French Consul Touchy.

CHICAGO, Sept. 22.—On account of the feeling which has been aroused by the Dreyfus verdict, Henri Merou, French consul in Chicago, has withdrawn the appointment of a president for the French part of the all nations' parade, which is to be a feature of the fall festival here next month. Mr. Merou said he could not with proper respect for his country, do anything which would give an opportunity for insults to be offered to the French flag and for that reason the appointment was withdrawn.

Highlander's Accept.

TORONTO, Sept. 22.—The question of the visit of the Forty-eighth Highlander to New York to participate in the Dewey celebration was finally settled tonight when Lieut. Colonel Crosby brought the matter before the men and officers of the regiment. All were anxious to make the trip and it was unanimously decided to accept the invitation.

DULUTH

The open air mass meeting for the benefit of the Idaho miners, advertised for Thursday evening to be held back of the Palladio building, did not take place. The evening was too cool for persons to remain standing long in the open air.

Floam, Leveros & Co. opened their handsome new store at 225-227 West Superior street, last Friday evening. A large crowd was present the entire evening. Floam, Leveros & Co. are business men well known in the Northwest, and the firm has made a good impression in our city and indications point to a prosperous business.

Manager Swenson is thoroughly fitted to cater to the needs of the people in the men's and boys' clothing line.

Mr. Abramson of the famous Hilo clothing store, has returned from the East, where he has been purchasing his fall stock of goods. The clerks have been busy the past week getting the elegant new stock into shape for the large fall trade. The large show window is handsomely fitted up and decorated, and what is more important to the union trade of Duluth, every article in the window bears the union label.

Everything that a man wants or needs in the way of fall and winter clothing can be purchased at The Hub, 107 West Superior street, bearing the union label.

A meeting of the committee composed of representatives from the Trades and Labor assembly, Young Peoples' Christian union, Y. M. C. A. and the Scandinavian Temperance union, which are taking preliminary steps toward an anti-Sunday labor movement met Monday night in the Y. M. C. A. hall. A mass meeting will be held at the First Methodist church next Sunday afternoon at 3 o'clock, at which Rev. Alex. Milne will preside.

Addresses will be delivered by B. Silberstein, Edward Kriz, Mayor Truesden, President McMurry of the Trades assembly and Rev. Dr. A. W. Ryan. The latter will discuss the right of every man to a weekly rest-day.

I. Freimuth, one of the oldest established and most influential merchants of Duluth, has leased the Fowler building for a period of 10 years from January 1, 1900. This launching out on such an immense scale shows the faith Mr. Freimuth has in the future greatness of our city. The new quarters will be the finest in the Northwest.

The building at present occupied by Mr. Freimuth's store, contains three floors and the aggregate of floor space is 13,800 square feet. The new store will have three floors, one on West Michigan street, and two above the level of Superior street, and the aggregate floor space will be 34,800 square feet, or two and a half times the size of the present store space. The importance of Mr. Freimuth's move will be appreciated by these figures.

The Freimuth store in the Fowler building will be a regular department store and will be the most complete store of this kind in the Northwest. Important departments not represented in the present store will be represented in the new. Among these are crockery and hardware. The crockery and hardware departments will be situated in the Michigan street front. It is believed that Mr. Freimuth's removal to the new location will have a very important bearing on the business future of the lower side of Superior street for some distance in both directions and on Lake Avenue North and South.

The new store has the advantage of location at the junction of two lines of street railway.

The store will be modern, attractive and big. It will be provided with handsome fixtures and will be a representative mercantile establishment of the Northwest in every respect.

Wanted—Several Bright and Honest Persons to represent us as managers in this and close by countries. Salary \$300 a year and expenses. Straight, bona-fide, no more, no less salary. Position permanent. Our references, any bank in any town. It is mainly office work conducted at home. Reference. Enclose self-addressed stamped envelope. The Dominion Company, Dept. 3, Chicago.

LEAGUE OF MUNICIPALITIES.

Convention at Syracuse Winds Up Its Session.

SYRACUSE, Sept. 22.—The third annual convention of the league of American municipalities finished its work and adjourned today. The program of the convention was not fully carried out, owing to the unusual length of papers on the municipal question and other topics listed for discussion. Mayor McGuire of Syracuse, made a farewell speech, in which he referred to the selection of Charleston for the next convention as being most appropriate. He said that the meeting of the young West with the representatives of the old South at the dawn of the new century would add weight to the ring of patriotic loyalty that has forged a new stars and stripes by the North and South, East and West in the late war. Professor Edward W. Bemis, of the Bureau of Economic research, New York, concluding his address of yesterday on municipal ownership said: "The two great arguments against municipal ownership are the dangers of good systems and of progressive unevenness."

"A large extension of municipal ownership and operation for the purchase of existing plants with the cost of duplication, and for as much more as fairness and justice in each case, seems to require will do much to develop the civic patriotism among all classes, of which our country stands in need."

Everett Hill, New York city, of the staff of the late Colonel George E. Waring, discussed sewerage disposal problems dwelling upon the technical and scientific aspects of the question arriving at the conclusion that in spite of the complexity of the problems to be solved and the bewildering variety of the schemes offered as solutions, it was clearly established that any community could purify all its waste upon its own premises without recourse to an unsatisfactory position as far as its sanitary obligations to other communities were concerned. He pointed out the methods of broad irrigation intermittent

OBSERVANCE AND MAYOR. TRADES ASSEMBLY ON SUNDAY

Some Think It is Not Fair That Mayor or Should Not Be Allowed to Speak at the Meetings—Members Don't Like Idea of Meeting on Temperance Plan—Kriz Honors Mayor Truesden.

The Sunday observance mass meeting to be held at the First Methodist church tomorrow afternoon was the subject of a good deal of discussion at the meeting of the Federated Trades assembly at the armory last night.

The matter came up for a general talk and there were all kinds of roasts. The meeting was censured and the mayor was roasted.

The action of the committee in not having the mayor speak at the meeting came in for a good deal of discussion. The members, to a certain extent, did not like the idea of not having the mayor speak. They said that if it was true, as asserted, that the committee does not desire the mayor to speak because he is letting the saloons run on Sunday, it looked very much like a temperance society meeting.

Mayor Truesden was touched up a little, too. Edward Kriz said that he did not blame the committee for not having the mayor speak on the anti-Sunday labor question. He said it would not be a good thing for organized labor if the mayor did speak, for the reason that he did his best to break up the street car strike last spring and will probably do the same for other strikes or labor movements that may be started. The assembly decided to go ahead with plans for the meeting and left the matter in the hands of the committee.

The matter of taking up a collection for the miners in Idaho was left to a committee. It is proposed to have a collection taken at the meeting tomorrow instead of having a mass meeting.

The voting contest for a membership in the Modern Socialists will be started in the near future. It was decided to issue tickets at 5 cents each and that the contests shall close on Thanksgiving eve. At that time the assembly will have a ball and an announcer, 25¢ a meter of the contest on the night of the ball.

Edward Kriz was elected treasurer in place of J. W. Richardson, resigned, and J. Pierce was elected as a member of the board of trustees, in place of Delegate Thompson, who also resigned.

The committee appointed to look up the matter of a sidewalk viaduct over Tenth avenue West reported that the city council has the matter before it now and the council committee was instructed to push the matter of having the viaduct built.

ROASTED BY RAMSDALL.

Regards Massachusetts Democratic Convention as a Disgrace.

LYNN, Mass., Sept. 22.—Former Mayor Ramsdall of this city, nominated for state auditor by the Democratic convention Thursday last in Boston, has declined to be a candidate. This afternoon he sent a letter to Hon. W. S. McNary, secretary of the Democratic state committee, in which he says that had the opportunity been given him he would have declined the nomination in the convention. He further says he regards the recent convention as a disgrace and says that to the minds of many the purpose of building up a powerful organization for the party's sake has been subordinated to the purpose of erecting a political machine for George Fred Williams.

WASHINGTON, Sept. 22.—Senator Burrows, of Michigan, called on the president today and invited him to visit Kalamazoo on his return trip from the West. The president, however, had made engagements which rendered it impossible for him to accept the invitation.

SCENE IN A PORTUGAL WINERY,

In the mountains, at the Quinto do Sexio, Portugal, a famous Port Wine district where the custom of treading the grapes for Port Wine is still in vogue. From ten to a dozen men or women for each gang in turn continue the treading, day and night, during the four or five weeks vintage. Some of the treading vats are large enough for three separate rows of ten men each, who with their white breeches well tucked up, their arms on each other's shoulders, raise and tread their feet alternately, with song and shouts to keep the lazier ones up to the work, and a band with string instruments enlivens the hours.

Speer, of New Jersey, Uses Rollers instead of Feet.

It is from this district the vines were imported over forty years ago that now fill the vineyards of the Speer Wine Co., at Passaic.

At Passaic the same kind of grapes are crushed between large rollers of rubber, revolved by steam. This is the only place in this country where the real genuine Port Wine is made from the Oporto grape—and they are grown right in SPEER'S VINEYARDS.

These vineyards extend over 1/2 of a mile along one of the Main avenues of Passaic, and comprise fifty six acres. The soil being rich in iron makes the wine most valuable for Medical use.

SPEER'S WINES

Are well known to be of the highest character, the oldest and most refined wines in America, equal if not superior to any wines in the world. They consist of Port, Sherry, Burgundy, Claret, Sauterne Wines, and ★★ Climax Brandy. Mr. Speer has some Wine in his cellars that he made over thirty eight years ago. All of Speer's Wines and Brandy are very old, rich, well rounded, soft and delicate. Every family should have a bottle or two of each variety of Speer's Wines and Brandy always in the home, for sickness or family use.
