Section 9. After the bank commissioner shall have taken possession of any bank or trust company which is subject to the provisions of this act, the stockholders thereof may repair its credit, restore or substitute its reserves, and otherwise place it in condition so that it is qualified to do a general banking business as before it was taken possession of by the bank commissioner; but such bank shall not be permitted to re-open its business until the bank commissioner, after a careful investigation of its affairs, is of the opinion that its stockholders have complied with the laws, that the bank's credit and funds are in all respects repaired and all advances, if any, made from the depositors guaranty fund fully repaid, its reserve restored or sufficiently substituted, and that it should be permitted again to re-open for business; whereupon said bank commissioner is authorized to issue written permission for re-opening of said bank in the same manner as permission to do business is granted after the incorporation thereof, and thereupon said bank may be reopened to do a general banking business.

Taste is Sure Stomach Guide

A Barometer Which Never Fails, Though Seldom Believed

"Taste is the direct guide to the stomach; and the taste buds are connected by the nerves with the stomach itself, so that they represent its health or disorder. If the stomach or its juices are out of tone, the blood is fermented by a change in the alkaline or acid condition, and these reach the mouth both directly and indirectly.

"The taste buds are in the tongue, and are mounted by hairlike projections called papillae; they cover the surface of the tongue."

"When you taste these buds rise up and absorb the liquid; inform the nerves; the nerves tell the stomach, and the food is acceptable or not, just as the stomach feels."

The above remarks on taste comes from an eminent authority and simply explains why when one smells cooking or sees food one thinks he can eat, but when he tastes he learns the stomach is out of business.

To the person who cannot taste aright, who relishes no food and simply forces himself to eat, Stuart's Dyspepsia Tablets hold the secret of enjoyable eating, perfect digestion and renewed general health.

Most men wait until their stomachs are completely sickened before they think seriously of assisting nature.

When your taste for food is lost it is a certain sign the stomach needs attention. Stuart's Dyspepsia Tablets cure such stomachs. They restore sweetness of breath, renew gastric juices, enrich the blood and give the stomach the strength and rest necessary to general duty.

Forty thousand physicians use Stuart's Dyspepsia Tablets and every druggist carries them in stock; price 50c per box. Send us your name and address and we will send you a trial package free by mail. Address, F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

"GRAMMER" HIS FORTE

A Kansas school ma'am had a world of trouble in teaching one of her charges the intricacies of arithmetic. The job finally become so arduous that she complained to the child's father.

"Oh," said the fond parent, "never mind my Jimmie about that. He come by it honestly. I always was a good grammatist, but a mighty poor arithmeticker."—Lewiston Journal.
