

The Farmers Leader

BY ARTHUR LINN.

Must a person belong to some churchism to secure decent respect and proper burial service?

It would seem that much of the religion of the present day is a kind never thought of or preached by Christ.

What will become of preachers who deliberately lie, and lie? and finally try to sneak out of the falsehood.

Ex-Commander in chief of the G. A. R., Paul Vandervoort of Omaha, is expected to speak at Canton sometime in June. He stands with the people.

One thrifty clerk in the pension office by the aid of a friend succeeded in drawing twenty-four pensions. They hired women to personate widows and they did the rest.

Join the church, join the church, oh, ye, unbelievers, in fancy, folly, and hypocrisy, lest the Lord calls ye home and his social church on earth refuse ye open door, hymn or pastor.

The Alliance is at work in every state in the west and south. This is the season of the year when the farmer is busy, but Alliance work must not be overlooked. In organization depends success for the great reforms demanded.

The populists, it appears, have not abated their activity one whit in some of the southern states. Although it is an off year for politics they are energetically promoting their agitation. In Alabama, Georgia and North Carolina especially they are aggressively carrying on what they call an educational campaign. —Sioux City Journal.

The wheat elevator ring of Minnesota helped to destroy the constitutionality of a law passed last winter, authorizing the state to erect an elevator at Duluth and it has just been discovered. Ignatius Donnelly in his paper asks:

"Is the state owned by the people or the wheat rings? Is free government forever to be made a farce and a mockery? Not less than 30 cents a bushel is stolen off of every bushel of wheat sold in the state of Minnesota by the elevator ring. The state elevator would do all this. The ring knows it. Are you ready to submit? Have you the spirit of free men or the souls of slaves? Let the farmers arise in their might and denounce this rascality."

College View, Neb., May 8th, 1893.

DEAR OLD FRIEND: Please find enclosed \$1.00, to renew my subscription to the LEADER, another year. The weekly visits of your paper, at our home, are always welcome, and the news read with interest. We love to hear from Canton and its vicinity and our old home in Lincoln township. We shall never forget the kindly feelings that have existed for the past 20 years, and do still exist between us and old friends, and there are many bright spots in our experience. If any of our friends should come this way we hope they will not pass by without making us a call. There are still many things, (love and friendship) that bind us to Lincoln county and its people, for we there have gone through "hard times" and "grasshopper raids," together with the rest of the old settlers.

In order that you may know how we are getting along I will say—we are all well, the children are going to school and I have been dealing in coal. In conclusion I send my respects and best wishes to you, the people in Canton and Lincoln township, and the friends at Hiram. Yours Respectfully, JOHN RICHARDS.

P. S.—Success to the "People's Party."

Salem, S. D., May 8th, 1893.

COMRADE LINN: Allow me to raise and second the nomination of Judge Gifford for our Commander. Comrade O. S. Gifford has done more good honest work for the veterans than any one man in South Dakota. Twice it has been my good pleasure to fight as valiantly as in my power so to do (politically) for Judge Gifford, and I am frank to say that I believe his defeat was only brought about by traitors; and now having an opportunity to again support him in a non-political sense, I gladly and cheerfully do so, and I trust we may secure for our Commander, "The man with the musket."

Brother Linn can you stand praise? If so let me say to you that the LEADER is one of the very best papers in the state. Hope to see you at the committee meeting in Huron the 16th.

Fraternally Yours, O. C. POTTER.

An Old Settler's Views.

Brooklyn, May 14th, 1893.

EDITOR LINN: If I live until the 24th of next June, I will be of age as, Lincoln county settler, but I can tell you how Doc. Burtleigh ran his campaign in Clay county in 1870, therefore I cast my vote for an old settler reunion. Time, June 22nd. Place, James Madden's grove at Worthing.

Barley harvest commences about July 10th and the weather is very hot at that time of the year, therefore I suggest June 22nd.

We raise our own "cabbage and potatoes and milk our own cow," when she don't dry up on us, hence we don't care to discuss politics on that day, but we would like to have our old time friend, E. Wendt tell us through the columns of the LEADER how to organize the whole nation as one man to fight the money power. Fraternal greeting until we all meet. A. J. WIMPLE.

A number of old settlers suggested to the Editor the necessity of appointing a committee to meet and prepare a program for the old settlers meeting at Worthing. This committee has been selected from the various townships, and while it may be inconvenient for some to attend such a meeting, it is hoped, however, that as many as can come will do so. This committee will have to fix a day and prepare a program, and the place has been generally decided upon. After consulting with a number of old settlers, it was thought best to have this committee meet at Canton, on Saturday, June 3rd, at 1 o'clock, in the old court house. So gentlemen, you will consider this notice a personal invitation, and as many as can, try and be present. Here is a list of the gentlemen selected to put the machinery in motion:

Last Sunday morning a choice party of jovial spirits boarded the gallant little steamer City of Canton on pleasure bent. Captain Hanson ordered the gang plank hauled in and the lines cast off, and away up the beautiful river steamed the gallant little steamer with her jolly passengers. In the party were John users and Fred Herman, who joined the excursion with the understanding that the steamer would return to Canton about 3 o'clock. After the railroad bridge had been passed, Dr. Lewis whispered into Charlie Seely's willing ear that Fred and John had engagements in Canton with two charming young ladies, and their bright expectations must be made to suffer as well as the dear charmers to wonder at their absence.

John Bertrand, Mel Case, and Ferguson were let into the secret. It was then decided that the steamer should go up to Kruger's mill and by some means the boys were to be detained and their hearts made to bleed. John and Fred had "smelled a mice" and were fixing up a counter plan. Their ride up and back would cost them \$3. in any event. This they proposed to make the conspirators pay. But how were they to get ashore without paying fare or leave the boat without creating a horrible and dangerous suspicion. Fortune favors the brave. At last a noble goose, the breed of bird that once saved Rome, was espied disporting its ample feet in the shimmering sun kissed water. It was a magnificent tame goose, but the gunners thought it was fresh from the wilds of Texas. Charlie, Doc, and Mel jumped for their guns and fairly trembled with excitement as the steamer brought the noble hunters within a hundred feet of the shore. Fred and John went off with a big "bang boom," fairly covering this modest sabbath day bird with spray and foam. The poor bird in agony of spirit raised its head in a mute appeal, opened wide its snow white wings and gave a squawk, saying in goose language: "Here I am, kill me, but don't scare me to death." The guns roared again arousing the sleepy owls and bats from their haunts along the bluffs. The goose hung its head in disgust and swam ashore. The hunters were desperate and Captain Hanson landed the steamer on the Dakota side, because the goose was expected to come over. John and Fred had been watching events quietly and when the boat landed, they went ashore and in a few minutes were out of sight. They proceeded to a farm house and hired a conveyance to take them to town for one dollar, thus saving \$2. by the river route. They were soon missed and given up for lost. The hunters searched their ammunition and the hunters extended all their ammunition in firing their guns to call back the wanderers, who were at this time driving for Canton at a 10 mile gait. When they didn't return one close calculating individual announced to the surrounding friends: "We have lost \$3. and our fat goose by their departure." Such proved to be the case. John and Fred got to town in time to keep their engagement, and the farmers' boy hunted up the goose and brought it to town for them. Messrs. Luers and Herman saved two dollars, got the goose they didn't kill, and made the hearts of all concerned happy by prompt fulfillment of their engagement. The ladies call them heroes and fairly worship them for their mastery retreat and so cunningly leaving their would be captors hunting them with whistle and gun. The steamboat boys returned sad and disconsolate and were met at the wharf by John and Fred, who drove down to ask them if they had lost any passengers or found a goose. John and Fred have been smoking cigars at the expense of the men who didn't get the goose.

AYER'S Sarsaparilla. Mary Schubert, Kansas City, Kas., writes:

"I am convinced that after having been sick a whole year from liver complaint, Ayer's Sarsaparilla saved my life. The best physicians being unable to help me, and having tried three other proprietary medicines without benefit, I took Ayer's Sarsaparilla. The result was a complete cure. Since then I have recommended this medicine to others, and always with success."

I bought a 50 cent bottle of Chamberlain's Pain Balm and applied it to my limbs, which have been afflicted with rheumatism at intervals for one year. At the time I bought the Pain Balm I was unable to walk. I can truthfully say that Pain Balm has completely cured me. Dr. E. H. Evans, Holywood, Kan. Mr. A. B. Cox, the leading druggist at Holywood, vouches for the truth of the above statement.

SIX SPASMS A DAY.

Dr. Miles Medical Co., Elkhart, Ind.

GENTLEMEN: I never lose an opportunity to recommend Dr. Miles' Restorative Nerveine to any one afflicted with nervous complaints with the assurance that it will not disappoint them. When our boy was eighteen months old he was attacked with violent spasms. Sometimes he would have five or six spasms in a single day. We tried many physicians without benefit. Finally our friends recommended Dr. Miles' Restorative Nerveine. We tried a bottle, and could see that he was benefited from the first dose. We used three bottles, and am happy to say the child was ENTIRELY CURED. We used no other remedy, and his cure is complete. He is now three years old and perfectly healthy. You are at liberty to use my name in securing the praise of this wonderful remedy. S. C. HEACOCK, Agent Pacific Express Co. Hastings, Nebraska, April 6th, 1892.
