EDITORIAL PERSONALS.

The people of New Orleans expect to survive George W. Cable's criticism. —New York World.

The valued New York Sun has discovered that Senator-elect Peffer of Kansas has unambiguous and publicized his wish to see the American seal on every article that may be Colonel Dana is going to be true to his first love, Melville Fuller's mission to the United States.

The Rev. James Henderson Kyle, the Independent Senator from South Dakota, has written on the subject of the letter which is a mixture of good sense and impracticability. —N. Y. Sun.

If Blumark is made arbitrator in the Berlin case, it can only be hoped that the American seal will find a better friend in him than did the American hog. —Philadelphia Times.

Senator-elect Felton of California is a good man, whose vote will always be cast in such a way as to keep the Democrats in mourning for the late Senator Hearst. —St. Louis Globe-Democrat.

The result of the Senatorial contest in California seems to be giving general satisfaction. The construction members of the Legislature were divided in their first choice, but now that ex-Congressman Felton has secured the prize there seems to be no disposition to indulge in any post-mortem factionalism. Mr. Felton was fairly, and it is conceded that he will make a good Senator. —Chicago News.

Secretary Blaine is not pushing himself as a candidate for President, and he does not need to do so. The people will take care of that matter. Thomas C. Power of Montana exhibits rare nerve in an interview with a New York reporter in which he expresses the belief that the time has not come for free college for all. Mr. Power is right in his opinion, but when the Anconia miners read his interview there will be a crashing of teeth which will grate uncomfortably upon the Senator's ears. —Omaha Bee.

The announcement that Secretary of War Proctor is about to resign will not cause profound regret in Western military circles.
