DR. A. GRAHAM TALKS ON CAUSE OF DISEASE

Says Deficiency of Nerve Force is Responsible for Most Human Suffering.

What Chiropractic Treatment Will Do in Aiding Nature To Remove Disease.

No part of the body can perform its duties without that intelligence which is instilled into it through the nerves by the life giving forces of nature. Whenever this life-giving nervous force is shut off, a disturbance of nature is bound to occur, which is called disease.

The nervous system consists of the brain and spinal cord, called the central nervous system; the spinal cord gives off thirty-one pairs of nerves, each controlling some function of the body.

The spinal cord is inclosed in a case (the backbone) composed of movable bones called vertebrae, the nerves branch from the cord through openings between the vertebrae. Twisting, wrenching or straining the back very often displaces the vertebrae causing pressure on the spinal cord and its branches, such pressure produces abnormal function, which is termed disease.

Nature's efforts are hindered from working aright by the pressure on the nerves and until the pressure is removed a diseased condition continues. Take off the pressure and nature will work along the lines of health. Chiropractic matments removes the pressure and equalizes the circulation giving the nerves a chance to perform their functions properly.

Chiropractic works in harmony with nature, it seldom fails and never does harm, if this could be said about drugs and surgery, a Chiropractor could not make a living in the practice of his profession; it is a well known fact that the Chiropractic doctor gets only chronic patients who have tried almost every other known remedy and means of cure. When you see thousands of indisputable evidence of cures after the best efforts of physicians proved fruitless, you have to believe in Chiropractic. You cannot consider your case among the incurable, if you have not tried Chiropractic. Prove all things and hold fast that which is good. Chiropractic is good therefore you should try it. Consultation and examination free.

Yours for success, Dr. A. Graham, Chiropractor, 300 Burrows Bldg., Duluth, Minn.

GOOD SUGGESTION.

Never think yourself too wise to listen to advice or suggestions. Don't get puffed up and think that your ways and ideas are the only ones that can bring success in the labor movement. And above all things don't imitate the school boy and say you won't play because yours opinions are not given preference over all others. Such conduct might leave the impression that you are not sincere, or that you care more about yourself, the recognition of your opinions and the adoption of your ideas, than you do about the success of your organization or the labor movement.—Potters Herald.

DID YOU EVER THINK?

Mr. Workingman, do you ever stop to think of the tremendous amount of energy now controlled and at the service of the human family? Think for a moment of the human power, the horse power, the steam power and the electric power at present connected and working together and in conjunction with all the marvelous machines that are in existence. Yet in spite of all this control of untold power and energy instead of making men freer and happier, it is enabling a small group of men, known as capitalists, to maintain the most repulsive form of slavery that has ever enslaved 2,000,000 little children in the factories and mills of this country; it has condemned 3,000,000 women to hopeless toil, and created an army of a million able-bodied tramps. Consider, Mr. Workingman, what a paradise this world could be made if all this controlled power and energy could be used for the advancement of all.

THIS PECULIAR WORLD.

This is a peculiar world. One is struggling for justice and another is feeling from it. One man is saving to build a house and another is trying to sell his for less than cost to get rid of it. One man is spending all the money he can make in taking a girl to the theater and sending her flowers, with the hope of making her his wife, while his neighbor is spending what gold he has in getting a divorce. One man escapes all the diseases that flesh is heir to and gets killed on a railroad. Another escapes with a scratch and dies with the whooping cough. One man stands off his creditors and goes traveling while another pays his debts and stays at home.

LOCAL LABOR NOTES.

PRESIDENT CUMMINGS GOES TO KNIFE RIVER

R. W. Cummings, president of the local Blacksmiths' Union, No. 498, has accepted a position with the Alger-Smith Company, at Knife River. Mr. Cummings has been one of the principal boosters for the union in this locality, and it is hoped that he will be able to keep in close touch with the "boys," even if he is somewhat removed from them. Mr. Cummings was formerly employed in the shops of the Duluth Missabe and Northern railway.

TWO GOOD MEN ELECTED BY ELECTRICAL WORKERS

The Electrical Workers' Union elected two good men to represent it at the annual convention of the Minnesota State Federation of Labor in St. Cloud in June. They are Frank Fisher and George Schuler. Both members are well known to the trade unionists of the city. Mr. Fisher is an outside man employed by the Duluth-Edison Electric company, while Mr. Schuler is a prominent inside worker.

FREIGHT HANDLERS' UNION HOLDS ANNUAL ELECTION

The Freight Handlers' Union held its annual election of officers Wednesday evening at the Kalamazoo building. It was the first meeting of the season, and considerable interest was manifested in the ballots. The following were elected: President, William Mahoney; vice president, Louis By; financial secretary, George McGuffin; recording secretary, John Maxwell; treasurer, Nels Nelson; marshal, David Wright; delegates to the Trades

ASSEMBLY, Wm. Mahoney, Thos. Wiley and George Hewly elected officers and are well known freight handlers. The financial secretary, Mr. McGuffin was not present as he is out of the city, but the union has implicit confidence in him, and it lost no time in re-electing him to office, even if he was absent. John Maxwell is one of the old stand by's, and he was re-elected recording secretary without opposition. Big Dave Wright will continue to act as marshal, and was elected to the member who attempts to violate the rules of the union.

ELECTRICAL WORKER SEND FOR NATIONAL OFFICER

Jas. P. Noonan, second vice president of the International Brotherhood of Electrical Workers, is in the city and is endeavoring to bring about an adjustment of differences between the inside electrical workers and the local contractors. Several conferences have been held, and last evening the local held a meeting to discuss the situation in full.

EVERYBODY HOPES THAT THE SCALE SUBMITTED BY THE UNION WILL BE GRACEFULLY ACCEPTED BY THE EMPLOYERS, AS THIS SEASON OUGHT TO BE INITIATED WITHOUT A STRIKE IN ANY OF THE BUILDING TRADES.

In fact it was supposed, until this week that the demands of the union would be acceded to without a strike, and it is not too late yet to head off such an unpleasant ordeal.

MR. NOONAN, AFTER FINISHING HIS WORK IN DULUTH WILL VISIT THE TWIN CITIES WHERE HE EXPECTS TO ADJUST SOME DIFFERENCES EXISTING BETWEEN THE UNIONS AND THE EMPLOYERS. HIS HOME IS IN ST. LOUIS, BUT HE IS SELDOM THERE, AS HE IS OBLIGED TO COVER MOST OF THE CENTRAL STATES IN THE INTEREST OF THE ELECTRICAL WORKERS.

W. H. VERNON IS CALLED TO MOTHER'S BEDSIDE

W. H. Vernon, former business agent of the Painters' Union, received a telegram yesterday from Saginaw, announcing the critical illness of his mother who is 80 years of age. Mr. Vernon left on the South Shore Wednesday evening.

A HOLLOW PRETENCE.

We are told that it is because of protection that wages are so high and the country is so prosperous. The pretence is as hollow as the air, insulating as the presence of the slave-owners that slavery was for the protection of the slave. Special privilege needs protection, and monopoly needs protection, and all legalized systems of robbery that enable men who do no labor to grow rich by appropriating the earnings of those who do labor, need protection.

A SCENE FROM LIFE'S DRAMA

It was Sunday. The train stopped at a station. They got on—a woman and a little boy. The woman was a foreigner. She wore a cheap blue calico dress and a soiled apron, had a handkerchief tied around her head. She was ugly and fat. She carried a small-sized trunk tied with a rope, in one hand; with the other she grasped the little boy as if afraid to lose him. He wore a cheap cotton suit, a little cap on his head and heavy-soled shoes on his feet. His face was red and shining. The brakeman hustled them through the aisle of the day coach to the smoker ahead. The passengers laughed at the odd sight, and several passed funny remarks. Some hours

after the train stopped at a lonely coal mine station. Only the woman and the little boy got off. They were met by a poor Slav coal miner, in his working clothes. He kissed the woman and grabbed the little boy and hugged him with tears in his eyes. God! he was happy—they had come at last!
