H. C. Wolfe and Ed. C. Warner are lovers of duck roasted, broiled or fried and they in obedience to law and regulations covering the open season, hid themselves hence to duck retreats early last Friday morning. John is getting to be a good road enthusiast and realizes the advantage of good roads for farmers as well as for the other fellows.

Peter VanHouten was selling sweet corn last Friday and Saturday raised on ground on which he had raised a fine crop of early potatoes. He says his September sweet corn is the finest he ever tasted. It is sweeter and more toothsome than the corn raised earlier, and he believes this late corn will find a ready market here after. His neighbors laughed at the idea of raising sweet corn for September delivery, but he has convinced all that the fall variety can be raised successfully. The parties pro and con may get together and arrange the drainage matter without requiring action by the commissioners, and this is the proper thing to do. Drainage ditches are a necessity and all parties interested should get together in a friendly way.

The entertainment given by Mrs. John Sogn to a large party of ladies at beautiful Sunnyside last week Thursday, was one of the most enjoyable social events of the year. Before the guests departed for their several homes they were provided large paper bags and told to go into the big orchard and select the finest Whitneys and Wealthies they could find, and they found hundreds of trees loaded and awaiting for such a visit. Warning to Threshers.

The attention of the Commissioner of Insurance has been called to the alleged fact that many threshers are violating the law under which every person owning or operating steam threshers are required to take out either a bond or an indemnifying insurance policy to the amount of \$500 to secure the farmers for whom they thresh against loss occasioned from fires set from the machines.

Before farmers allow threshers to begin they should inquire whether the thresher has taken out bond or policy; and if he has not, to at once report to this department. My reason for asking this will be seen from reading the last section of the law, which reads as follows, to-wit:

VIOLATION

Section 3146] Any person who shall fail to execute a bond or take out and keep in force the policy of insurance required in the preceding section shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not less than one hundred (\$100) dollars nor more than three hundred (\$300) dollars.

Let threshers govern themselves accordingly.

Respectfully,

O. S. BASFORD,
Commissioner of Insurance.

Dr. Noid and Game Warden Collins were on hand when the train arrived and received four cans of young bass which were placed in the river for breeding purposes. The number of young fish was estimated at 800 and these properly protected for a few years will multiply rapidly. This will be good news to honest fishermen.
