A PROPORTION of one member in three of the next National House will be inexperienced men.

EVEN the Detroit Free Press has become disgusted with Gov. Begole since he set his pardon mill running.

THE official vote for Delegate from Dakota was: Gifford (Rep.), 71,579; Wilson (Dem.), 15,124. That settles the matter; Dakota must not be admitted to the Union.

A FIGHT over a nomination is something which neither President Arthur nor Senator Logan can very well afford to make just now.

IT'S a little singular that it has only just occurred to the Democrats of this State to ask for a position in Cleveland's Cabinet, while Delaware with less than one-tenth of the population has the promise of the Premiership.

APPARENTLY Governor Begole is running out of material. The party reported pardoned yesterday was a very ordinary kind of convict.

ACCORDING to the latest advices the Senatorial situation in New York is about this: Morton leads in the race, but lacks over twenty votes of a majority.

GENERAL BUTLER having made considerable history is going to write some of it. It is said that he has contracted to furnish a New York publishing house matter for two volumes of reminiscences for which he is to receive \$50,000 and a small royalty.

A GENTLEMAN intimate with Governor-elect Alger and who saw him on Christmas day, assures a representative of THE TELEGRAM that the General's health is improving so as to leave no doubt of his being able to be at Lansing on the first of January.

LOGAN AND THE "INTER OCEAN." Since the movement of Senator Logan to defeat the confirmation of the President's nomination of Mr. W. E. Curtis as secretary of the commission to investigate our trade with South America, some curiosity has been aroused as to the course the Chicago Inter Ocean, of which Mr. Curtis was a correspondent at the time of his appointment, would pursue in reference to the Senatorial canvass in Illinois.

The article, after giving Gen. Logan's

tribute for his energy in the contest which resulted in the election of Judge Davis, ends with the statement that "The conditions for 1885 are not less inviting than in 1877, and not unlikely the contest this winter will be as historic as that of eight years ago."

ALBANY JOURNAL: Mr. Hiscock, we may add, is more likely to be found with Senatorial powers than President Arthur.

DETROIT FREE PRESS: Paul Loescher, the Muskegon fisherman, who killed his wife because she refused to live with him, has had the good luck to be convicted just in time to be pardoned before Gov. Begole's term expires.

SYRACUSE STANDARD: It strikes us that if we were a red-handed Nihilist, or a fire-breathing dynamiter, or an arsenic-eating anarchist, or a murder-plotting Socialist, we would rather be tried in a German than in an English court.

CHICAGO INTER OCEAN: Since Cleveland declined a keg of genuine old whisky, with a gold faucet for it to run through, the Democrats have been all torn up in their minds. They begin to have lurking fears that the Governor is not much of a Democrat.

PHILADELPHIA TIMES: Perhaps if the English people could be induced to make a cool investigation it would be found that there had been no serious dynamite explosions at all. A leaking gas pipe furnishes material for a good deal of noise sometimes.

WILMINGTON (Del.) NEWS: It is obvious that the young Republicans all over the country are meeting their recent defeat pretty much with the same spirit as that which their fathers met the rebel victory of Bull Run. They are organizing already for the next contest in 1888.

DETROIT POST: Judging from Gov. Begole's celerity in emptying the prisons by pardoning the prisoners, no accused person likely to be convicted should have had his trial postponed. If he had secured a sentence before December he could easily have got a pardon before January.

PHILADELPHIA RECORD: The New York Chamber of Commerce in declaring against the Spanish treaty has made the prospect of its ratification still more hopeless. While some of the opposition to the treaty in the Chamber was due to the protective spirit, Mr. Jackson S. Schultz expressed the sentiment of the majority when he said that it was not a sound measure of free trade.

How to Feed Cheap.

If the lawyers, doctors, clerks and business men who walk or drive a mile home to dinner every day, or the mechanics and laborers who eat a cold dinner on the bench in the shops and factories, knew they could get Hot Griddle Cakes and Maple Syrup for 10 cents, Tea or Coffee for 5 cents, Pork and Beans for 10 cents, Pie and Cake for 5 cents, in fact a first class lunch for a little money, they would discontinue their long walks and drives or cold dinners, and call at the Novelty Lunch Room, 23 Pearl street, about noon, or in fact any time in the day, and satisfy their appetites.
