PISO'S CURE FOR CONSUMPTION

INJURED IN THE HIP.

Joseph McLaughlin Thrown From His Buggy While Coming Home From Letcher.

Joseph McLaughlin suffered a very painful injury in the hip Monday evening by being thrown from his buggy while on his way home from Letcher.

He had been up there during the day to attend the races and started home about 8 o'clock. He was driving a single horse and had been on the road about an hour when the accident happened. Mr. McLaughlin said his horse was usually gentle, but would never permit another to go past him on the run, and this is what led up to the accident. He said that a loose horse came up from the rear on the run, and his horse hearing the approach of the other animal started to keep ahead. His horse swerved to one side and at that juncture he passed a telegraph pole that was standing very close to the road. The front wheel of the buggy struck the pole as the horse was going at a rapid gait. When the wheel struck the shafts broke loose from the buggy and Mr. McLaughlin was thrown forward, and over the dashboard, and he thinks he struck on the heels of the horse. The animal got away and took the shafts with him. Mr. McLaughlin said he struck on his hip and it gave him a terrible wrench, it being some time before he could move.

He managed to crawl back into the buggy and wrap himself in the robes and from 9 o'clock until nearly 6 o'clock Tuesday morning he kept up his lonely vigil, suffering considerable pain all night long. There was not a person who passed that way during the night and he had to wait until morning before he could secure assistance. Shortly after daylight a farmer came along that way and he went for Mr. Cox, who lived two miles distant. Mr. Cox brought Mr. McLaughlin to town and took him to his hotel. He was chilled through and it was several hours before it was possible to break up the chills. Dr. Crane was called to the hotel and fixed up his patient. Mr. McLaughlin said he was confident that his hip was thrown out of joint by the fall but he managed to get it back in place.

It was a very unfortunate accident and will likely lay him up for some time. A number of his friends called during the day to inquire after his condition. Mr. McLaughlin is getting along as well as possible under the circumstances.

PLAYED TO A STANDSTILL.

Honors Were Even Between Plankinton and Mitchell on the Base Ball Diamond.

There was not a very large crowd out at the base ball park Monday afternoon to see the game between Mitchell and Plankinton. The day was quite chilly and it was hard for the crowd to become enthusiastic. But six innings were played, and the game was called to allow Plankinton to go home on the passenger train.

Oscar Williams went in the box at first and Paul Williams was at the receiving end with the big mitt. Plankinton managed to land on Oscar's slants for enough safe hits, with the assistance of a few errors, to tie the score in the fifth inning. In the sixth Baker went in to pitch for Mitchell and he fooled the Plankinton fan with ease. Had the game been played out to the ninth Plankinton would doubtless have been at a standstill. Gardner and Mullen were in the points for Plankinton and they put up a good game, with very fair assistance from the field.

The high wind that blew during the afternoon put the fielders at a disadvantage and it was not an easy matter to judge a fly that was carried by the wind. Mitchell boys played a good strong game under the circumstances and after several more games they will be able to play together in a way that ought to receive the liberal support of the home people.

Inasmuch as Plankinton played the game to a tie there will doubtless be some anxiety to get in on another game. Plankinton ought to come back here for the next game and give the people a chance to get even on that short game they worked on us. The boys had better drive down next time and stay long enough to finish the game.

Notice for Bids.

Pursuant to Sec. 2, Chap. 10, of the Compiled school laws of 1901, notice is hereby given that sealed bids will be received by the secretary of the county board of education at Mitchell, S. D., from date of this notice till June 10, 1902, "for furnishing school books to the pupils of all public schools in the county as provided in this Act for a term of five years." O. W. Coursey, Chairman. H. B. Anderson, Secretary.

DON'T LIKE THE METHODS.

Howard Editor Opposed to Making a Sale of the Commander's Position of G. A. R.

Howard Spirit of Dakota: The contest for the position of commander, G. A. R. of this department has developed features as unique as they are deplorable. Early in the winter Ransom post, at Mitchell, by a resolution unanimously adopted, launched the candidacy of Comrade Blanchard, a member of that post. Later another post brought out Comrade Reed, of Arlington. Still later, a member of Ransom post has been traveling over the state "plugging" against the candidate of his own post. He called at this office and solicited the publication of a clipping from the Millbank Review, which pledged Comrade Reed, if elected, to pay the expense of a band to the national encampment, and, inferentially promising to "take care of" the comrades (whatever that may mean, who attend the national encampment. On assurance that if we printed the clipping, it would be coupled with our very plainly expressed disapproval of that sort of tactics, he concluded that we had better not print it.

Monday Comrade D. H. Brown, commander of Ransom Post, was in town and he gave us quite another version of the story. Dave Brown used to live up here, long enough so that when he makes a statement of fact, it "goes." Among other things he assures us that the "dissatisfaction" in Ransom post toward Blanchard has not gone beyond one man and that one, a man who was present and consenting when Blanchard was brought out. Also that the post has adopted a somewhat vigorous resolution denouncing the treachery.

The writer, although possibly entitled, as a past commander, to do so, will probably not attend the encampment or take part in the contest. Indeed, if honors are to be measured by the length of a comrade's purse, he has no desire to take part.

It is to be hoped that Comrade Reed has not authorized the appearance to cupidty which is being made in his name. Stripped of fine phrases, it amounts simply to an attempt to buy the position. Within the knowledge of this writer a candidate for the office of county assessor, who published a pledge to donate one half his salary to the county, if elected, was compelled by mandamus to withdraw the offer, the court holding that it was equivalent to an offer of a bribe. In the Grand Army of the Republic there is, theoretically, no such thing as rank or station. Honors are—theoretically—bestowed only in recognition of meritorious service—certainly least of all for the accident of wealth. Yet the only man who has solicited our support and the papers which have favored the candidacy of Comrade Reed, have offered the single inducement that he is a rich man and will give the boys a return in money for preference over Comrade Blanchard who is, it is alleged, too poor to fill the position properly. Theoretically the order was instituted, chiefly to help those needing assistance—not to snub a comrade for the crime of being poor. If it has outlived those principles, it has lived too long. But it has not. The attempt to boost a comrade up by the accident of money is very likely to add one more to the list of victims of their fool friends.

We have no wish to disparage Comrade Reed. We know him personally and have always regarded, and do regard, him as loyal, brave and true. We do not believe he is responsible for those most reprehensible tactics, but he certainly owes it to himself and the order to repudiate them, and to withdraw from the indelicate position in which mistaken zeal has placed him.

Sciatic Rheumatism Cured After Fourteen Years of Suffering.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am happy to say it has not since returned." Why not use this liniment and get well? It is for sale by L. O. Gale, Druggist.

WHAT BANKS ARE DOING.

Capital is Increased. Deposits are Larger and State Banks are Broadening Out.

The Aberdeen News has an interesting article concerning the business of the State Banks, which is based on the call that was made by Public Examiner LeClaire on April 18, and it shows these banks to be growing stronger in every class of the banking business. Concerning this feature of the financial interests in South Dakota the News has the following article, a portion of which is quoted from Public Examiner LeClaire:

Under the call of April 18th last the state and private banks made the following showing of liabilities: Capital stock paid in, \$2,503,070.20; surplus and undivided profits, \$599,682.30; earnings, \$674,137.34; deposits subject to check, \$9,185,291.42; certificates of deposit, \$7,107,128.90; rediscounts and bills payable, \$333,040.96.

The resources were shown as follows: Loans and discounts, \$11,770,263.66; county and municipal warrants, \$286,418.16; tax certificates, \$49,506.21; overdrafts, \$276,800.14; banking houses and fixtures, \$807,428.69; other real estate and property, \$628,525.21; expenses and taxes paid, \$229,235.34; money in banks, \$4,900,001.47; cash and cash items, \$1,594,066.24; total, \$20,402,351.12.

Commenting on these figures, Mr. LeClaire says: "While the number of banks has increased from 179 to 212, the capital stock has increased \$313,000, an average of \$9,000 to each bank. That the institutions are run on an economical basis is shown by the expense account and we find by examination of reports that the officers holding the larger shares of stock are keeping their own salaries down to a living basis merely, while we further notice that institutions having branches and employing outside talent are remunerating such employes in a fairly liberal manner. In this connection I am of the opinion that the banking business has increased in proportion to other branches and know of no points lacking proper facilities. That our banking houses are becoming more and better prepared to meet the demands of home customers is shown by the gratifying decrease in rediscounts and bills payable. With deposits aggregating \$16,200,000 we find only \$333,000 in 1900, when deposits were only \$8,500,000. The magnificent gain in deposits from \$8,600,000 in 1900 to \$16,200,000 in 1902 is something for which this state may well be proud. And the further fact that the cash reserve, as shown by money in banks and cash and cash items, of nearly \$6,500,000, or a small fraction more than 40 per cent of the deposits, is a further evidence that the days of wild-cat banking are gone, along with the 'bad man of the frontier.' Mr. LeClaire confines himself strictly to the state and private banks, the statistics as to national banks being entirely in the hands of General Geo. A. Silsby, national bank examiner.

State of Ohio, City of Toledo, Lucas county.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of one hundred dollars for each and every case of catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence this 6th day of December, A. D., 1896.

A. W. Gleason, Notary Public. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. F. J. Cheney & Co., Toledo, O.

Sold by druggists, 75c. Hall's Family Pills are the best.

No Loss of Time.

I have sold Chamberlain's Colic, Cholera and Diarrhoea remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning.—H. R. Phelps, Plymouth Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by L. O. Gale, Druggist.

For Sale.

A good well boring machine. Man will work with purchaser on first job and show him how to run it. Several jobs waiting for the machine. For particulars see F. W. Travis at the second hand store in the old Tobin feed and seed store on South Main street, Mitchell, S. D. We buy and sell second hand goods.

All the healing, balsamic virtues of the Norway pine are concentrated in Dr. Wood's Norway Pine Syrup, nature's own remedy for coughs and colds.

Geo. C. Hiecock, Curtiss, Wis., says: "Foley's Kidney Cure has been tested and found to be all you claim for it. I have given it to my father and it is the only thing that ever helped him." S. H. Scallin.

MALARIA An Invisible Enemy to Health

Means bad air, and whether it comes from the low lands and marshes of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same. These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indolent character appear, depleting the system, and threatening life itself. The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. S. possesses not only purifying but tonic properties, and the general health improves, and the appetite increases almost from the first dose. There is no Mercury, Potash, Arsenic or other mineral in S. S. S. It is strictly and entirely a vegetable remedy. Write us about your case, and our physicians will gladly help you by their advice to regain your health. Book on blood and skin diseases sent free.
