C. A. BERRY

Jos. Millett called Monday to advance the boys subscription another year. Mr. Millett expects to make a trip overland in a car as soon as the roads get good to make a visit to his children living in Harding county. He told us that he has a piece of a log in his attic down at Hudson that went through the cyclone several years ago that he is saving that future generations can see that we used to have a cyclone occasionally. The block of wood in the LEADER office window having a horseshoe imbedded in it belongs to Mr. Millett and though it has been here several years scarcely a day passes that people do not stop to look at it.

C. D. Moore received a letter from the A. J. Overlander family last week that states that they are enjoying life in a New York state rural home close to a city of 5000. They have a herd of Holstein cattle and much other thoroughbred stock. Their old friends and neighbors will be glad to learn of their success.

Last week we received a copy of the Outlook Promoter published at Outlook, Montana, and find the name of Norman E. Thackeray formerly proprietor of the Fairview Eagle, as city editor. It was their Easter and Booster edition of twenty pages. It was a big paper for the size of the town but then Mr. Thackeray always was a hustler and is evidently making good in his new location.

Easter Sunday was a blue one for most of the farmers as they all had a few days work left on their small grain and they were anxiously watching the clouds being afraid it would rain and delay their work but most of the rain passed over this section.

WAGENOR.

A thoroughbred Percheron stallion will stand for the season at the following places: Tuesdays, Wednesdays and Thursdays at P. S. Paulson's near Moe; the balance of the time at the home of the owner, Sander Brynjulson, A. B. Schmidt, Groom, 4522. Sander Brynjulson, Owner.

You will find the best

College Debate.

Augustana College will have a series of debates with two other colleges the first one taking place at the college chapel on Saturday evening, April 29th, at which time the affirmative team composed of Paul Reinertsen, Arthur Odland and George Sime will meet the negative team from Waldorf College of Forest City, Iowa, and debate on the question: "Resolved, That congress make a substantial increase in its appropriations for national defense." Admission will be 25 cents and all should turn out and encourage the debaters. 7:45 is the time set.

On the same evening Augustana's negative team—composed of Misses Cora Anderson and Martha Berdahl and Himer Dybvig will beat St. Olaf Academy at Northfield, Minn., to meet the affirmative team there.

The Gilded Fool.

Fox feature at the Lyric next Monday night. A powerful appealing, dramatic photoplay and a compelling combination of love, high finance, and the life of the "Gay White Way". The plot deals with the progress of young Chauncey Short, a typical "Gilded Fool" who spends his days in idleness and his nights in frivolity. How he meets the "only girl" and through love of her is roused to a realization of his many shortcomings is a story that strikes home to the hardest heart. The climax comes when, after a fiercely fought battle of finance, the erstwhile "Gilded Fool" thwarts the contrivings of a thieving rascal and saves his fiancée's father from ruin. Admission 20 cents.

Full Value for Cream.

The following paper prepared by A. W. "Bert" Reynolds is taken from The Iowa Agriculturist published at the Ames college for this month:

In communities where dairying is practiced on a large scale, where the cows are tested and the farmers are progressive generally, the price of butter fat is higher than in communities where little attention is paid to the cow and her products, because the creamery making butter from the cream produced in the progressive community receives a higher price for its butter than the creamery making butter in the community where dairying is only a side issue.

The blame for the difference in price is usually laid at the door of the local creamery, but in nine out of ten cases, the fault lies in the quality of cream with which the creamery has to work. Good butter cannot be made from poor cream, regardless of the skill of the butter-maker, and poor butter brings poor prices, so the fault usually traces back to the producer.

In every community there are some men who are progressive in dairying, or would be if opportunity offered, but there is little inducement for a man to clean up and produce first class cream when he receives the same price as his neighbor does for cream that should not be allowed on market. The remedy for this condition is grading of the cream; then the man who wishes to improve the quality of his cream will have an inducement to do so, for he will receive a price which will compensate him for his extra care. Grading will also raise the general standard of the cream and better produced in any community. The Iowa State Food and Dairy Commission recommend the following system for the grading of cream:

Extra.—Special grade of cream which is sweet cream suitable for table use, and such as will not curdle in hot water, tea, or coffee.

First Grade.—First grade cream shall consist of cream that is clean to the taste and smell, slightly sour, containing not less than 25 per cent of fat and not over 4 per cent acid and free from lumps, curd, dirt and all other foreign matter.

Second Grade.—Second grade cream is cream that is too sour to grade as first grade, or may have weedy or other undesirable flavors and odors. All other cream shall be declared illegal.

Illegal Cream.—Illegal cream is cream that is very old, rancid, mouldy, dirty or muddy; or that is produced from an unclean separator or that is stored, handled or transported in unclean cans; or that has been produced, handled, separated, stored or transported in violation of the state dairy, pure food or sanitary law; and the scale, purchase or manufacture of such cream for any human food purpose shall be prohibited by the statutes.

According to W. B. Barney, state dairy and food commissioner, in his report for 1915, the "local creamery is the greatest incentive for more and better dairying and is a strong influence for permanent agriculture." This is borne out in the case of a certain local creamery. Before the establishment of this plant the average price paid for butter fat was 22 cents; after its establishment the price has averaged near 28 cents.

In his report, Mr. Barney further states that he regards the central plants largely responsible for the poor

UNDESIRABLE ADVERTISING.

Chicago Detective Gives Milwaukee Depot a Bad Reputation in an Endeavor to Earn His Salary.

J. W. Cowan, who claims to have been in the detective business twenty-five years, dropped off a train here last Saturday night and was here about two hours then he went up to Sioux Falls and a reporter got hold of him and the brilliant Chicago gumshoe artist let his imagination run away with him in his endeavor to get into print.

He told of how for some time past the Chicago office of the Milwaukee road had been receiving reports that the Canton depot was being made a lover's retreat and place for clandestine meetings, which was without any foundation whatever. What the officer saw was a bunch of 25 or 30 Canton young people waiting for the belated train to take them out to Worthing to the dance that evening and having a good time while waiting. Employees at the depot will no doubt take his report up with the head office and find out why he should give out such a report concerning his company's property in our city. Perhaps this was his first trip to the wild and woolly west and he wanted to let his employers know he really could detect rotten conditions where there were none and partly repay them for the little trip out here.

State Sunday School Convention.

The fortieth Annual State Convention of the South Dakota Sunday School Association will be held at Huron, S. Dak., May 2, 3, 4, 1916. The program will be as good as can be furnished, and will not only be entertaining but of the highest possible order of Sunday School methods. Huron will entertain all delegates on the Harvard plan, lodging and breakfast free. Next Sunday will be the time to elect delegates to attend to represent your school and Lincoln Co. Delegates notifying the County Secretary, Miss Bernice Hufsmith of Worthing, S. Dak., will be furnished Lincoln Co. badges to wear to the Convention. We urge a good delegation from this County.

W. S. Harper, Co. Pres. of Lincoln Co. Sunday Schools.

Preparing for Big Track Meet

The high schoolers are busy making final preparation for the big dual track meet to be held here May 6th, under the auspices of the high school athletic association. This out-door attraction will probably be the largest attempted in Canton this year and the student body is earnestly endeavoring to make it a success. Two local men, graduates of the U. S. S., will endeavor to win honors for their schools. Ray Pulver of the "U" in the broad jump and the hurdles, while "Jack" Laxson will enter the high jump and the javelin throw for the

State College Track Scene, Brookings

grade of cream produced in the state because they pay the same price for all cream, regardless of quality and to a large extent control the price paid for butter fat.

Stock Foods Failed In Test.

Experiments at the South Dakota experiment station to determine the value of stock foods showed that the cost of grain in feeding pigs was greater where stock foods were used than where grain alone was used. The experiment was demonstrated with 114 pigs.

At the Ottawa experiment station it was found that the cost of 100 pounds of grain was between \$1.00 and \$2.00 greater when the stock foods were fed in conjunction with the grain than when the grain alone was fed. The Iowa station conducted experiments to ascertain whether the stock foods had a beneficial influence in digesting corn. The results showed that the stock foods did not aid in digestion, and that a bushel of corn produced as much or more pork when fed alone as when stock foods were added.—L. V. Ausman, State College.

COUNTY CLEAN-UP NOTICE.

Next week being the date set for a general clean-up by the governor of this state it is hoped that the residents of Lincoln County will see to it that all unsanitary places will be cleaned up. Have all your winter's accumulation of ashes, tin cans, manure, old straw, etc., hauled to the dump grounds. In the country where dead animals have been allowed to remain in the fields and pastures the remains should be buried at once before the flies have a chance to scatter disease around. It will be cheaper for you to do it yourself before the authorities in each district compel you to do it. It is for the benefit of your own families health as well as your neighbors.

County Board of Health.

A Mr. Duncan was here Saturday afternoon on his way home to Iowa from Brookings with a car that had been stolen and the thief captured when the car became stuck in the mud. A Missouri number had been substituted and it is doubtful if he would have been caught but he kept his people informed as to his route and the authorities nabbed him.

services next Sabbath and from this time on during the summer will begin at 8:00. The Epworth League will begin at 7:00 p. m. The League is being well attended these evenings. All the young people of the city are cordially invited.

The Easter program last Sunday evening was splendid, showing that the children had practiced faithfully and that the program committee had taken great care with them. The offering for the day was a "Self Denial" offering for the cause of foreign missions. The amount given was \$51.96 in cash and \$15 in subscriptions. We were pleased that so many felt like obeying the Saviors injunctions found in Matt. XVI, 24 for this once at least. Would it not be a great thing for the work of the Lord in the uttermost parts of the earth if we were more regular in this practice?

Will Lechner, the hustling chap who managed the Schoeneman Bros. Lumber yard here last year while manager Ekstrom was taking in the world's fair at Frisco, is moving to

Canton, and will manage the new yard up there which the Schoenemans' have recently purchased. Knew Will would not remain in Parker forever, for he is too good a man to work under anyone else. He is not only capable, but he is courteous and pleasant to do business with and is without a hustler and the Schoenemans' made a mighty shrewd move when they secured his services as manager of the Canton yard, for Will will make good most emphatically.—Hudsonite.

COMING EVENTS.

Dates of Coming Events of Interest To the People of Canton and Vicinity.

May 1-6 State Clean-up Week.
May 6-Dual track meet in Canton between the University of South Dakota of Vermillion and State Agricultural College of Brookings.
June 3-Better Stallion day under auspices of State College.
June 8-9 Nundalslaget.

"Pride of Sioux Valley" Flour

Is now electrically bleached. No higher grade flour can be found on the market. Use it and get your
