

ARMY CHAPLAIN SEVERE KIDNEY AND BLADDER TROUBLE

HALF OUR ILLS ARE CATARRH.
Thousands of People Have Kidney Trouble and Don't Know It is Catarrh.

Mr. David L. Jaycox, Chaplain Clarinda, I. O. G. T., and Chaplain G. A. R., 805 Broadway, Oakland, Cal., writes: "I am an old war veteran. I contracted severe bladder and kidney trouble. I spent hundreds of dollars and consulted a host of doctors, but neither did me any good. "Peruna has proven the best medicine I ever used. My pains are gone and I believe myself to be cured. I feel well and would not be without a bottle in the time of need for ten times its cost."

They have done it over and over with every case of kidney trouble. It was not until Peruna came in to use, however, that I found a remedy that would actually cure them.

More cases of catarrh of kidneys and bladder have been cured by Peruna than all other medicines combined.

Time Thrown Away.
Clara—What's the matter, dear?
Dora—It's too much to bear. My faint heart hasn't proposed yet.
Clara—But you told me you wouldn't marry him.
Dora—Of course I wouldn't. But, after all the time I've wasted on him, I think he might at least give me a chance to refuse him.

Money Made Easily.
Wife—Where did you get so much money?
Husband—Made it in a blind pool.
"What's that?"
"I equipped a lot of beggars with 'Fry the Blind' cards, and they divided with me."

AT BED TIME I TAKE A PLEASANT MERRY DRINK

THE NEXT MORNING I FEEL BRIGHT AND NEW AND MY COMPLEXION IS BETTER.

My doctor says it does more for the stomach, liver and kidneys than any other medicine. This drink is made from grape juice and is prepared for use as easily as tea. It is sold in bottles of 10, 25 and 50 cents.

W. L. DOUGLAS'S \$3.50 SHOES

W. L. Douglas makes and sells more Men's \$3.50 shoes than any other manufacturer in the world. He has a factory in Lowell, Mass. where he can improve his statement.

W. L. Douglas's \$3.50 shoes are the greatest sellers in the world because of their excellent style, easy fitting and superior wearing qualities. They are sold at \$3.50. The only difference in price is the quality. W. L. Douglas's \$3.50 shoes cost more to make, hold their shape longer, wear longer, and are of greater value than any other \$3.50 shoe on the market today. W. L. Douglas's shoes are made and priced on the bottom of each shoe. Look for it. Take no substitute. W. L. Douglas's \$3.50 shoes are sold through his retail stores in the principal cities, and by shoe dealers everywhere. No matter where you live, W. L. Douglas shoes are within your reach.

EQUAL \$5.00 SHOES.
If you wear W. L. Douglas's \$3.50 shoes for years, and consider them good, you are getting more for your money than you could get for \$5.00 shoes. W. L. FARM AND GARDEN

Plan for Chicken-House.
A Texas woman in Farm and Ranch describes a chicken house for the benefit of any who may wish a clean, convenient one.

It is built of 1x12 boards, well slatted on three sides; the front has a striped or latticed door in one corner, this to insure plenty of ventilation; the roosts are swinging poles, suspended by heavy wire, out of the draft. The walls come within fourteen inches of the ground and the nests are made on the outside, then securely boxed up with a slanting cover that is hinged on and can be raised from the outside. This prevents having to enter the henhouse when you wish to gather up the eggs. It has the appearance shown in the illustration.

Small tin cans are tacked on the roost, the walls and near the nests; in them is kept moths balls; they keep out all vermin.

CONVENIENT CHICKEN HOUSE.

Remedies in the Barn.
The writer has recently erected a small closet in the barn, in which is kept a few articles such as experience has taught us should be handy. At the suggestion of the mother of the family a large bottle of witch hazel and several bottles of vaseline were added, together with a roll of party worn muslin. The very day this closet was completed and its contents placed, one of the horses by accident struck its head against the side of the stall so that there was a decided bruise around the eye. Out came the witch hazel, and by frequent applications of it during the day the swelling was subdued and the horse made more comfortable.

Cleft Grafting.
Varieties of grafting are many, but cleft grafting represents the method commonly in use for the grafting of orchard trees where the old top is to be removed during the course of a few years and a new one is to be grown in its place. The ideal time for this top grafting is when the leaves are just pushing out, for then the

To Prevent Tree Frauds.
The Indiana farmer that has been swindled by the fruit tree agent will be pleased with the law, enacted by the last General Assembly, providing a fine of from \$50 to \$500 for fruit tree fraud. It is said that the bill which was introduced by Representative Shively, of South Bend, grew out of Notre Dame University's purchase of trees that were not what they were represented to be. As introduced, the bill provided for a year's imprisonment, but this was stricken out.

CLEFT GRAFT SCION—CLEFT GRAFTING—A WAXED GRAFT.

Sheep Shearings.
Sheep are more economical meat producers than steers.

When breeding to improve ewes should be two years old when bred.

To secure the best returns in feeding have the sheep as even as possible. The more sheep you can keep and keep the less per sheep will the cost be.

Under ordinary conditions the manure from sheep should pay for the labor of caring for them.

A good foot rot medicine must be somewhat caustic, in liquid form and cheap enough to use freely.

Sheep should be charged with the value of the food consumed and what the pasturage is worth.

If sheep are pastured on low, wet land, care must be taken to keep their feet well trimmed.

Sheep cannot be fattened profitably when they are full of parasites. Kill the vermin and then fatten.

If the best profit is realized, not only the wool, but the mutton and the lamb, must contribute their part.

It will pay, if you intend to sell your sheep at public sale, to have some one grade them up in even lots.

Gathered in the Garden.
Probably no other small fruit will give more weight of crop for the space it occupies than the currant.

Cut the black knot out of the plum and cherry trees.

Bone meal and wood ashes in the soil are great for sweet peas.

Don't trim the cherry trees now. Wait till June and then be light handed.

To bleed the grapevines by cutting during March, April or May is bad management.

Radishes are usually ready for use in six weeks from sowing.

Cold frames are useful for forwarding lettuce and cabbage in spring or early summer.

stock of sheep would also. They must have room. There must not be too many in a bunch. It is said that hogs will tear down a pigpen to get the wood to eat. If you throw them a little lime they will let the pen alone. I know that they have been known to dig out a stone wall for the lime. If you feed a hog some corn and don't starve him to death, he will let your trees alone. Give the hog room enough and give him something to eat. —J. J. Blackwell.

Teaching a Horse to Stand.
As soon as the colt is fairly gentle and has been ridden a few times, throw the reins down, and with a strong but soft rope hobble his front legs. Fasten a rope twenty feet long to one front leg and the other to a stout post or stake. Ordinarily the horse will not move when thus fastened, but if he does he soon comes to grief. A few lessons of this sort will never be forgotten.

After a while it will only be necessary to wrap the reins around the horse's front legs, and later simply dropping the reins to the ground will be sufficient. If any time the horse gets to moving around and forgets his early training, pass the reins through the stirrup and then up and over the horn of the saddle. This pulls the head around to one side and the horse will generally not go far.—Farm and Home.

Useful Bowlines.
The bow and knot is one of the most useful knots we have, and one which comparatively few can tie. It is a knot sailors use constantly. The illustration will show exactly how it is tied. Lay the parts together as in the first figure, b crossing over a. Then bring a over b, bringing the end up through the loop as in the next figure. Now carry b around and under a, passing it down through the loop as in the final figure. It is impossible for this knot to slip when properly tied. It is useful in all sorts of emergencies. In a loop thus made a man can safely be hoisted to any height with no danger of the knot slipping. It is especially useful for the farmer. An animal can be led by means of it with no danger of the knots slipping and choking the animal, no matter how

much it may plunge or pull.—American Agriculturist.

In United States Losing Ground?
Dr. Saunders, director of experimental farms in Canada, is authority for the statement that there were produced in the Dominion last year about 80,000,000 bushels of wheat. In the contest for the production of this cereal Canada possesses many advantages over other countries in soil and climate. Canada's chief competitors in the British market in the future, Dr. Saunders' opinion, will be Russia, Argentina and India. He pointed out that the exports of wheat from the United States are rapidly declining.

In 1902 American exports of wheat to Great Britain amounted to 81,000,000 bushels, or 54 per cent of Great Britain's total needs; in 1903 these exports were 45,000,000 bushels, and last year only 12,000,000 bushels. American flour exports had similarly fallen off from 7,000,000 hundredweight in 1903 to 4,000,000 hundredweight in 1904. Is the United States to be superseded, relegated to a place farther down in the line of wheat-producing countries?

Japan and Russia Compared.
It was late in the afternoon, just at dusk, when a carriage, evidently from the country, drove up to the door of "Anson King, Stationer," and a young woman alighted and entered the little shop.

She asked to see some thin stationery, and after selecting what she desired, she hesitated for a moment.

"Do you make any reduction to clergyman?" she asked, softly.

"Certainly, madam," said the stationer, with great promptness. "Are you a clergyman's wife?"

"No," said the young woman.

"Ah, a clergyman's daughter, then?" said the stationer, as he began to tie up the paper in a neat package.

"No," said the young woman. Then she leaned across the counter and spoke in a confidential and thrilling whisper: "But if nothing happens I shall be engaged to a theological student as soon as he comes home this autumn."

The Secret of Good Coffee

Even the best housekeepers cannot make a good cup of coffee without good material. Dirty, adulterated and queerly blended coffee such as unscrupulous dealers shovel over their counters won't do. But take the pure, clean, natural flavored LION COFFEE, the leader of all package coffees—the coffee that for over a quarter of a century has been daily welcomed in millions of homes—and you will make a drink fit for a king in this way:

HOW TO MAKE GOOD COFFEE.
Use the LION COFFEE because it gets the best results you can get from the best coffee. Grind your LION COFFEE rather fine. Use 1/2 tablespoonful to each cup, and one extra for the pot. First mix it with a little cold water, enough to make a thick paste, and add white of an egg (if egg is to be used as a settler), then follow one of the following rules:

1. **WITH BOILING WATER.** Add boiling water, and let it boil THREE MINUTES ONLY. Add a little cold water and set aside five minutes to settle. Strain and serve.

2. **WITH COLD WATER.** Add your cold water to the paste and bring it to a boil. Then set aside, add a little cold water, and in five minutes it's ready to serve.

3. **Don't boil it too long.**

4. **Don't let it stand more than ten minutes before serving.**

5. **Don't use water that has been boiled before.**

TWO WAYS TO SETTLE COFFEE.

1. **With Eggs.** Use part of the white of an egg, mixing it with the ground LION COFFEE before boiling.

2. **With Cold Water.** Instead of egg. After boiling add a dash of cold water, and set aside for eight or ten minutes, then serve through a strainer.

Insist on getting a package of genuine LION COFFEE, prepare it according to this recipe and you will only use LION COFFEE in future. (Sold only in 1 lb. sealed packages.) (Lion-head on every package.)

(Save these Lion-heads for valuable premiums.)

What is Castoria.

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. F. Gerald Blattner, of Buffalo, N. Y., says: "Your Castoria is good for children and I frequently prescribe it, always obtaining the desired results."

Dr. Gustave A. Blengraber, of St. Paul, Minn., says: "I have used your Castoria repeatedly in my practice with good results, and can recommend it as an excellent, mild and harmless remedy for children."

Dr. E. J. Dennis, of St. Louis, Mo., says: "I have used and prescribed your Castoria in my sanitarium and outside practice for a number of years and find it to be an excellent remedy for children."

Dr. S. A. Buchanan, of Philadelphia, Pa., says: "I have used your Castoria in the case of my own baby and find it pleasant to take, and have obtained excellent results from its use."

Dr. J. E. Simpson, of Chicago, Ill., says: "I have used your Castoria in cases of colic in children and have found it the best medicine of its kind on the market."

Dr. R. E. Eklundson, of Omaha, Neb., says: "I find your Castoria to be a standard family remedy. It is the best thing for infants and children I have ever known and I recommend it."

Dr. L. R. Robinson, of Kansas City, Mo., says: "Your Castoria certainly has merit. In not its age, its continued use by mothers through all these years, and the many attempts to imitate it, sufficient recommendation? What can a physician add? Leave it to the mothers."

Dr. Albert J. Weston, of Cleveland, O., says: "I have used your Castoria in my practice for the past eighteen years with the utmost success."

Dr. Edwin F. Pardee, of New York City, says: "For several years I have recommended your Castoria, and shall always continue to do so, as it has invariably produced beneficial results."

Dr. N. R. Sizer, of Brooklyn, N. Y., says: "I object to what are called patent medicines, where maker alone knows what ingredients are put in them, but I know the formula of your Castoria and advise its use."
