

Facts

GET the facts on the operating cost before you buy any automobile. Find out the truth before—not after. And don't be satisfied with hearsay or a salesman's claims. The price of gasoline is high; so is oil and there is sure to be an increase in the cost of all tires.

So, what you want is the car that will give you most miles per gallon of gasoline, per gallon of oil and per set of tires.

Here are the facts proved by the Maxwell stock touring car that recently set the World's Motor Non-Stop Record:

Maxwell World's Non-Stop Record Facts	
Miles without a motor stop	22,023
Average miles per day (44 days)	500.6
Miles per gallon of gasoline	21.88
Miles per gallon of oil	400
Average miles per tire	9,871

Remember that this was a Non-Stop Endurance Record—in order to prove that the Maxwell car was exceedingly sturdy, reliable and trouble proof.

No attempt was made or could be made to save gasoline, oil or tires. So these figures merely indicate what would be possible under ordinary driving conditions.

Right now we have a Maxwell we can deliver to you. Let's not put it off. We know the Maxwell factory can't get half enough freight cars to carry their doubled output. Later on we may not be able to supply you. But we can NOW. Better phone us for a demonstration today.
