

Wall Paper Fragments.

The fragments of our Wall Paper stock afford choice picking for those who wish high grade papers at low grade prices. Of many of the best and most beautiful papers there remain remnants sufficient for the papering of single rooms, halls, closets, etc. We do not expect to make money on them; in many instances we are willing to lose in order to close them out. If you can use them they are worth regular prices to you, for they always were bargains. If you don't care to paper just now you can store your purchase and thus make the saving that remnant prices afford. Don't forget to come soon—such bargains can't last.

Respectfully,
I. M. Helme & Co.

—Dr. Dustin, a physician of experience was in Canton last week on his way to Fairview, where he will locate for the practice of his profession. Dr. Dustin has been in practice in Chicago for some time, but found the free and growing west the place for man to enjoy life in, and located at Alexandria. —We neglected to mention last week the result and disposition of Mr. Puckett's \$100, which he gave away to his customers. Mrs. Minor west of town, received \$50. Mr. J. D. Hicks \$25, Mrs. Amos Harris \$15. Mrs. James and Mrs. Tillotson five dollars each. That day was a wonderful day for July trade. Mr. Puckett says he sold goods to the amount of \$1000. The rear part of the train got under headway and moved down the grade with force enough to throw the caboose passengers into a heap when the jar came. Mr. Hafos turned over and landed on his nose, and he "nose" how it feels.
—There is no merchant in the state who is a more liberal patron of a newspaper's advertising space than Mr. Puckett, and he finds that advertising pays, because people like to trade with a man who is a liberal patron of the newspaper. A town without a newspaper would be a dead duck and a man who don't advertise what he has to sell or invite trade is one of the wonders of the age. A live business man advertises because he wants all the trade he can get. The man who wants more business than he is doing, will find just what he wants through an ad in the LEADER.

The National Sanitarium.
The ambition of Hot Springs is about to be realized after years of waiting and working.
The board of managers of the National Soldiers' homes, met in Hot Springs last week and finally decided upon a location for a National Sanitarium for veteran soldiers of all wars. It is a great victory for Hot Springs and her good citizens are entitled to all the glory and benefits that may come from it. Senator Pettigrew began the battle for this great national home, and the present delegation in the National congress succeeded in getting the measure through both houses with the President's approval.
While the writer was in command of the Soldier's Home, he furnished some valuable and interesting statistics for the benefit of congress, who seemed to think that Hot Springs was not a proper place for a great sanitarium.
There is no healthier or more suitable location for a veterans' home than Hot Springs, because the climate is unsurpassed and the medicinal qualities of the waters matchless. The waters at Hot Springs will cure rheumatism and most of those in the national homes now are suffering from this trouble.
All honor and glory to those who did their part in getting congress to consent to the establishment of this great sanitarium, and the veterans will have reason to thank congress for the splendid home provided for their use.
