Mr. and Mrs. C. J. Odan and five sons departed yesterday afternoon for their home at Decorah, Iowa, after a very pleasant visit with relatives here and at Canton.

There were two automobile accidents in this locality last Wednesday, but fortunately no lives were lost. The first occurred about 6:30 when Charles Hanson, who was driving his father's new Chandler car west on the Canton road and attempted to pass Mr. Henry Hanson who was driving his Cadillac in the same direction and was just turning into Hans Hanson's place a half mile west of town. The Hanson car was traveling at a good rate of speed and struck the Chandler car in such a way as to start the Chandler car spinning over and over. Charles emerged from the wreck miraculously free from serious injuries but the Chandler had the fenders, running boards, wind shield, steering wheel, two wheels and other minor parts demolished or badly damaged. It will likely take in the neighborhood of three hundred dollars to repair the car. The Cadillac was only slightly injured. [Inwood Herald]

Mr. and Mrs. Storie of Sioux City arrived in Lennox Monday and will make this place their home. Mr. Storie is an experienced electrician and will have charge of the electrical department of the local light plant. We have known Mr. Storie for the past fifteen years, having first made his acquaintance at Canton, where he had charge of the light plant for a number of years and always proved to be absolutely reliable. The Lennox Milling Co., may count themselves fortunate in having secured so able a man. We welcome Mr. and Mrs. Storie as citizens of Lennox and hope they will soon feel at home among us.

H. E. Hvistendahl, the sturdy old Canton Democrat, was a welcome visitor at the Journal office, Friday. [Harrisburg Journal.]

Tuesday evening this week sixty friends of Mr. and Mrs. G. J. Moen called on them without warning and remained through the evening. It was in the way of a surprise or goodbye party that the visitors came as an evidence of their kindly friendship for the pleasant people who were so soon to leave us to take up their permanent residence at Canton where Mr. Moen not long since acquired an interest in the First National Bank, one of the strong institutions of Lincoln county. The evening passed pleasantly indeed for all, socially and with games, until a later hour when plates were passed and a generous lunch served from well filled baskets with which the ladies of the company had previously provided themselves. After lunch Rev. A. E. Berg appropriately took occasion to offer a few brief remarks complimentary to the happy surroundings and their real meaning for all present. He closed his remarks in a neat speech addressed to Mr. and Mrs. Moen, and presenting them with a handsome set of Sterling silver coffee spoons and cold meat fork. Mr. Moen made a feeling response expressing the genuine pleasure it gave himself and Mrs. Moen that they had been so kindly remembered by the welcome presence of warm friends. Soon after this many of the visitors left for their homes. But the great number of dishes and other things to be taken care of later by those who remained longer for that important duty, bore ample evidence that the slaughter of attractive edibles had been quite complete. THAT CHILLY FEELING.

What requires greater courage— a sterner resolve— than the forsaking of a comfortable bed for the atmosphere of a chilly room and a cold floor?

It makes Father a hero every morning—but what discomfort he needlessly endures when—

Cole's Radiant Hard Coal Heater

—with magazine feed

will keep the house and floors perfectly comfortable at all times.

It will extract and radiate more heat from your fuel than any other heater—

It will throw out a steadier heat—for a longer period than any other heater.

It will heat your rooms quicker than any other hard coal heater you can buy.

It has no cumbersome castings and dead air spaces to retard heat radiation—

It gives you all the heat and gives it quick—

Especially designed for hard coal or crushed coke—but with the magazine removed will satisfactorily burn soft coal, wood or lighter fuels.

It is "THE" heater for cold weather—you waste time looking for a better one—for it is not made—

Come and see for yourself.

See the name "Cole's on the feed door of each stove. None genuine without it
