WILL FEAST BANKERS AT THE SPALDING

Duluth bankers are making preparations to entertain the North Dakota Bankers' association at breakfast at the Commercial club Sunday morning, when the visitors will arrive en route for an outing at Isle Royale.

W. C. McFadden, of Fargo, secretary of the association, will probably notify the local committee as to the number of guests today that arrangements may be made for driving the visitors about the city until 10 o'clock, when they will embark on the steamer America for the island and a cruise of two days along the north shore of the lake. The party will leave Grand Forks at the close of the annual convention Saturday evening and will arrive in the city at 7:30 o'clock Sunday morning. They will return to the city at 9 o'clock Tuesday morning on the return trip, when the local bankers will provide entertainment for the few hours before boarding the train for home. Fifty or more guests are expected.

MURDERERS MAY GO TO PRISON SOON

Frank Lenich and Frank Loujer, who were recently sentenced by Judge Ensign in district court to 10 years in the state penitentiary for fatally stabbing Peter Kracovitch, a fellow miner, at Eveleth, April 23, will probably be transported to the prison within a few days as the record of the case which has delayed the execution of the sentence is about completed. The prisoners, who are confined in the same cell in the county jail, are apparently resigned to their fate, as they have nothing to say concerning the case. As they are only 22 years of age, it is possible for them to be liberated at the age of 29 as good conduct will commute their sentence to seven years.

HEAVY RAIN HINDERS MINERS AT VIRGINIA

VIRGINIA, July 5.—The open pit mines in this section have been hindered to a small degree by the heavy rains of the last few days, but all are again working as usual.

At the Onliver, Lone Jack and Ohio mines of the Oliver company one shovel is being worked in ore and about 70,000 tons per month is being forwarded to docks.

At the Higgins, another open pit proposition under the same management, Nels O. Werner, assignee of the Richards-Lundeen company, runs one shovel on stripping and has his contract nearly complete, while the mining company runs one shovel in ore.

The Columbia, a small property of the Jones & Laughlin company, ships a small stockpile mined two years ago, but no new work is being done at the mine this season. At this mine the large engine house was burned at an early hour Sunday morning, the fire being unquestionably of incendiary origin.

The Lincoln, Commodore and Franklin mines are all working fullbanded and better than one thousand men are employed in the local properties. These three latter mines, employing approximately 750 men, will doubtless work throughout the winter, stockpiling and developing.

PLEADS NOT GUILTY TO SERIOUS CHARGE

TWO HARBORS, July 5.—Robert Dennis, charged with assault on the six year old daughter of C. O. Carlson, was brought up before Justice W. S. Andrews this morning for the purpose of a preliminary hearing. He pleaded "not guilty," and as he was not ready for trial, the case was adjourned to Monday, July 10.

Public Spirited Citizens Pool Their Fire Works and Have Real Good Time.

Duluth Heights had a regular old fashioned Fourth of July. It was gotten up informally, but proved to be the best ever had. J. H. M. Parker and C. A. Marshall brought out their stereopticon views and exhibited 150 of the best pictures they had. All of the neighbors pooled their fireworks and made good illumination effects were had. Messrs. Pennell and McEwen took charge of the fire works and occasionally a small boy was made glad when he was permitted to shoot off a harmless roman candle. It was a gala day for Young America on the Heights.

Palmetto street opposite the church was the scene of the celebration and fully 250 people took part in it. Messrs. Marshall and Parker exhibited several patriotic pictures and the young fellows did not fail to appreciate them in true American style by shouting and applauding to their heart's content. The celebration closed with the singing of America.

ORE SHIPMENTS NEAR FIVE MILLION TONS

CLEVELAND, July 5.—Ore shipments for June were 4,945,000 tons, or 556 tons short of the five million ton mark, making the movement up to July 1, 10,814,054 tons. There is a big fleet of ore carriers at this end of the route and in some instances boats are bunched, but as a rule they will get fair dispatch. Heavy rains have flooded a number of open pit mines on the Masaba range and there will be some delay in getting loaded.

The freight market is quiet and steady with no signs of change.

CIRCUS LOSES MANY FRIENDS IN DULUTH

Inhuman Treatment of Employees During Monday's Parade Resented Here.

Superior People Also Are Indignant Over Abuses Handled Them by Showmen.

The Forepaugh-Sells circus showed in Duluth and Superior this week. It was a fairly good exhibition. Its management, however, was about as poor as has been seen in the show business in this vicinity. The press agent for the circus gave a four column interview in Sunday morning's News Tribune about the remarkable organization in the Forepaugh-Sells shows. The story was well written and attracted the attention of a large number of people, but when the grounds were visited and the hap hazard way in which things seemed to be run were observed, the consensus of opinion was that there was lack of proper management somewhere.

Not only did there appear to be lack of good management, but there actually was a terrible exhibition of inhumanity. On Monday morning while the rain was at its worst,—and by the way it was the coldest and most piercing rain storm seen in Duluth for several years,—the management of the circus insisted that the street parade should go on.

The best actors, those who command the highest salaries, positively refused to take part in the parade, but the cheaper kind who are obliged to take everything that is handed to them, were obliged to turn out under penalty of a heavy fine and loss of their positions. It was a sad and sickly spectacle to witness. Women on horseback were drenched with water and shivering with cold. Men who are experienced in suffering hardships, ground their teeth bitterly under the severe strain. Some of them called boys from the streets and handed them money to bring them bottles of liquor, so that they might stimulate their chilled bodies. Some of the musicians stood it out until the parade passed the Manhattan Building. They then left their wagons and positively refused to play another tune in such weather. The people on the streets were strong in their denunciation of the management for compelling their people to parade under such circumstances. It would have been a hardship for a Duluth native, who is accustomed to a cold Lake Superior rain, to have faced the weather of last Monday.

So bitter did the people on the streets express themselves about the management of the Forepaugh-Sells, Shows

All shops were closed today and it is said that the fight will not open in earnest until next week. By that time, according to the plans of the employers which have become known to the union agents, the employers hope to have imported enough strike breakers to make a showing in some of the larger shops.

Let Big Houses Fight. A number of the smaller firms will keep their office and furniture fixture departments closed down entirely until the strike ends and leave the brunt of the fighting to such houses as Brunswick-Balke-Collender Company and Merle & Heaney.

In a public statement issued by the executive committee of the Manufacturers' Association the reason for refusing the wage demand is declared to be due to competition in outside cities where the wage scale for woodworkers range from 70 to 20 per cent less than in Chicago, and where the open shop is recognized.

No Sympathetic Strike. Woodworkers in the planing mills and the sash, door and blind factories are not involved in this strike and it is said that a general sympathetic strike has not been considered.

The strike is being conducted by the board of business agents for the union and its members are guarding their actions from the public and the manufacturers. The latter, it is reported, have sent out agents to discover the plans of the business agents before the close of this week. The only definite announcement from the union is that enough money is on hand to make a good fight.

Manufacturing Woodworkers Threaten to Break Chicago Strike with Breakers.

Join Employers' Association and Will Ask Support of Labor Opponents.

Chicago, Ill., July 5.—The Manufacturing Woodworkers' Association has made public its first step against the Amalgamated Woodworkers' Union by affiliating with the Chicago Employers' Association. Through this affiliation, it is said, plans have been laid to secure strike breakers to replace the 2,300 union woodworkers who have walked out in an effort to secure an increase of 2 cents an hour in wages.

All shops were closed today and it is said that the fight will not open in earnest until next week. By that time, according to the plans of the employers which have become known to the union agents, the employers hope to have imported enough strike breakers to make a showing in some of the larger shops.

A WOMAN'S LOVE.

BY JOHN HAY.

A sentinel angel, sitting high in glory,
Heard this shrill wail ringing out from
Purgatory:
"Have mercy mighty angel, hear my
story!"

"I loved—and, blind with passionate love,
I fell,
Love brought me down to death,—and
death to Hell;
For God is just, and death for sin is
well."

"I do not rage against his high decree,
Nor for myself do ask that grace shall
be;
But for my love on earth, who mourns
for me."

"Great Spirit! let me see my love again
And comfort him one hour, and I were
fain
To pay a thousand years of fire and
pain."

Then said the pitying angel, "Nay, re-
pent
That wild vow! Look, the dial-fingers
bent
Down to the last hour of thy punish-
ment!"

But still she wailed, "I pray thee, let
me go!
I cannot rise to peace and leave him so:
O let me soothe him in his bitter woe!"

The brazen gates ground sullenly ajar,
And upward, joyous, like a rising star,
She rose and vanished in the ether far.

But soon adown the dying sunset sailing,
And like a wounded bird her pinions
trailing,
She fluttered back, with broken-hearted
wailing.

She sobbed, "I found him by the sum-
mer sea
Reclined, his head upon a maiden's knee
She curled his hair, and kissed him. Woe
is me!"

She wept, "Now let my punishment be-
gin!
I have been fond and foolish. Let me in
To expiate my sorrow and my sin!"

The angel answered, "Nay, sad soul, go
higher!
To be deceived in your true heart's de-
sire
Was bitterer than a thousand years of
fire!"
