High School is not all pleasure for sorrow comes to us as well as others. We were all shocked and grieved to hear of the death of our friend and schoolmate, Marguerite Wood who died in a Sioux Falls hospital. About three weeks ago she had a severe attack of appendicitis and was taken to Sioux Falls where she was operated on at once. At first she seemed to get along nicely but a few days later complications set in and she died Sunday. Marguerite entered High School as a Sophomore last fall and in that short time had made many friends. The High School and Faculty extend their heartfelt sympathy to the bereaved parents.

Why Do You Make Your Own House Dresses?

"You cannot make them as cheaply as you can buy them, because you and I cannot compete with the modern factory."
"They cut 250 dresses at one time—they sew on 5,000 buttons a day with one machine—they work corded buttonholes that cannot rip, also by machine."
"You cannot sew a seam as evenly as the new machines that can make sixteen stitches to the inch—you cannot buy as good or as comfortable a pattern as this dress was cut over."
"If you count your time for anything, you cannot make a dress for twice what I paid for this one."

Mina Taylor Dresses

are so stylish in appearance—so low in price—so sturdy in service—that no woman who values her time will try to make a house dress when she can buy one that is better at a lower price.

We sell Mina Taylor Dresses at \$1.25 and up.
Come in and we will convince you that you cannot afford to try to make your own dresses!
