ARTHUR LIND, PUBLISHER IS BURNED BY A MOB

ARENA NEAR THE WORLD'S FAIR GROUNDS IS DESTROYED

This incensed crowd which was unable to get admission fee back, and the structure was fired—Loss is \$2,500, with no insurance.

St. Louis: Incensed over their failure to see a "genuine Spanish bull fight," which the authorities had ordered stopped, a riot was started in an arena near the world's fair grounds Sunday evening by a crowd of 2,500 men and boys, who were unable to get their money back, and the building was burned to the ground.

The admission charged was \$1. Four men were placed under arrest by the authorities of St. Louis County, charged with the destruction of property. The crowd, thinking these men were connected with the show, made an attempt to mob them, and in their encounter with the deputy sheriffs a number were roughly handled and some received scalp wounds.

The building is said to have cost \$2,500. It is a total loss, with no insurance, it is reported. The initial performance by the company of Spanish bull fighters had been advertised widely for Sunday, but Gov. Dockery, to whom numerous protests had been made by the religious and moralists, ordered the show should not be allowed to take place. Despite these orders a large crowd assembled in the arena at the advertised time of opening. Before the regular performance a number of cowboys drove in some bulls which they began to torment in true wild west style. The crowd soon became tired of this, and called for the bull fight.

The announcement was then made that the bull fight would be proceeded with. As the matadors came into the ring, a mob of about 2,500 men and boys, who had been waiting outside the arena, began to throw stones and other missiles. The crowd soon became tired of this, and called for the bull fight. The announcement was then made that the bull fight would be proceeded with. Rain continues to fall at many points throughout Kansas, and the ultimate result will be that the Kaw will overflow its banks at its mouth in Kansas City.

Although no great amount of damage is expected in this city preparations are being made to meet the situation as it may develop. Railroad traffic is almost entirely stopped, and many through trains, both east and west bound, are stalled. The principal streams affected are the Kaw, Smoky Hill, Republican and Marais des Cygnes. WEEK'S HAPPENINGS

NEWS OF THE WEEK IN A CONDENSED FORM.

Rush for First Papers—Opening of Rosebud Stimulates Naturalization—Registration at Chamberlain—Arrange to Accommodate Crowds.

The clerk of the circuit court for Yankton County is being crowded by the number of applications for first papers. The rush to become citizens or to declare intent to do so is the fact that a man must have his first papers in order to file on land, and now that the opening of the Rosebud Indian reservation is so near many who had neglected taking out their first papers and all who have recently come to this country are declaring their intention to become citizens of the United States and to renounce all allegiance to any foreign prince or potentate.

A Chamberlain special says: Special Agent Hunt, of the general land office at Washington, in the city arranging for the registration as the land officers in Gregory County. He has secured the court house as the registration place for the general public, the old soldiers' church for women, while the old soldiers' church for men. In dividing up the work in this way it is expected that all trouble may be avoided, no matter how large the crowd may be. Interest is apparently growing as the time approaches for the registration as the land officers, as well as the business men, are daily receiving hundreds of inquiries regarding the matter from all over the United States, and the advance tide has already reached the city. Five fast steamers will be used to carry Chamberlain and the lands to be opened, so that all may have a convenient means of examining the land. By this means a person will be able to reach any portion of the lands in a few hours.

THE CHILD OF A WEEK

Lake Andes the Busiest Building Town in South Dakota

About a week ago 600 enthusiastic men put their stamp of approval upon Lake Andes as a future town by the purchase of \$33,000 worth of town lots at public sale. Now there are twenty buildings under construction, several moving in and many more under consideration. The Artesian well was completed Tuesday morning at a depth of 100 feet and is now being tested. Wisconsin parties are figuring with the townsite company to put in a flouring mill and sink a ten-inch artesian well for power. It is quite possible that the Main Street will have cement walks at least several blocks wide. The feeling is general that no wooden walks should be commenced. The accommodations are not the best yet, but good nature and good order prevail.

STUDENTS AND BOARD CLASH

The High School Graduates Rebel Against a Fasting

Yankton high school will have no commencement exercises this year, although a class of eleven will have completed the high school course. It has been a custom in the school to have a speaker address the graduating class, but this year the school board decided to return to the old-fashioned class program.

The class of 1904 objected so seriously to this that the matter was brought to the attention of the board, with the result that all exercises were dispensed with, and the board voted to present the diplomas to the class at the office of the superintendent.

This ruling will be carried out, but the class will hold exercises of its own in the new theater. They will have a speaker, Rev. B. G. Matson, of the Congregational church.

A JACK THE PEEPER

Redhead People Annoyed by an Inquisitive Person

The residents of Redfield are being greatly annoyed by the operations of a genuine "Jack the Peeper," who on a number of occasions has recently frightened women and children by his practice of sneaking around residences late at night and peering into bed room windows. The citizens naturally are very indignant over the actions of the peeper and if they succeed in catching him, as they fully believe they will before long, as a suspected party is being secretly watched, the villain is certain to be accorded a severely retributive treatment at the hands of the male residents of the town.

CANTON'S SALOONS OPEN

Five Drinking Places, After an Eighteen-Year Drought

Canton's five saloons opened June 1, but none of them was in proper condition, owing to a lack of time to place fixtures and fix up. They have plenty of wet goods on hand, however. It is quite a novelty, and boys stand open-mouthed and gaze at the "tough builder" in open-mouthed wonder. It is the opinion of the saloonmen themselves that a strict compliance with law and a decent regard for the rights of others will be the only means of securing a license victory next year.
