POLICEMAN KILLED.

THREATENED RACE WAR AT MORGAN PARK, ILL.

Mob Assembled with a Rope and Prisoners Were Only with Difficulty Protected by the Police—Hallowell's Frank the Cause.

Chicago. The celebration of Halloween was responsible for the killing of the chief of police of Morgan Park and a threatened race war. It was only after a desperate struggle between the police and an armed mob of outraged whites that a double lynching was prevented.

A woman's Halloween prank started the trouble, which ended in the killing of George A. Arie, chief of police of Morgan Park, by Mack Wiley, a young negro. Mrs. James Payne, who is a sister of Wiley, and three friends started out for a lark, and while they were overhauling a lumber pile, it is said, the woman was struck by Chief of Police Arie. The negroes went for reinforcements and Arie resulted in a fight in which he was stabbed in the neck by Wiley.

The news of the tragedy spread through the suburbs, and soon a crowd of half a hundred men and boys marched to the Morgan Park jail, where four of the negroes had been locked up. While the place was surrounded by a mob clamoring for vengeance, several shotguns being in evidence in the crowd, Wiley and his companions were placed between a number of policemen who had been summoned from Harvey and nearby suburbs, and a dash was made for a carriage that had been sent for. Despite threats of the officers that any interference by the crowd meant instant death the enraged villagers, who by this time had secured a rope, rushed on the prisoners. A fierce fight followed, in which the negroes were severely cut and bruised with sticks and stones, but the officers finally managed to get the negroes in the carriage and drove off under a shower of bricks, stones and other missiles. The prisoners were taken to Englewood jail, where Wiley confessed to having killed Arie.

GREAT LAND SWINDLE.

Secretary Hitchcock Says Frauds Are Extensive.

Washington, D. C. Secretary Hitchcock has announced that the investigation of the land frauds had been completed and the report would be made public in a short time. This report will be presented to the department of justice and will take steps to prosecute those involved.

"The report will not be made public at present," said Secretary Hitchcock, "as what would defeat the ends of justice. As bad as the situation is, it has been grossly exaggerated. It is absurd to say that the frauds amount to \$15,000,000 or \$18,000,000, or anything like that sum. A million acres would be a large estimate of fraudulently entered lands, and the government price for lands ranges from \$1.25 to \$2.50 per acre."

Senators Mitchell and Fulton of Oregon had a conference with the secretary of the interior and said they were guilty of no crime. "It is true that Senator Mitchell and myself were political backers of Asa B. Thompson, who was dismissed on account of the land frauds," said Senator Fulton. "But that makes no difference. I had an inkling of what was going on, and I had a talk with the district attorney there."

"As far as Thompson is concerned, he will now have to fight his own way. If he is guilty my colleague and I want him sent to the penitentiary, and we told him so at the time. We also told him he has our full support in the policy he is pursuing, and we want him to clean the rascals out."

"I don't think you will find many public officials involved. It is true there is a conspiracy, but it is principally among private citizens, aided and abetted by a few officials, perhaps, who resort to all sorts of schemes to get hold of the public domain. But I do not believe any innocent person should have the service of the ministry." It also strongly recommended a uniform national divorce law.
