

## Announcement of Candidate For Mayor

I, the undersigned, respectfully announce myself as candidate for mayor of the City of Canton, at the coming municipal election to be held on the 20th day of April, 1915. If elected I shall do all in my power to perform the duties of the office according to law and for the best interests of the City of Canton.

Respectfully,  
T. T. SEXE.

Next Tuesday, April 20th, the city election will take place and two candidates are out to fill the vacancy of the Mayor's office. The candidates are Millard Bennett and T. T. Sexe, both good men and both striving hard to win the highest honors that can be bestowed by our citizens. Mr. Bennett has been a citizen of Canton for over thirty-seven years, coming to this part of the Dakotas from Illinois when a boy. Mr. Sexe came to Sioux Falls, then to Canton from Norway some eighteen years ago and both men have reputations as being men of honor and integrity. It is up to the voters next Tuesday to get out and voice their sentiments as to which of these men are the choice of the citizens.

Warm weather brings warm and lasting smiles from the farmers.

While John Barleycorn is getting some hard knocks, why not put him "out" for good a la Willard.

The first "peep" of the robin is a welcome sign of Spring, but oh that just call of the "imps," "play ball-1-1."

Out out the tongue of a gossip or scandal monger and you have saved many a good man and woman from the downward path.

"Booze" robs one of all that is good, health, wealth and happiness. It kills the good in the soul and brings only the animal and vicious instincts to the mind.

## We Take off Our Hats

TO OUR FRIENDS AND CUSTOMERS to announce the fact that we are selling the LITCHFIELD DOWN-LOW SPREADER. This machine is especially built to meet conditions in this territory. For the benefit of our old customers and new ones we hope to make, we are going to publish a series of statements concerning this machine.

Five distinct features are embodied in this spreader which cannot be found on any other. They are the SELF-CLEANING APRON, BULL DOG CYLINDER, NO-CHOKE BOX, METAL SIDE HITCH and MAIN BEARINGS packed with waste like a car boxing.

These are what make it better than others, make it last longer and cost less to keep up. Without these things it could not be GUARANTEED FOR FIVE YEARS.

There are only two gear wheels on the Litchfield Down-Low Spreader. Count them on others. One lever controls every operation. With this lever the machine can be thrown in gear, out of gear, and the feed changed without stopping the team. The large cold rolled steel axles and shafts and quality used throughout the machine, are other things which add to its value.

Later on we will tell you about these things in detail and also call your attention to the four-inch CHANNEL STEEL SILLS with HALF-CIRCLE STEEL FRONT SILL and HEAVY STEEL "U" BEATER BARS.

We have everything else in the machinery line but would like to show you the LITCHFIELD DOWN-LOW SPREADER.
