ists. He returned last Saturday, after he had undergone a rigid examination and the Doctors told him that they could do nothing for him. His host of friends sincerely hope that in some way nature will come to his aid and bring him back his health.

The Seniors Attend a House Party
On Friday morning, Aug. 13, eight members of the Senior class of Canton High School together with Miss Edna Lee as chaperone left Canton to attend a house party given by Misses Elnelynn and Esther Murner at their summer home at Lake Okoboji. The seven girls of the party passed a pleasant time at Spencer from 5 to 11:30 a. m. While there they examined the well equipped, modern High School building, viewed the rest of the city and visited Mrs. Kutcher, formerly of Canton. What the boys did there they alone know but they evidently did not like the town as well as the girls. Upon reaching Arnold's Park the class was met by the Murner girls and taken across the lake to their home on Dixon's Beach. For the next three days the Seniors enjoyed picnics, boat rides, bathing, porch parties etc. They also visited Arnold's Park and The Inn where they procured a number of souvenirs. At the latter place they enjoyed the beautiful music furnished by the band, also instrumental and vocal solos. Sunday afternoon they were joined by Dale Pulver and Vernon Wilkins who surely proved the old saying which says, "The more the merrier." In the evening they were entertained by Rev. White who gave them a very interesting and educational talk. The last night of their stay no one slept much for the girls found it more entertaining to keep the boys awake than to sleep themselves. Five of the girls reached Canton Monday on the evening train. Two of the girls stayed at the lake with relatives and the boys remained another day to go fishing.

Those who attended the house party extend their heartiest thanks to their charming hostess, Mrs. Murner for their fine time and they also feel the deepest sympathy for those members of the class who for various reasons were unable to be with the "Merry Bunch." Contributed by Sadie Smith.

The Stranger in Our Midst
It is a bad omen that the German papers published in this country continue to view the whole controversy from the standpoint of Berlin. They are anxious about Germany's interests in conducting the war; they are not anxious about the rights of the United States. Their editorials find satisfaction and conviction in whatever emanates from the Wilhelmstrasse magnates, while they intimate very broadly that our government is prejudiced, hypocritical, unneutral, subservient to England, indifferent to
