Ed Hvattum began threshing Monday, and threshing will be in full blast all over the county from this time on.

Mrs. Averill entertained a number of friends Friday evening, and was assisted by her daughter, Mrs. Puckett. The Hudson Tribune is having lots of fun out of Joe Millet's jug of Pierre gas, but it won't burn.

There are very few people in Lincoln county who can remember Oshkoeh township, or where it was located.

Louis Hanson and wife of Sioux Falls, came down to Canton Sunday and were the guests of Mr. and Mrs. J. O. Knudtson.

Take notice that Thursday Aug. 23 is the day Dr. J. C. Clark, eye specialist, from Sioux City, is to be at Canton Hotel Rudolph.

Mr. and Mrs. Harry Millman came down from Sioux Falls Sunday to visit relatives and friends, and they met with a hearty welcome from all.

Cement walks are made in Sioux Falls for seven and a half cents per foot. This is getting cement walks down to a price where poor people can afford them.

Mr. and Mrs. Ottolenghi left for Minnesota Saturday morning after an extended visit at the home of Mr. and Mrs. Thomas Thorson. Mrs. Ottolenghi is a niece of Mrs. Thorson.

Mr. O. T. Helgeson presented the LEADER with a specimen of his American beauty roses Saturday, and says he has many buds growing. This is unusually late for roses.

If you have headache, red inflamed eyes, nervousness, cannot see well or any trouble with eyes, see Dr. J. C. Clark, eye specialist from Sioux City, at Hotel Rudolph Thursday, August 23.

Our old friend, Col. Farley, for many years the genial landlord of the "Farley House" at Hudson, is in Canton visiting his old friends County Treasurer Slade, banker Oversteth and Mayor Fitch. He is a resident of Lincoln, Nebraska, and is on his way to Garretton.

D. H. Hawn and his son, Frank, left for Milwaukee and other Wisconsin points Tuesday morning. Dan says one of his school teachers, in early days, a vigorous old lady, is still living where Dan used to play pranks with the other boys before the war, and shined on the corner. He says she could lay on a sapling with more vigor and force than any other school teacher in northern Wisconsin, and he knows this from personal experience.

Harvest help is scarce.

Mrs. E. Johnson and daughter of Sioux City, were guests of Prof. and Mrs. Ellington last week.

Fred Smith, rural route mail carrier on No. 3, reports small grain nearly all cut and stacked on his route. He says wolves keep out of his way since he bagged the nine young cubs last spring. Fred is a hustler and one of the best mail carriers in the service of Uncle Sam.

Cashier Cassill of the Farmers State Bank, accompanied by Mrs. Cassill and the children left for Clear Lake last week and will occupy a cottage belonging to his brother. Clear Lake is a large body of water about five miles east and west and two miles and a half wide. It used to be full of fish and is now a favorite resort for northern Iowa people.

Attorney Carlson and four other friends were fishing last week. They chose the silent hours between sunset and sunrise for their raid on the cat fish and pickerel. Albert said it was a glorious night of rest and sleep between bites, and marched home Friday morning with a pickerel and cat fish, and declared that he caught all the fish taken during the night, and he had the fish with him.

"No, I'm not taking it easy," said Bruce Oliver recently as he was walking down main street with the air of a man whose check at the bank would pass in quick for six figures. I'm putting in good time and regular hours out on the farm with the boys and think I'm earning about \$75 a month from the amount of work I do. The last rain gave me a play spell, but I just love to work—ask the boys. Bruce is modest and don't belong to the kid glove brigade.

Miss Ruth and John Gemmill returned from Chicago last Saturday where they were visiting relatives. They first saw the world's fair and all the attractions there and then went to Chicago. John says he likes Chicago better than St. Louis, and he is not alone in that opinion. "Why," said John, "there's more life in Chicago without a world's fair, than there is in St. Louis with her world's fair and fakes on the pike." John is a very bright boy and saw all there was to see.

W. B. Mitchell, who owns one of the best half section farms in Dayton was in town Friday. In speaking of crops and crop conditions he said that nature had given man everything he could ask for in the shape of rich soil and a favorable climate, but Lincoln farmers need not expect that nature will always stand the drain of man's yearly demands without some return. I am draining the wet places on my farm and the expense is not much, and the farmer who is not willing to do his full share to aid natural conditions may expect to meet with more or less loss because of this neglect. The quarter you spoke of as belonging to John Johnson is owned by V. U. Bunting, and he owns the fine farm, where Mr. Weitzel lives just across the road from Joe Chapman's old homestead. Mr. Mitchell considers Mr. Leffert and Mr. Weitzel among the most progressive farmers in Dayton township, and Dayton one of the best in the county.

Paul Bankson was in town Saturday.

—All summer goods in the line of shoes will be sold at 25 per cent discount at Lybarger's.

Richard James says he had a good time at the world's fair, but sickness compelled him to cut his visit short. He says that the magnitude of that great attraction is beyond the comprehension of those who have not been there.

The assault and battery case brought against young John Steenland on complaint of a Syrian peddler, was heard last week. Acting states attorney Carlson moved to dismiss the case after hearing the evidence of the complaining witness. The Syrian was evidently a good liar.

John Brown, the robust, genial and happy big farmer from Dayton Hall was in town recently. He and the writer and H. O. Strand got talking corn, then religion, politics and trusts and wound up with the Standard Oil Co. and the Dayton Hall man said he wouldn't trade his health and happiness and freedom for the Standard Oil wealth, and the statement reflects his good judgment.

Every woman in the county who preserves fruit and uses round jars should see Henry Sogn at once. He has a jar holder and a jar opener and closer that will make every man and woman smile with delight when they see how easy it is to hold a hot jar and close the top and open it as well. It will just make you feel that some genius has relieved you of a disagreeable job. Some of you will remember what a time you had opening a jar of preserves and how you cursed your expanding temper as you tried in vain to unscrew the top and then wanted to open it with a hammer. See Henry Sogn and save your hands and clothing.

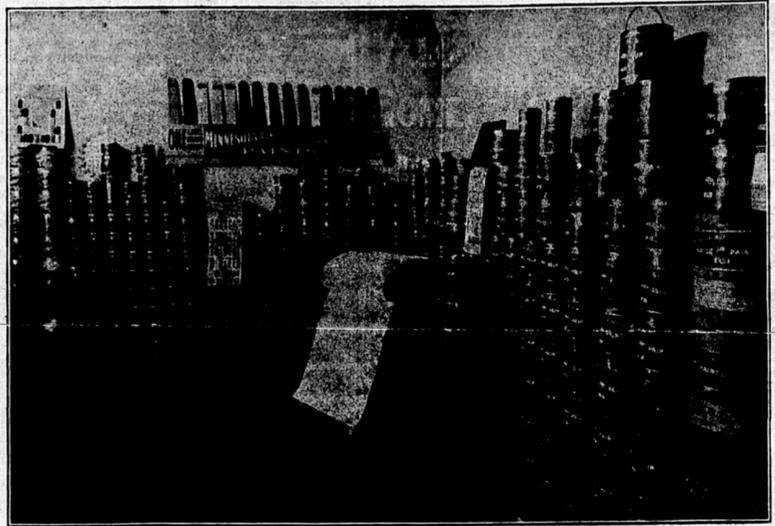

The old Gus Linderman building on the corner of Broadway and Fourth street, once famous as a resort for the boys who loved the flowing bowl and scrape; where many a skill resisted the breaking power of beer bottles and billiard cues, and where many a nervous hand reached for the nervine liquid to brace up on after a night's debauch, and where many a fellow got it in the neck or jaw or nose just for fun or revenge. The old building has been used as a fire department headquarters for a number of years, and was purchased by the odd fellows two years ago, and is now being fixed up and made presentable. If that old building could talk in a phonograph for a week, wouldn't it make fun for the boys of twenty years ago.

Satrum Bros. have added a great deal of new machinery to their mill and can make any kind of fancy wood work made anywhere. There is nothing required in the ornamentation of a house they can't furnish and at more reasonable figure than can be furnished by outsiders. Among the most useful of the new machinery for fancy work, is a machine for grill work, and the work turned out by Satrum Bros. in this line is equal to any made in Chicago or elsewhere. Grill ornamentation is among the most desirable in new and fashionable houses and more of such fancy work will be used by our people when they can order it made from any design that suits their fancy. Satrum Bros. are now in shape to make anything in wood that anyone may desire. The new pulpit for Trinity church in Norway township is one of the finest bits of work ever turned out in this state, and when in place, Satrum Bros. will have reason to feel proud of it.

Hot, isn't it? You bet, but my how the corn grows. Yes, sir, this is corn weather.

How's your corn? Some of it is very fine, but the late planted is not up to the average. Weeds are thick in some fields but that couldn't be helped.

Mitchell Corn Palace.

The executive committee of the Mitchell corn palace held a meeting recently and entered into detail arrangements as to the amount of additional seating room they would this year make by enlarging the corn palace building, so several hundred more people can be seated.

The famous and world-wide known Sousa band which has been engaged for corn palace week, September 26 to and including October 1, will draw large crowds this year, as the capital location contest has attracted attention in a general way to Mitchell and many South Dakota people have never visited the city, that will decide this is the year for them to come.
