## Nyal Family Remedies

Just a few lines this week regarding Nyal Family Remedies. We repeat again, that if you are ill or afflicted with some organic or serious condition we suggest that you consult your physician.

If however you have some minor disturbance and want some good household remedy, remember the Nyal Family Remedies. These remedies are not patent medicines. They are made by one of pharmaceutical houses in America. We know the formula and will give it to the purchaser so he may know the ingredients.

The Nyal Remedies are sold by over 15,000 drug stores in the United States. Remember the name.

NYAL FAMILY REMEDIES

DEXTER'S DRUG STORE.

to administer it and one with the intelligent sense of the moral values of a situation that will aid him to recognize the real human intent of the law and so administer it in his court." Well said and on all of these elements the LEADER contends Judge Kennedy is the superior of Mr. Wagner and possesses many other elements for the making of a good Judge which are superior to those possessed by Mr. Wagner. The LEADER does not desire, and will not throw dirt on Mr. Wagner but will confine itself to a discussion of the qualifications of each man.

The LEADER contends that his candidacy is a reflection on every lawyer in this circuit that the people should be compelled to select a man from the outside to fill its judgeship. This carries with it the idea that none of the many first class lawyers in the circuit could not be chosen and the bar almost to a unit is against Mr. Wagner. The LEADER is alone responsible for what appears in its editorial columns and Judge Kennedy will pay no attention to personal attacks on him. He is too well known in this circuit to need either introduction or defense. Mr. Wagner is a stranger and his sponsor, the Press, may think he needs both.

"Teddy" will soon be among the headlines again.

The Argus-Leader man might wait until the day before the primaries and give Coe I. a parting slap on the wrist.

The political situation in South Dakota at the present time seems to seep of doubt on every side. The majority, minority and independent tickets have men that the voters would take pleasure in voting for but as voting for any one ticket straight the LEADER is of the opinion there will be scratching and lots of it, in fact practically all three tickets are in reality independent.

There have been several sales near here this winter but unlike the sales that used to come of years ago. The people renting here have done so well that they sell some of their surplus stock and machinery in order to make payments on land purchases.
