Cost Kept Down—Quality Kept Up

No better medicine could be made for coughs, colds, croup; hoarseness, tickling throat, bronchitis, etc., than Foley's Honey and Tar Compound. That's why they can't improve the quality, and war or no war, the price remains the same. No opiates. Don't take substitutes, for Foley's Honey and Tar is the best.

The high school foot ball squad is hard at work, perfecting passing and receiving the ball but a few faces are shy on the team. The team this year will be made up of boys, who by hard study, and clean habits won their place. A few of the older boys would rather lay on the side lines and make fun of those who dare to do right, and play right, while they themselves, prefer to smoke cigarettes and take life easy, not caring for their school or studies, just to suit their own selfish aims. Comparison is not a factor when it comes to telling which will make the better man. The big, side-line bragast will never be able to take a fall and come up again.
