

# WANTED!

## HORSES, MARES AND MULES

William Holland of Waterloo, Iowa, will be in Canton, S. D.

**Monday-Tuesday, Feb. 28-29**

With Headquarters at  
**The Palace Livery Barn**

### The Kind of Horses I Will Buy

I will buy the best big, thick draft horses that grow, from 5 to 10 years old, rugged and sound, with plenty of bone, and will pay from \$185 to \$225 per head.

I will buy good business chunks, from 5 to 8 years old, standing 15 to 16 hands high, thick made, rugged and sound, and will pay from \$150 to \$165 per head.

I will buy horses from 4½ to 7 years old, weighing 1100 to 1300 lbs., that are thick made, rugged and sound, and will pay from \$140 to \$150 per head.

I will buy some good riding horses standing 15 to 15-3 hands high, with bone and substance. They must trot square. I will pay from \$100 to \$125 per head.

I will buy 3 year old mares, coming 4, with good hair, nicely harness broke, and will pay from \$140 to \$160 per head.

### Wm. Holland, Buyer

**Into a Shark-Infested Sea!**

Taken from the deck of a ship—flung over the shoulder of a herculean brute—a brute that was once a man—carried up to the dizzy height of the mast head, and then hurled out into the sickening space to land in a sea infested by man-eating sharks.

See the Brute—gigantic figure of superhuman strength—the thing that was once a man. He is one of the characters that will command your attention from start to finish in "Neal of the Navy."

William Hamilton Osborne, who has written some of the most popular stories of the day, is the author. He has brought his characters into life in motion pictures.

#### OAT SMUT PREVENTION.

Department of Agriculture Recommends Use of Formaldehyde.

The average annual losses from smut in oats are greater than those caused by any other preventable cereal disease in the United States. Treating the seed with hot water or with formaldehyde solution before sowing is an easy, cheap, and effective way of preventing this disease. The latter method, which is the one most available for general use, is here briefly summarized. Both methods are described in detail in Farmers' Bulletin 507, which will be sent free on application to the Secretary of Agriculture, Washington, D. C.

Mix the formalin (a commercial preparation which is 37 percent formaldehyde by weight) with water at the rate of 1 pound (a little less than a pint) to 40 gallons of water. The grain may be either loosely inclosed in sacks or put loose into a tub or vat with the solution. Agitate the sacks or stir the loose grain occasionally so that the entire surface of every grain will be thoroughly wet. Instead of being immersed the seed oats may be spread on a clean floor or canvas and sprinkled with the solution and shoveled over during the process so that they will be wet evenly as in the other method. Not over a gallon of solution will be needed for every bushel of dry grain. After sprinkling, shovel the seed into a pile, cover it with sacks wet with the solution, and allow it to stand for at least two hours before spreading it out to dry.

PRECAUTIONS: The oats may be seeded as soon as dry enough to run through the drill. If the seed is still moist, however, the drill must be set to sow more to the acre than if it is dry. The quantity which should be sown may be determined by measuring a given bulk before and after treatment and figuring the proportion of increase. After treating do not expose the seed to freezing until it is thoroughly dry.

Do not allow the treated seed to come into contact with old sacks, bins or machinery in which there may be smut spores. If such must be used, scald them or wash them first with the formaldehyde solution.

#### Now Feel Entirely Well.

A. H. Francis, Zenith, Kas., writes: "I had a severe pain in my back and could hardly move. I took about two-thirds of a 50c box of Foley Kidney Pills and now feel entirely well." Middle-aged and older men and women find these safe pills relieve sleep disturbing bladder ailments.

SOLD BY SHERMAN & ROCHIE

#### WANT ADS

RATES—5c per line each issue, count six words to a line. No ads taken for less than 2c. All ads will be run until ordered discontinued.

**ZIMMIE SAYS:**  
I'd sooner hunt bargains among the ads than hunt rabbits among the brush.

Nothing detracts quite so much from the good impression a community might make upon the strangers as the prevalence of factional spirit—the practice of backbiting, of "knocking" neighbors and fellow citizens. If residents of a locality cannot or will not agree among themselves and manifest no confidence in themselves, how can they expect others to admire them or want to live among them.

#### POLITICAL ANNOUNCEMENTS

**County Judge.**  
I am a candidate for nomination at the May primary to the office of county judge, and would very much appreciate your support.  
M. B. Kennedy.

**For Sheriff.**  
I herewith announce myself a candidate for the office of sheriff subject to the will of the republican voters at the 1916 primary and I will deeply appreciate all efforts made in my behalf.  
J. L. Opperud.

I hereby announce my candidacy for the office of sheriff of Lincoln County, subject to the will of the voters at the Republican primary to be held on June 6th, 1916. Your support will be appreciated.  
Very Respectfully, JOHN E. QUIEN.

I announce myself as a Republican Candidate for the nomination for the Office of Sheriff of Lincoln County, subject to the will of the voters at the Primaries to be held the 6th of June, 1916 and if elected will perform the duties of the office to the very best of my ability.  
A. J. TATE.

#### Shop in The Leader first

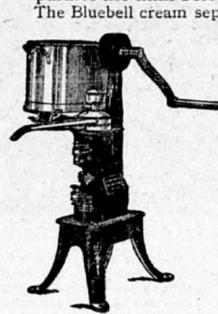

O. J. Erickson, D. C., Chiropractor of Sioux Falls will be at Canton every Tuesday from 8:00 to 11:00 a. m. Will stop at Rev. J. D. Bohlen's residence. All parties desiring chiropractic adjustments are invited.

### The Bluebell Cream Separator Is Two Machines in One

That is why you should buy one

IT'S a clarifier—then a separator. It clarifies and purifies the milk before separating it.

**Thompson & Fossum**

The Bluebell cream separator removes dirt and foreign substances by means of the clarifying chamber. This clarifying chamber is located in the base of the milk-feeding shaft. The milk drops into it immediately upon entering the bowl. Centrifugal force draws the heavy dust particles and foreign substances to the walls of the chamber where they gather in a mass. The milk then passes up and into the disks for separation, practically free from all foreign substances. The dirt having been removed, the milk is in better condition for separation. The disks are not clogged. The skimming is thorough. The cream delivered is pure, and the skim milk is wholesome for all feeding purposes. Call and see the Bluebell separator in our store. We'll show you what that clarifying chamber does for your milk.

#### NOTICE OF ORDER OF FINAL ASSESSMENT.

In the Matter of Lincoln County Ditch Number Sixteen, Lincoln County, South Dakota.

Notice is Hereby Given, that on the 14th day of February, A. D. 1916, an order of final assessment in the above entitled ditch matter of the lands benefited by said ditch, in the amounts hereinafter set forth, was made by the Board of County Commissioners of Lincoln County, South Dakota, for the payment of the costs
