

PROFESSOR LONG, Supt. Public Schools, St. Louis, said: "I unhesitatingly commend Dr. Ridpath's History of the World as the ablest work on that subject which I have ever examined. The engravings, maps and charts are alone worth the entire cost of the work."

EVERY AMERICAN CITIZEN should know the history of his own country and of the world to intelligently perform his full duty as a citizen in the Government of This Nation. How else are we to judge of the great national questions that crowd upon us for decision except by some knowledge of the past. Our Colonial Policy, the Question of the Trusts agitating the great business and commercial world, the respective rights of labor and capital, the conflict between Socialism on the one hand and organized business and industry on the other—these and hundreds of other important questions press upon us as a nation for intelligent discussion and decision. How have such questions been met in the past? For the answer read the history of ancient civilizations which flourished, decayed and died and have been so thoroughly obliterated from the face of the earth that even the location of their splendid cities is unknown. Read the history of mighty Babylon, or of imperial Rome as a kingdom, then as a republic, and finally as an empire, and familiarize yourself with her growth, development and decay. Read the history of the French Revolution, the establishment of the republic, out of which came the empire dominated by Napoleon. Then when you know history, when you know the cause of the rise and downfall of empires and nations, and not until then, will you be able to intelligently discuss and decide the great questions that are pressing now everywhere for attention. The growth, development and decay of the nations of the world constitute the most inspiring theme that can claim the attention of man. It is an inspiring story, and Dr. Ridpath has told it better than it has ever been told before. Send Coupon today.
