WAS CATCHING FISH UNLAWFULLY

For catching fish unlawfully, Isaac Markin will spend the next thirty days in the St. Louis county jail. He was brought down from Eoyal

Tuesday morning at the instance of one of the range game wardens, who caught him fishing in Long Lake with a net, without a special permit from the state.

There is much unlawful hunting and fishing going on throughout the state, according to those who live in the woods, and the deputies have strict orders to arrest persons against whom any evidence can be secured.

CAR REPAIRER KILLED WHEN TRAIN STARTS

Workmen Tried to Crawl Off Track is Caught by Wheels, Cutting Off His Head.

Adam Morrow, a car repairer, boarding at 1814 W. Superior street, was instantly decapitated by a gravel train on which he was working Monday afternoon in the Northern Pacific gravel pit two miles west of Carlton.

Newton Ensign, who was working with Morrow, was badly bruised and had a rib broken.

The two men had gone under the train to make repairs, were caught when the train started and tried to crawl out.

It is said that the repairers did not set the customary signal, notifying the crew of the train that there was repair work going on under the cars.

Ensign, who boarded at Proctor, is at a hospital in Brainerd.

Morrow was unmarried and has no known relatives in the city.

FOUR HUNDRED EGG INSPECTORS ON STRIKE

CHICAGO, June 3.—Four hundred egg inspectors in this city went on a strike to obtain Saturday half holidays. Should the strike be of long duration, commission men say it will be necessary to have the eggs inspected by the shippers and then brought in by express in order to be assured of the fresh article. This would mean higher prices.

LUMBER WORKERS STRIKE AND MILL CLOSES DOWN

M'CLLOUD, Cal., June 3.—Six hundred Italian lumber workers went on strike Monday and 400 of them boarded a small train for Partle, 26 miles east to force out loggers still at work in the woods. All the strikers paid fare.

In McCloud not a wheel is turning and the saw mills, planing mill, box factory and machine shops are silent.

Sheriff Howard has sworn in fifty deputies to guard against fires and prevent violence.

PRELIMINARY DRAFT OF NEW TREATY IS SIGNED

SARACAS, June 2.—As a result of the mission of Vasquez Cobo, the newly appointed Colombian minister to Venezuela, who has been engaged for the past two weeks in negotiations with the Venezuelan government for the settlement of disputes of long standing between the two countries, the preliminary draft of a new treaty was signed today, bearing upon navigation frontiers and commercial relations.

The treaty provides for the cessation of Venezuelan territory on the Orinoco in Ordis and Rio Negro rivers.

Diplomatic relations have been renewed and Senor Cobo will be received by President Gomez on Saturday, at

No star has made a more extensive trip this season than that which Madame Nazimova started at Washington in September and will end at Minneapolis in late June. For two years Nazimova remained in New York and on her first road tour this year there were many demands for contracts for her appearance. She has played already as far west as Omaha, returned east and appeared in Toronto, then south as far as Jacksonville, Fla., then into Georgia, Tennessee, Arkansas and Texas, and will make the long jump from Dallas to Denver and start on a coast tour that will include San Francisco, Seattle and Spokane. Her engagements have been limited in consequence of the demand for her appearance and her visit here will be confined to a much less time than the management of the theatre wished for.

PHILADELPHIA, June 3.—Strike-breakers and motor men from other cities were put to work in an effort to break the strike of the motor men and conductors of the street car lines of this city. Notwithstanding these importations not a car left any of the bams after 8 o'clock tonight and at 10 o'clock the last car had been taken off for the night.

Incensed at the bringing of the strike breakers here, sympathizers of the striking street car men made demonstrations at the bams where the new men are quartered, and many arrests were made. Most of the prisoners were charged with nothing more serious than calling the motormen and conductors names.

MRS. LEE MAKES HER FIRST REPORT

Tuberculosis Nurse is Kept Very Busy Attending to Hygienic Matters.

Mrs. Florence Lee, who began her work as a visiting nurse for the local branch of the Anti-Tuberculosis society on May 1, made her first report to the city health department, covering the month of May.

Mrs. Lee is now making visits to thirty-four consumptive individuals, the members of thirty-four families, and is doing what she can to cure the cases, and prevent a further spread of the disease.

During the month she made seventy-eight visits to homes in this city, and thirty of these were particularly in the interests of the campaign to prevent a spread of tuberculosis. Forty-two individuals were given instruction in matters of hygiene.

The nurse reports that fourteen physicians of this city are co-operating with her in her work. Altogether, it is considered that she has made very satisfactory progress during the first four weeks of her stay in Duluth.

ENGINEERS SAY CLAIM OF OWNERS IS EXAGGERATED

President Yates of the Marine Engineers' Beneficial association, has issued a statement relative to the list of vessels given out by the Lake Carriers' association as in operation, in which he claims that the lists issued on the 11th and 18th inst are very misleading in that several of the boats named were repeated in order to swell the number. He also says that in some cases one crew is operating two vessels. An instance in this respect, he says, is that of the Arthur Orr and the Ottawa. The crew, according to Mr. Yates, will take one steamer from Milwaukee to Owen Sound, transfer the engineers to the other and make the return voyage, leaving the first boat at Owen Sound. They claim that instead of over 200 boats in commission, there are really but 162 carrying non-union or contract engineers.

BOSSSES ARE TRYING TO BREAK STRIKE

Despite Efforts of Company Philadelphia Traction Service is Crippled.

PHILADELPHIA, June 3.—Strike-breakers and motor men from other cities were put to work in an effort to break the strike of the motor men and conductors of the street car lines of this city. Notwithstanding these importations not a car left any of the bams after 8 o'clock tonight and at 10 o'clock the last car had been taken off for the night.

Incensed at the bringing of the strike breakers here, sympathizers of the striking street car men made demonstrations at the bams where the new men are quartered, and many arrests were made. Most of the prisoners were charged with nothing more serious than calling the motormen and conductors names.

One of the chief demonstrations was made at one of the West Philadelphia bams where the strike breakers under heavy police guard began taking out cars. A squad of mounted police had to charge the crowd repeatedly before it dispersed. Finally the cars were started, but most of them ran almost empty the entire length of the route while spectators on the sidewalks made scoffing remarks.

Mayor Reyburn state today that he would swear in 10,000 extra policemen, if necessary, and keep the cars running for the convenience of the public. The public will be accommodated, the mayor said, if the city has to take over the transit company's lines and run them with the firemen, the police and the extra police.

At a meeting of the strikers, John J. Murphy, president of the Central Labor union, pledged the support of the Central Labor union to the trolley men. "If the Rapid Transit company don't come to time soon," he said, "there will be a general strike declared."

Other Ready to Join.

"Elevated and subway men, as well as the power house men, are about ready to join us, and as for my own union, the metal workers, I can say that if they don't get in line, I will let the lights go out."

A crowd of strike sympathizers attacked Leslie Snow, a motorman, tonight. Snow drew a revolver and fired five bullets into the crowd. No one was seriously hurt. The police rescued the motorman in time to save him from serious injury.

Sailors were again closed at 6 o'clock tonight and will remain closed until 6 o'clock tomorrow morning. The mayor states that this precautionary step will be taken every night until there is absolutely no probability of rioting.

STRIKE WHICH INVOLVES ONE THOUSAND EMPLOYEES

Silk Workers in Mills at Paterson, N. Y., Demand An Increased Wage.

PATERSON, N. J., June 3.—Declaring that the Henry Doherty Silk company had failed to abide by the decision of a referee chosen to arbitrate a labor controversy, the Silk Work-

ers' union have declared a strike. According to the plans the strike will begin tomorrow morning, and it will affect the three plants conducted by the Doherty company, involving more than 1,000 employees.

The trouble began last April, when the loom-fixers asked for the increased scale of wages, which Mr. Doherty refused, saying that he was paying the union scale. The loom-fixers quit work and non-union men were employed. The matter was taken before the national body, which had not sanctioned the strike. It was agreed, however, between Mr. Doherty and the national body that certain questions involving the discharge of the non-union men should be referred to a referee, and both sides agreed to abide by the decision. The referee decided in favor of the loom-fixers. The strike is likely to spread to other silk mills.

A wide range of prices and qualities makes the Columbia store the place for the poor, the middle class and the rich. All of them obtain here the very best qualities at the very lowest prices.

Everything you buy here is guaranteed as to quality, and our "one-quality, and our "one-fair-price-to-all-alike" system makes it as safe for a child to trade here as for the shrewdest man on earth.

HAT STRIKERS WIN ANOTHER VICTORY

United States Judge Upholds Demurrer in Bosses' Suit Against Union.

Decision Says Men Were Powerless to Accomplish Acts Complained Of.

EAST ORANGE, N. J., June 3.—The striking hatters are elated today by the sweeping victory they have gained over the unscrupulous bosses in their attempt to enjoin the local unions of the United Hatters of North America from exercising their jurisdiction over their members.

Judge Cross, in the United States district court, in Trenton, has sustained the demurrer in the case of the Samuel Mundhelm company, of New York, against four of the officers of the United Hatters of America. The Mundhelm company alleged that the United Hatters were holding up the workmen to such an extent that the hat manufacturing industry throughout the entire country was in jeopardy.

The allegations of the Mundhelm company were that these officers controlled the action of the workmen of the several local unions of New Jersey, New York, Connecticut and Pennsylvania, and that this power was exercised against the Mundhelm company and fifty-eight other manufacturers of the hatters' association by compelling men to strike in factories where non-union men were employed, and that union cards were taken from those men who remained. By this opinion the suit for an injunction to restrain the officers of the United Hatters' Association from taking cards away from workmen who enter the employ of the Mundhelm company, is thrown out of the United States court.

The court found that the defendants were powerless to do or accomplish the acts complained of by the Mundhelm company. It is probable that the company will begin proceedings for a new trial.

UP TO DATE PROGRESSIVE TAILORING ESTABLISHMENT

In this day of modern methods it is not every one who advertises himself as a tailor that is able to give the customer absolute value received for his money.

The qualities that go to make the successful merchant tailor are, good judgment and strong discrimination in the purchasing of cloth; taste and artistic excellence in style and make up; good workmanship and skill in the manufacture of the garment, and a business ability that will enable the tailor to so manage his affairs that he can sell at prices with which the ordinary tailor cannot compete.

Messrs. Nelson & Ross, the popular union tailors, located at No. 6 East Superior street, measure up exactly to the standard indicated if you don't believe it, try them and be convinced.

SUTTER GETS DECISION IN ENDURANCE BOUT

CLEVELAND, Ohio, June 2.—After wrestling three hours and 15 minutes, during which time neither man obtained a fall, Otto Sutter of Cleveland, champion welterweight wrestler of the world, was given the decision over John E. Blister of Toledo, here today.

When neither man obtained a fall after two hours and 45 minutes wrestling, it was agreed that they should wrestle 30 minutes longer; and the man who displayed the better form should be declared the winner.
