large outstanding debt on the present building.

It is to be hoped that philanthropists and lovers of the suffering poor will enable the Hospital authorities erect this much needed addition in the near future. Would it not be a grateful act for some members of our Legislature to propose a special grant for this purpose.

Drs. T. A. BUCHANAN & MARTIN.

Physicians and Surgeons,
