

Smoke of Herbs Cures Catarrh

A Simple, Safe, Reliable Way and It Costs Nothing to Try.

This preparation of herbs, leaves, flowers and berries (containing no tobacco or habit-forming drugs) is either smoked in an ordinary clean pipe or smoking tube, and by drawing the medicated smoke into the mouth and inhaling into the lungs or sending it out through the nostrils in a perfectly natural way, the worst case of Catarrh can be eradicated.

It is not unpleasant to use, and at the same time it is entirely harmless, and can be used by man, woman or child.

Just as Catarrh is contracted by breathing cold or dust and germ-laden air, just so this balmy anti-septic smoking remedy goes to all the affected parts of the air passages of the head, nose, throat and lungs. It can readily be seen why the ordinary treatments, such as sprays, ointments, salves, liquid or tablet medicines fail—they do not and can not reach all the affected parts.

If you have catarrh of the nose, throat or lungs, choking, stopped-up feeling, colds, catarrhal headaches; if you are given to hawking and spitting, this simple yet scientific treatment should cure you.

An illustrated book which goes thoroughly into the whole question of the cause, cure and prevention of catarrh will, upon request, be sent you by Dr. J. W. Blosser, 144 Walton street, Atlanta, Ga.

He will, also, mail you five days' free treatment. You will at once see that it is a wonderful remedy, and as it only costs one dollar for the regular treatment, it is within the reach of everyone. It is not necessary to send any money—simply send your name and address and the booklet and free trial package will be mailed you immediately.

Subscribers' Advertising Dept.

WANTED—Men prepare as firemen, brakemen, electric motormen, colored train porters. Hundreds put to work. \$65 to \$100 month. No experience necessary. 500 more wanted. Write Inter. Railway, Dept 72, Indianapolis, Ind.

home, several green flags were waved. The appearance of these emblems of nationalism started several fierce fights, but the police stopped the conflicts before anybody was badly hurt.

WASHINGTON NEWS

(Continued from Page 9.)

this year and the method of their expenditure include Senator Dixon, Ormsby McHarg and Treasurer E. H. Hooker, of the national progressive party for Colonel Roosevelt; H. L. Nichols, for Governor Harmon; Representative McKinley, for President Taft; Former Senator F. T. Dubois, for Champ Clark; Senator Bankhead, for Representative Underwood, and William F. McCombs, for Governor Wilson.

The only members of the house of representatives thus far asked to testify are Former Speaker Cannon, Representative McKinley, Representative Palmer of Pennsylvania, but it is expected that others will appear before the committee concludes its hearings.

Former Representative Joseph C. Sibley of Pennsylvania probably will not be called before the committee investigating campaign expenditures to explain letters he is alleged to have written to John D. Archbold, copies of which William R. Hearst has published. The committee learned that Mr. Sibley is in a sanitarium in such poor physical health that his testimony would be of doubtful value. Mr. Archbold will probably reappear before the committee.

An Associated Press dispatch says: An investigation to determine whether campaign contributions had anything to do with the refusal of congress to revise the woolen schedule in the session of 1909 has been started by Chairman Clapp of the senate committee investigating campaign expenditures. It is understood he is preparing a list of witnesses, including the names of Former Speaker Cannon, Representatives McKinley of Illinois and Weeks of Massachusetts and representatives of various branches of the woolen industry with the recommendation that they be questioned as to any knowledge they may have of campaign funds furnished in the congressional fight of 1908.

A number of eastern men interested in various branches of the woolen industry, particularly in the so-called "carded woolen" industry, have been in conference with Senator Clapp. The senator declined to say whether he had any specific information relative to campaign contributions by woolen interests. The worsted manufacturers have been charged in congress with being especially favored by the tariff, as distinguished from the carded woolen manufacturers.

The purpose in summoning the three congressmen named, it is understood, is to ascertain the facts surrounding a conference said to have been held in Boston in 1908, between members of congress and men interested in the worsted woolen manufacturing business. Worsted manufacturers are said to have had a conference later at Chicago over tariff matters with representatives of the sheep-raising interests of the western and Rocky mountain states, and it is believed this also will be the subject of inquiry by the senate committee.

Senator Clapp has received a letter from George W. Perkins asking that Charles D. Hilles, chairman of the republican national committee, be called before the senate committee investigating campaign expenditures to testify fully as to his "charge" that Colonel Roosevelt had "spent millions of dollars of harvester trust money."

FREE UPON REQUEST A book that every Cow Owner should have

At an expense of thousands of dollars we have gathered together in this book a great fund of valuable information covering very fully those questions which are of vital interest to every owner of cows.

The very best and highest authorities in the land have written a number of chapters especially prepared for this handbook upon a wide range of dairy subjects.

Dr. Coburn, Secretary of the Kansas Department of Agriculture, the great alfalfa expert, has written a chapter on ALFALFA.

Dr. Alexander, Professor of Veterinary Science, University of Wisconsin,

discusses DAIRY COW DISEASES AND THEIR PROPER TREATMENT.

Prof. Hugh G. Van Pelt, the Iowa State Dairy Expert, and one of the Editors of Kimball's Dairy Farmer, has contributed a most interesting discussion on PROPER DAIRY FEEDING AND BALANCED RATIONS.

Dr. Burkett, Editor of the American Agriculturist, tells about the MOST SUITABLE DAIRY CROPS, and other widely known authorities discuss SOIL FERTILITY, DAIRYING FOR PROFIT, FARM BUTTER MAKING, SILOS AND SILAGE, etc., etc.

A series of photographs illustrating the desirable points in selecting a dairy cow are shown, and also photos of representative cows of the various well-known dairy breeds, together with statements from the secretaries of the various dairy cattle associations setting forth the claims for consideration of each breed.

The HANDBOOK also contains much general information such as tables of weights and measures, silo capacities, etc., that every dairyman at some time or other has occasion to refer to.

While the DE LAVAL DAIRY HANDBOOK covers the various phases of dairy farming most completely, it is in no wise technical, but is written in plain every-day language so that even the children can understand it.

You certainly ought to have this book. It's absolutely free. Just fill out the coupon and mail it to
