M. A. HANNA COAL CO. TO LOCATE IN DULUTH

It will indeed be pleasing to the citizens of Duluth to know that the M. A. Hanna Coal company is to open an office in this city about March 1st.

Mr. W. W. Andridge, manager for the Ohio Coal company for several years will be the local representative for the Hanna company.

As is well known to every student of labor conditions, the M. A. Hanna company is not a member of the coal trust. This fact alone makes their introduction into Duluth all the more inducing. The people will surely extend a hearty welcome to the new firm.

Mr. Andridge is well known to most coal buyers, and it is safely assured that his company will receive a liberal patronage from the beginning.

This company is regarded as one of the most liberal and progressive in the country, and is easily a leader in its business. It is an independent company, not connected with any of the great mining companies, and by its fair treatment of all with whom it has business dealings, has built up a business and a standing second to none in the country. Its founder, the late Marcus A. Hanna, was regarded as one of the most staple and reliable business men in the nation. As a friend of labor he had no equal in the business world.

These cigars have reached a phenomenal sale, and the demand for them is constantly increasing, as there is no smoke which gives such universal satisfaction. ACME STEAM LAUNDRY IS IN GOD REPUTE

"Cleanliness is next to Godliness," is an old saw which contains a large amount of sense for a foundation, and it is certain that nothing is more conducive to health and comfort than cleanliness. And nothing adds more to one's personal appearance than neatly laundered linen. The man with a spotless shirt and collar and neatly blackened shoes has an appearance of being dressed up which can not be attained by the person who is careless in regard to his linen, no matter how excellent his apparel. And in these days of modern laundering, there is little excuse for any person not being neat and clean in their personal appearance.

This laundry is equipped with the most modern and improved machinery, and there is no danger of the tearing and spoiling of clothes which is so often the case where less care is taken. The most skillful and experienced help is employed, to whom is extended the fairest treatment, and every employee is working to maintain the excellence of the work turned out, so the patron is sure to receive the best that skill, care and cleanliness can produce.

Mr. Armstrong, the proprietor, is an enterprising and progressive gentleman, who believes in giving the customers the benefit of any improvement which may be made in his line of business and in making the changes as inveterate as is commensurable with conservative business methods. They turn out work with the utmost dispatch, and will be glad to call for and deliver orders and telephone calls will receive careful and immediate attention.

The Acme Steam laundry has won its place at the head of the laundries of the city by the fairest methods, and we trust they may continue to prosper and grow.
