### Obituary of Martin Abbott.

Mr. Martin Abbott was born in England, January 22, 1838, and was but eight years old when he came to the United States with his parents, William and Mary Butler Abbott. They settled on a farm in Washington Co., Wisconsin, where he grew to manhood.

When the civil war broke out he bravely shouldered arms in the defense of his adopted country and served faithfully and well from August 1862, to the close of hostilities. His regiment, the 26th Wisconsin, Co. G., took part in many of the historic battles of that period of strife. Among them being the battles of Chancellorsville, Missionary Ridge, Lookout Mountain and Gettysburg. He was shot in the right hand in the engagement at Chancellorsville.

He was married September 13, 1865, to Miss Sarah A. Coates of Milwaukee Co., Wis., and located near Waukesha where he lived for ten years, when he moved to Sheboygan Falls of the same state.

His wife died February 6, 1877, leaving him with four small children. Later he married Miss Jennie A. Blackwell of Waukesha, Wis.

In the fall of 1885 he came to Canton, S. D., with his family and located on his farm four miles north of town. Fifteen years ago he moved to Canton where he lived until his death at three o'clock, October 18th, 1913, at the age of seventy-five years.

He was a clean man whose good men honored and trusted. He was a true friend and loyal citizen, a christian who believed in and practiced the teaching of Christ. He was a faithful member of the M. E. church for over fifty years. He had been a great sufferer for twenty-five years and his death was caused by a general breaking down.

He is survived by his wife and four children: W. M. Abbott, G. H. Abbott, Mrs. H. J. Ellis of Canton and Mrs. A. H. Farries of Hitchcock, S. D., also by a brother and three sisters; Edward Abbott of Canton, Mrs. Mary Miller of Sheboygan Falls, Wis., Mrs. H. Johnson of Milwaukee, Wis., and Mrs. L. L. Brown of Wichita, Kan.

**CARD OF THANKS.**  
We wish to express our sincere thanks to all those who so kindly sympathized with and assisted us in our recent bereavement.

Mrs. JENNIE A. ABBOTT, Mr. and Mrs. Wm. M. ABBOTT, Mr. and Mrs. A. H. FARRIES, Mr. and Mrs. H. J. ELLIS, Mr. and Mrs. G. H. ABBOTT.

G. O. Lomen who announced his candidacy for County Auditor in last week's LEADER is a man fully qualified to fill the office and perform all the difficult duties pertaining thereto. He was deputy to Mr. Kundert for four years and to Mr. Torberson two years and by his work is known. His many friends have urged him to enter into this campaign and assure him of hearty support.

Miss Ruth Gemmill left Monday for Detroit, Mich., where she will visit awhile with her sister before going to Washington, D. C., where she will spend the winter with her friend, Mrs. John Rothrock, and also study music under the best instructor possible to find. Miss Gemmill possesses unusual musical talent and has undoubtedly a brilliant future before her.

Mr. and Mrs. A. E. Manson are the happy parents of a new daughter. Announcement was received this week of the marriage of their son Harold Eugene Manson to Miss Bell Speed at the home of the bride's mother, Mrs. Josephine Rogers, in Chicago on Saturday, Oct. 18th. Congratulations and good wishes are extended to all interested parties.

Romance, Adventure, Love, Intrigue and a liberal sprinkling of good clean, wholesome comedy are the chief assets of Augusta J. E. Evan's great American drama "St. Elmo", which will be seen at the Kennedy Opera House, Canton, on the evening of Saturday Nov. 1st.

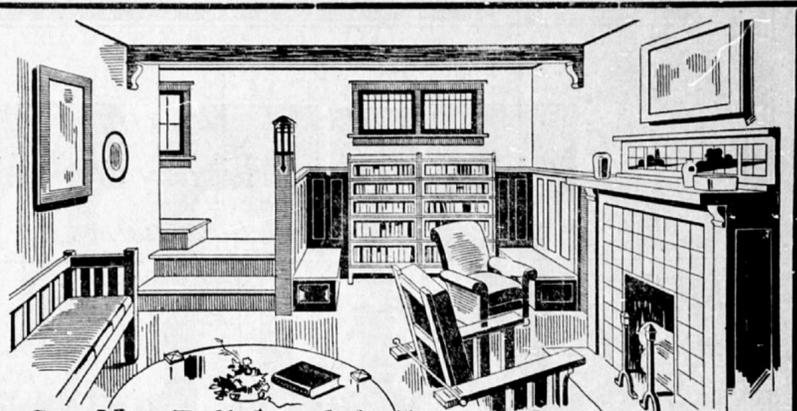

The book, which has enjoyed a tremendous popularity for a score of years has, perhaps, found its way to more American firesides than any other novel of the present day. The story appeals to all classes of people, and the dramatization is fully as good as the book.

The company presenting "St. Elmo" are all well known artists of recognized ability and have been carefully selected because of their peculiar fitness for the difficult roles. The Grand producing company are sending a complete scenic production and the attraction will be given with the same completeness of detail that won the admiration of the critics of Sioux City, Des Moines and other large cities.

Manager Campbell has made an extra effort to secure this attraction and he should receive the support of the theatre going people of Canton.

Henry A. Johnston, a business man of L'Anse, Mich., writes: "For years Foley's Honey and Tar Compound for coughs and colds has been our family medicine. We give it to our children who like it on account of its pleasant taste. It is a safe cure for coughs and colds." It contains no opiates.

will patronize places of amusement. Certainly no city has a more comfortable, cheerful place to spend an hour or more than has Canton, and when there is no unusual attraction on Manager Campbell always has moving pictures and music to amuse and entertain.

The high school football team go to Beresford Friday of this week for a return game with the high school school at that place and expect to return with a score, in favor of "Canton." They will be accompanied by enthusiastic rooters who have all kinds of faith in our boys.

Rev. Lewis preached two grand sermons last Sunday. His sermon lectures attract the attendance of many who are not regular churchgoers. In these he brings people face to face with facts in every day life and sends them home thinking "Less Sunday evening his subject was "I Never Saw the Engineer," and he introduced his beautiful poem which we are permitted to publish that may peruse, and for the benefit of many who wish a copy.

**I NEVER SAW THE ENGINEER**  
We boarded the noon express on a stormy winter day  
For a distant southern city a thousand miles away;  
Some lazily puffed away on mild and sweet cigars,  
They chatted, dozed and dreamed in the palace cushioned cars,  
The shades of evening fell, soft as the flakes of white,  
As out from the town of D—the train plunged into the night,  
Darkness hung black and bleak, rapid we onward rolled,  
Around the dizzy curves, the bell in warning tolled,  
A whistle, a jar and a crash, shrieks and the woeful wail,  
The pathetic plea for aid broke out in the dreadful tale,  
The cars were safe on the track, but the engine a ruined mass,  
For the steam had been reversed, and the brakes were hammered fast,  
The passengers all safe, but the engineer was found  
With the lever in his hand, pinned to the frozen ground.  
In a mass of twisted steel, was the man who had faced the squall

Through the stormy afternoon, then tried to save us all.  
His eyes were clear and bright, his hand steady and strong,  
He had read the orders right, but the writer had written them wrong.  
We laid him out in the snow such pity we seldom hear,  
As the passengers viewed the face of the heroic engineer.

His grave is forgotten now, like his manly form in life,  
The only flowers that bloom are sown by his drooping wife,  
And the steeple where the stalwart stood when the weary race was o'er,  
Through the dreary autumn days, shall feel his tread no more.  
To the hero duty is sweet, precious the public trust,  
His name on the pay roll fades, but it shines amid the just.  
When every eye perceives, the coward and bravely true,  
If he jumped to save himself, or died at his post for you.  
Then hail to the engineer in the shed before the race,  
While truth is in his heart and life lives in his face,  
Give him the praises due, while life is in its bloom,  
Then bury the sigh and tear deep under his pensive tomb.  
—Rev. Geo. Edw. Lewis, Grand Rapids, Mich., Aug. 1909.

Something New and Good  
Tank's new bread has been christened "Mothers Bread" because it is so much like the home baked bread. It is not quite as white as the bakers loaf, but finer in texture and more nourishing. The loaves are the same size and price 5 and 10 cents. Selling direct to consumers enables him to give more value for the money than if they were handled by a middleman. Try a loaf of "Mothers Bread" and thereby patronize a home industry.

Lloyd H. Rising, Canton's famous young orator who is making good on the lecture platform. Mr. Rising is in Canton this week visiting at the home of his parents.

If you are looking for a watch for your own use or to give away, we are sure that we can sell you a better watch for the same money or the same watch for less money, than anyone else. Won't you please come in and let us prove this statement before you buy?

**Why Let Your Roast Dry Up In An Open Pan When A REED Self-Basting Roaster**

preserves all the natural juices by automatic basting?  
The Reed Roaster is self-basting. It does away with the annoyance of basting by hand.  
The top is concave—a distinctive feature. The vaporized juices condense upon it and, instead of running down the sides, flow to the centre and drip directly upon the meat, basting it continuously.  
Inner tray prevents burning. Opening the dampers below the roast.  
**Sanitary**  
Seamless stamped steel with rounded corners, enamelled with Red Flintstone Gray or Matchless Turquoise—no place for dirt to cling. Cleans like porcelain.  
The Reed Roaster is for every-day use—cooks meat, fowl, fish, beans, brown bread and other dishes.  
Six different sizes at Hardware and Housefurnishing stores.

You may be thinking of buying a coat, a cloak, a hat, a cap, a suit, or an overcoat; carpet or rug; stove or coal, dish or pan. If so, before you go down town, read the advertisements in the LEADER and see what the stores have to say. They are continually talking to you about these very things. It's your fault if you don't profit by their offers.
