STORM KILLS THIRTY

CYCLONE HITS CITY OF OMAHA;
SCORES INJURED AND
HOMELESS.

SWEEPS OVER FOUR STATES

Efforts to Reach Suffering Nebraska
Metropolis Over Wires Fall—Travelers
on Belated Trains Bring News
to Sioux City.

Sioux City, Ia.—Thirty persons were killed, hundreds injured or made homeless and fire threatened the destruction of the city, according to reports that were brought from Omaha Sunday night by passengers on a belated Northwestern railroad train.

Several persons were killed in Council Bluffs, it was reported. The Chicago and Great Western railroad bridge east of Council Bluffs was said to have been destroyed. There was a great list of injured in the city.

Scores were killed in the path of the storm, which swept over Nebraska about the center of the state, across Iowa south of Sioux City, and through Illinois and Indiana.

Wire service in the middle west was out of commission. Only one telephone and one telegraph wire were working out of Sioux City at an early hour Monday morning. One of these was to St. Paul and the other was to Fremont, Neb. The tips of the wings of the storm struck Sioux City late Sunday afternoon.

Reports from Woodbine, Ia., were that six persons were killed there when the wind tore a railroad station to pieces. Houses and business buildings were destroyed.

Berlin, Neb., was reported to have been partly destroyed by wind. A fire was reported to have broken out, sweeping the town.

Freak Laws Are Held Up

Topeka, Kan.—The 1913 session of the Kansas legislature has adjourned and the members are back on their farms, in their law offices, and in their business houses. The legislature is regarded as one of the most remarkable Kansas ever has had. There was less freak legislation offered and more campaign pledges fulfilled than in any legislature since the days of the populist regime. Only six platform pledges failed to be fulfilled, and only three bills which might be termed freakish were introduced. Ordinarily there are about two dozen freak bills offered a session.

Packers Hard at Work

Tulsa, Okla.—Under a cloudless sky and with a brilliant sun beating down on the green sward, the Sioux City Packers were given their hardest workout of the week Friday afternoon at Tulsa park. Eleven players, including Manager "Ducky" Holmes, took part in the practice, and it was a tired squad of athletes who trotted to the Brady hotel from the ball grounds late in the afternoon.

"SWINDLER" IS HELD

NEW YORK HAIR IMPORTER CAPTURED ON STEAMER.

Antone Martinez, Accompanied by Three Sons and Two Daughters, Taken From Berth on Ship.

New Orleans, March 21.—Anthony and Philip Musica, father and son, human hair dealers in New York, indicted there for defrauding American and European bankers, were arrested here Wednesday aboard the United Fruit company's steamship Herodias, about to leave for Central America, after a thrilling pursuit across the country by police and detectives.

The detectives, led astray for several hours by the clever doubling of their quarry, all but missed the fugitives, but traced their baggage aboard the ship in time to accomplish their arrest.

With the elder Musica, a dignified Italian of sixty-eight years, were his son, Philip Musica, aged thirty, two daughters and two other sons. Their attempt, traveling together and closely pursued, to escape from the country perhaps is without parallel in the criminal history of the United States.

Approximately \$75,000 in cash was taken from the six Italians. This is believed to be part of the \$1,000,000 they are said to have obtained from American and European banking firms by means of fraudulent invoices for consignments of human hair. In addition, life insurance policy for \$250,000, fully paid up, was found on the person of Philip Musica.

HUNTINGTON WILSON RESIGNS

Bryan Aid Attacks Order Regulating the Chinese Loan Plan—Resignation Is Accepted.

Washington, March 22.—Out of harmony with the new administration's far eastern policy and vexed by the "unnecessary haste" in publishing a statement on the Chinese loan before it had been advised of its character, Huntington Wilson, acting secretary of state, resigned on Thursday.

In a long letter to President Wilson he set forth his grievances, and the propriety of trying to act as spokesman for policies with which he is not in accord, and demanded that the resignation as assistant secretary of state, which he submitted on March 4, be effective at once.

The president at once designated Second Assistant Secretary Adee to act as secretary of state in Mr. Bryan's absence, while it is probable that John Bassett Moore will be appointed counselor of the state department with authority as an assistant secretary. In accepting the resignation of Huntington Wilson, the president made no reply to the statements in the letter of resignation.

CHILDREN MAKE MERRY IN THE WHITE HOUSE

The prattle of childish lips and the sound of baby laughter such as has not been heard in the White House for many years now emanates from the executive mansion, where there is a children's race for the favor of the president of the United States. The contest is going on between the three grand-nieces and the grand-nephew of Woodrow Wilson. A few days ago the quartet had a tea party and little Josephine Wilson Cothran, aged seventeen months, poured for her guests, Virginia Peyton Howe, fat, rosy and blond, aged three; Wilson Howe, her brother, aged ten, and Elizabeth Wilson, also aged ten, daughter of Mr. and Mrs. Alfred Wilson, cousins of the president. The photograph shows them in that order from left to right.

WILSON REFUSES AID

PROVIDE UNITED STATES LOAN IN CHINA.

WILL NOT INVOLVE AMERICA

Chief Executive Declares for the Open Door—Also Comes Out Strong in Favor of the Budget System in Government Affairs.

Washington, March 20.—In a statement issued from the White House Tuesday President Wilson refused to endorse the request that American bankers participate in the Chinese loan. The president expressed sympathy for the Chinese republic and declared for the open door. The statement follows:

"We are informed that at the request of the last administration a certain group of American bankers undertook to participate in the loan now desired by the government of China (approximately \$125,000,000). Our government wished American bankers to participate along with the bankers of other nations, because it desired that the good will of the United States toward China would be exhibited in this practical way, that American capital should have access to that great country and that the United States should be in a position to share with the other powers any political responsibilities that might be associated with the development of the foreign relations of China in connection with her industrial and commercial enterprises. The present administration has been asked by this group of bankers whether it would also request them to participate in the loan. The administration has declined to make such request because it did not approve the conditions of the loan.

"The government of the United States is not only willing, but earnestly desirous of aiding the great Chinese people in every way that is consistent with their untrammeled development and its own immortal principles.

"The government of the United States is desirous of promoting the most extended and intimate trade relationships between this country and the Chinese republic. The present administration will urge and support the legislative measures necessary to give American merchants, manufacturers, contractors and engineers the banking and other financial facilities which they now lack and without which they are at a serious disadvantage compared with their industrial and commercial rivals. This is its duty. This is the main material interest of its citizens in the development of China. Our interests are those of the open door—a door of friendship and mutual advantage."

MADERO SLAIN IN PALACE?

Col. Baucche Alcalde, Maderist, Refugee From Mexico, Says Guard Attack Was a Ruse.

San Francisco, March 22.—"President Madero and Vice-President Suarez were assassinated in the palace by the Huerta revolutionists hours before the shots were fired on them in the street," said Col. Baucche Alcalde, Maderist refugee from Mexico, who arrived Thursday with his family on the steamship Acapulco.

"The shots in the streets by the guards were fired into the dead bodies of the president and vice-president. President Madero was shot in the palace by Captain Azcarade, one of the guards. The shot was fired into his neck, close to the ear and the powder marks could be plainly seen on the skin to tell at what close range the shot had been fired.

His face was black and his tongue was protruding from his mouth as they placed his dead body beside the corpse of the president in the pentitentiary was begun and a volley of shots were fired into the two lifeless figures propped up on the seats in an effort to mask the atrocity of the double assassination that had taken place within the palace walls.

STORM TOLL IS BIG

SIXTY-NINE KILLED AND HUNDREDS HURT WHEN TORNADO SWEEPS COUNTRY.

VAST DAMAGE TO PROPERTY

Terrific Windstorm Struck Gulf States First, Then Swung Northward and Eastward Over Eleven States—Telegraph Wires Down.

Chicago, March 24.—As a result of a terrific storm which Friday swept the Mississippi valley from the great lakes to the gulf, sixty-nine persons were killed. The storm ushered in the first day of spring by demolishing towns and injuring hundreds of people.

Telegraph service in the central west was demolished. Chicago practically was without any wire connections to outside points. Two thousand poles fell under the weight of sleet between this city and South Bend, Ind.

While Chicago was in the clutch of the storm for eighteen hours points in the west and south suffered far more severely. Reports from Mississippi, west Tennessee, southeastern Kentucky, north and east Arkansas, Indiana, Ohio, Alabama, Missouri, Minnesota and Wisconsin bring stories of devastation and death.

From many sections where the storm was at its height only meager reports have been received. Demolished telephone and telegraph service made it impossible to communicate with many of the smaller towns in Arkansas and Missouri, where villages are said to have been destroyed and many killed.

Hoxie, Ark., was practically destroyed. Nine people are reported dead and many more seriously injured. Property damage will reach into hundreds of thousands of dollars through the surrounding district, where the wind reached its maximum velocity.

Lower Peach Tree, in Wilcox, Ala., also is said to have been destroyed. Twenty-nine are known to have been killed, while scores were injured seriously. Only a few of the buildings in the town were left standing, and hundreds of people Friday night were without shelter and food.

In Mississippi the storm reached its fury in the district lying between Grenada and Water Valley. At Senatobia it reached its greatest velocity, houses being tossed about as playthings, small buildings being carried for rods and everything left barren. No loss of life occurred there.

Five were killed in a small settlement five miles north of Macon, Miss., and more than five times that number injured.

Poplar Bluff, Mo., was swept by a tornado which tore buildings from their foundations, killing five persons and injured more than fifty. Members of the crew of the St. Louis & San Francisco railway passenger train which reached Memphis, Tenn., told harrowing stories of passing through the storm center. As the train dashed through the cyclone zone the track was seen torn from the earth a few miles behind them.

AYRES AT CAPITAL

WILL LAY CAUSE OF INSURGENT DEMOCRATS BEFORE PRESIDENT WILSON.

OTHER ITEMS OF INTEREST

From the Capitol City, the Various State Institutions and From Many Different Parts of the Sunshine State.

Pierre.—Thomas H. Ayres, one of the insurgent Democrats selected to go to Washington to lay the "cause of the people" before the powers that be at the national capital, went to Nebraska to look after matters at Lincoln for a few days before going to Washington. Before leaving he said that appointments for South Dakota were pretty well tied up, and that there would not likely be anything doing in that line for some time, as the appointive powers at Washington are demanding a clearing up on the local rows among the faithful before they take any part in the game, and that when the real showing is made there will be very little show in for the "machine."

Prospecting for Oil

Pierre.—A Pennsylvania firm of oil prospectors has communicated with Charles Crew of this city, notifying him that within a few days its machinery will arrive to sink a well for oil. The work will be prosecuted on what is known as the old Dr. Mann place, this being a ranch of some 1,000 acres, about 22 miles north of Pierre. The huge house upon it was once a hospital building at Old Fort Sully, when the fort was located on the banks of the Missouri about eight miles distant from its present location. The house was moved and fitted up magnificently for a residence by Dr. Mann, a settler of the early days. The Pierre Commercial club interested in the enterprise and a thorough investigation will be made. The company comes from Charleston, Ill., where it lately sunk 20 or more prospecting holes. The finding of oil would create a boom like the old time gold days in the Hills.

Company Incorporated

Pierre.—The Sioux Valley and Northern Railroad company has been organized and was chartered in the office of the secretary of state with capital stock of \$1,000,000. The line is to be built from Watertown, through Codington, Grant and Roberts counties to the northern edge of the state, and will be 100 miles long. The directors of the railroad company are as follows: F. F. Heathcote, Summit, S. D.; John Maxwell, Orley, S. D.; F. J. Klux, Summit, S. D.; H. C. Hagen, South Shore, S. D.; T. N. Bergan, South Shore, S. D.; Ernest Breitman, Summit; J. E. Mitchell, South Shore; Martin Abshall, South Shore; E. O. Ellingson, South Shore; C. R. Dellman, Watertown; E. M. Hener, Summit; Geo. W. Johnson, Orley.

Two Bills Lost in Rush

Pierre.—Since the close of the session it has been discovered that in the rush of the last day work, house bills 125 and 19 fell by the wayside. The records show that they both passed, but neither of them reached the governor for his approval. House 125, was the bill which provided that the governor, attorney general and secretary of state should make out a statement in regard to the effect of voting yes or no on a constitutional amendment, which should be printed on the ballot; and house bill 19 was the McFarland bill which authorized a judge to direct a judgment regardless of the verdict of the jury in a case.

Dakota Primary Act Valid

Aberdeen.—Judge Bottum dissolved the injunction secured by N. J. Engler Ipswich at Selby, restraining the holding of the postmaster election called at Ipswich under the new Richards primary law, and held that the election should take place, but at the expense of the applicant, not the city. This decision was the result of a controversy between N. J. Engler and Frank J. Tracy, of this place, for the postmastership. Tracy held that the selection of the postmaster under the present administration should be made by and under the provisions of the new primary law. The decision is of general interest in South Dakota.

Brookings.—The next regular meeting of the South Dakota board of pharmacy for the examination of candidates for registration and general business will be held here on the 23d and 24th day of April, 1913.

TO RECLAIM MANY ACRES.

Enterprise Pronounced Feasible if Federal Aid Is Granted.

Philip.—Dan Bierwagen, well known as a rancher and alfalfa grower, was in Philip and gave a talk to 25 business men, his subject being the Bierwagen irrigation project. A map had been prepared showing the proposed dams, reservoirs, ditches and a portion of the irrigable tracts. S. H. Lee, who was South Dakota's state engineer until the recent change of administration, looked into this project carefully and regarded it as feasible. Many of the business men of this city, who at first thought the plan a wild one, were convinced by Mr. Bierwagen's talk that it is practicable.

Congressman Ewen W. Martin has given the project endorsement, stating that if it proved feasible after preliminary surveys, the development could be carried out by the federal government under the reclamation act.

The principal dam would be located across the Cheyenne river near Buffalo Gap, 40 miles south of Rapid City, this dam to be constructed of masonry at a cost of \$2,500,000 to \$3,000,000. A flood gate would form part of this dam and when sand and sediment had collected in the reservoir above the dam, the floodgate could be opened and the sand released, the current forcing it down the channel of the river.

A transmission ditch would convey the water from the masonry dam to a point 50 miles northeast, emptying into a basin in the Bad Lands which would be formed by the construction of two dams across outlets of an immense natural reservoir. The capacity of this basin, which is near the town of Quinn, has been estimated by engineers at more than 400,000 foot acres.

From this reservoir near Quinn, which is 20 miles west of Philip and about 50 miles east of Rapid City, the main ditch would carry the water northeast to the Hardingrove flats, 25 miles north of here.

The business men of Philip will assemble to organize the work of getting information as to the irrigable area in this vicinity.

A reconnaissance survey has been authorized by the state legislature, an appropriation of \$9,000 having been made. Mr. Bierwagen will assist State Engineer Derr in this work, which will start about May 15.

Burke a Grandfather

Pierre.—Announcements have been received in Pierre of the birth of a daughter to Mrs. Milton P. Goodner of Seattle, Wash., who as Miss Grace Burke, daughter of Congressman Burke, is well known throughout the state. Mrs. Goodner is Burke's eldest daughter, and her new daughter, christened Josephine Ruth, is the first and only grandchild of the congressman and his wife.

Granger Is Cleared

Pierre.—At a hearing in Stanley county circuit court Representative A. C. Granger of Kadoka was found not guilty on the charge of having interfered with an election at Kadoka last November. It appears that the only "interference" was in his anxiety to know the results; he helped the election judges to sort the ballots into piles after the ballot boxes had been opened at the close of the voting.

Crowded for Room

Pierre.—The question of location of the new state appellate officers which will come to the capitol under new laws or rulings, is one which is agitating state house circles. The old established departments are holding onto what they secured at the opening of the session, and the new ones are hunting the most advantageous quarters. The tax commission has decided temporarily to locate in the rooms occupied during legislative sessions as the private office of the lieutenant governor; the office of the secretary of the senate, and the senate will file room. The tenure in these rooms depends upon circumstances. The bank examiner's department will also probably be located on the third floor of the building, along with the tax commission and offices which will be required by the board of investigation, the state live stock department and others who will be looking for quarters in the building.
