Everybody Boost for a Great Chautauqua.

Perhaps nothing comes to our city this summer of more real benefit in uplifting our citizens than the Chautauqua. It is but a recent movement but has gained such general favor that almost every community feels the need of it. The smaller towns that used to feel unable to support such an institution have now taken hold of it and are having their own programs. We have seen a number of these programs that are to be held in some of our neighboring towns and we feel safe in saying that none of these excell and few equal the program furnished us by the Midland Chautauqua Circuit. We once heard Bryan in the Auditorium in Minneapolis when we had to pay half the price of our season ticket, and there are other attractions just as good. Perhaps you may not be able to attend the whole program but if you attend one third of it you will get your money's worth. If you wish to help the business men to raise the guarantee be sure and get your tickets before July 8 the opening day of the program. Get a season ticket for the children this will admit them to the Junior Chautauqua also, which will be held at 4:00 o'clock each day. This is a new and interesting feature of the Chautauqua that all the children will enjoy. Let everybody plan to support the Chautauqua and help those who are back of it as well as get the inspiration and uplift of these eight splendid days.

4th of July Closing.

The merchants of Canton have not been able to get together on the hours of closing for the Fourth of July but it is certain that scarcely a store in town will be open during the afternoon and very few in the evening with the exception of the thurst parlors. Some will close all day while others will close at 10 and others at 12. If you have any shopping to do keep this in mind and do it the 3rd if you want any new clothes, shoes or groceries, harness or hardware for this is once where the store keepers and clerks are going to have a good time out doors.

Only a Collection.

Usually the holdup man's way of getting the coin from the isolated citizen is to put him to sleep with a crack on the bean. But the other night a New York journeyman highwayman adopted a different method. He held up a preacher in a Harlem street and with the aid of rapetee and a gun made him come across with his roll. After the preacher had dug down in his jeans and given his money to the highwayman he rebuked the man for adopting that way of earning a living. "Can't help it, brother," said the strong-arm man; "I need the coin. I am only taking up a collection; you can do the same, you know, and get away with it twice as easy as I can. Thanks for the favor."

Judging a Man Properly.

When you esteem a man why should you survey him all wrapped and enveloped? He then but showeth us those parts which are no whit his own, and hideth those from us by which alone his worth is to be judged. It is the goodness of the sword you seek after and not the worth of the scabbard; for which peradventure you would not give a farthing if it want its lining. A man should be judged by himself and not by his complements. What mind hath he? Is it fair, capable and unpolished, and happily provided with all her necessary parts? Is she rich of her own or of others' goods? Hath fortune nothing of hers to survey therein?—Montaigne.

Hard to Penetrate.

"Have you any militant suffragists in Crimson Gulch?" "Nary," replied Bronco Bob. "When the school teacher dropped a hint as to how she'd like to vote we'd have been glad of a chance to shoot up anybody that 'ud interfere with her. But by common consent we turned the polls over to her an' all stayed away so's there wouldn't be any chance of her bein' embarrassed."—Washington Star.

Wanted to Find Out.

The young man in the bureau of information laid the railroad guide down and looked reproachfully at the woman who had turned in a volley of questions. "Madam," he said, "you can't possibly take all those trains you are asking about." "I know it," she replied, serenely; "but as long as I didn't have anything else to do I thought I'd just see for myself how much you railroad men really know about your business."

"My boy," said the successful merchant, "never let your capital lie idle. Remember that money talks, but it doesn't talk in its sleep."—Boston Transcript.

And There Are Many Such.

"What I hate to see," said Uncle Eben, "is a man dat kaint stand up for his own rights without lookin' foh everybody else to lay down an' be walked on."

Don't Keep It Up.
