EVIDENCE ALL IN FOR COAL CARRYING ROADS

NEW YORK, June 30.—The coal carrying railroads today concluded their presentation of evidence in defense of a suit brought by the government under the anti-trust law, with the submission of testimony by E. B. Thomas, president of the Lehigh Valley Railroad company, and President William H. Truesdale, of the Lackawanna. It was agreed to postpone the taking of testimony in rebuttal for the government until September.

The greater part of the day was occupied with the testimony of President Thomas. Mr. Truesdale appeared late in the day to deny the existence of a rate agreement between the anthracite roads. He admitted, however, that representatives of the various systems met occasionally to discuss selling prices and practically all of them adopted uniform rates. The Lackawanna, he testified, had not made a rate reduction since 1903, in which year a change was brought about by the complaint of an independent operator that the Lackawanna was charging more than other roads.

MANY BOOKS IN ONE WEBSTER'S INTERNATIONAL DICTIONARY

Do you know that WEBSTER'S INTERNATIONAL answers with final authority ALL KINDS of questions in Etymology, Etymology, Geography, Language, Biography, etc.? Margaret Neville with the Quigley Players, who will be seen all next week in "Brown of Harva rd."

AMUSEMENTS.

"Brown of Harvard" is the bright and happy comedy that will be given the week of July 5 by the Jay Quigley Players at the Lyceum theater. This sparkling little story of American college life is said to be the finest college play ever written and it will be produced by Mr. Quigley and his fine company of players at the Lyceum for the first time in Duluth. The play is the ideal sort for summer entertainment, it is bright and interesting, amusing and clever, and the Quigley Players will present a delightful performance.

Rodney Ranous, the leading man of the company, will have the biggest opportunity of the year in the role of Tom Brown. A rowing race and the crew that goes out to win honor and fame from Harvard is one of the interesting features. There is, of course, a pretty love story woven into the plot. "Brown of Harvard" will be one of the best offerings of the year. It will be given every evening beginning Monday, with Wednesday and Saturday matinees.

"Shore Acres," that delightful old play that appeals alike to the old theater goer and to the young people who see it for the first time, is being given this week. Crowded houses have greeted it at every performance. The play will be given every night with a Saturday matinee.

ELECTRICIAN ON DOCK IS FATALLY INJURED

Oscar Erickson, 2712 West Fourth street, died at St. Mary's hospital as the result of injuries sustained in an accident at the Duluth, Missabe & Northern coal docks, Thirty-second avenue west.

Internal injuries which resulted in his death were received while leaning over the railing on the dock near one of the coal hoists when the apparatus swung around, pinning him against the rail and rendering him unconscious.

Oison was formerly the operator of the aerial bridge, holding that position until last fall. He has since been employed as the electrician at the Missabe coal docks, his work being to adjust the machinery. He is survived by his wife and a brother, Charles Erickson, a painter in the West End. His mother is said to be living in the vicinity of Grand Rapids, Minn.

Funeral services were held from the Swedish Mission church. Rev. C. Nelson officiated. Interment was in Hermandtown cemetery.

ROCKEFELLER AT CLEVELAND.
CLEVELAND, Ohio, June 30.—John D. Rockefeller and Mrs. Rockefeller arrived here today to spend the summer at their Cleveland home, Forest Hill. They were accompanied by Mrs. Rockefeller's sister, Miss Spelman, and a retinue of about 15 servants. Mr. and Mrs. Rockefeller will remain here until about Sept. 15.

WILL COMPEL COMPANY TO ARBITRATE STRIKE

Governor of Indiana Will Take a Hand in Evansville Street Car Strike.

INDIANAPOLIS, July 1.—Governor Marshall of Indiana has decided to take a hand in the Evansville (Ind.) street car strike and has ordered labor commissioners to go to Evansville and take steps to compel the company to arbitrate with its men. He declared he has information that only President Marshall stands in the way of arbitration; that the other officers favor it, and many business concerns in Evansville are on the verge of financial failure if the strike is not settled. Governor Marshall said:

"Surely the great state of Indiana has the power to prevent the financial ruin of the second largest city merely through the arbitrary and selfish action of one man. At least that strike is going to be settled."

LABORER MEETS WITH A SEVERE ACCIDENT

Falling headlong into an empty pocket of Elevator "D" of the Consolidated Elevator Company, now in course of construction, A. Bertilson, a laborer, struck on his head on a heap of scrap iron and sustained a number of bad cuts and painful bruises while at work.

Bertilson was walking on the edge of the pocket and in some unaccountable manner lost his balance and fell to the bottom. Some scrap iron, it is said, was in the bottom of the pit and it was upon this that Bertilson struck his head. No fracture of the skull has been discovered.

Bertilson resides at 4813 Oneota street, at West Duluth. He will be confined to his home for several days.

PLATE BOSSSES REFUSE TO ARBITRATE TROUBLE
SHARON, Pa., July 1.—President E. W. Pargny of the American Sheet and Tinplate Company has notified President McAnally of the Amalgamated Association of Iron, Steel and Tin Workers, declining to enter into any conference with the association with reference to the open shop order.

When the American company posted its notice that union labor was to be dropped at the tin mills after the last of June, President McAnally tried to arrange a conference.

The officials of the tin mill at South Sharon are running a heavy wire around their plant, and this is taken to indicate that the company is preparing to run its plant regardless of any action taken by the union. If a strike is precipitated the company will import men to operate the mills.

DULUTH HEIGHTS PLAN A BIG CELEBRATION

Monday Will Be Fittingly Observed by Residents of Popular Suburb.

Nothing Will Be Omitted to Make Event Eclipse All Previous Efforts.

The glorious Fourth of July is to be duly and properly celebrated at Duluth Heights, arrangements being under way for holding a celebration that will eclipse all previous efforts on the nation's birthday at that popular suburb.

Nothing that is calculated to add to the enjoyment of the residents and display their patriotism and good cheer is to be omitted. There will be parades, ball games, a dance and fireworks.

The program will begin with the parade at 9:30 in the morning. The first division will be headed by Spengler's bugle and drum corps and will consist of automobiles, the Duluth Heights volunteer fire department, replicas of Uncle Sam and Columbia, school girls, the Duluth Heights ball team, the Junior Hummers' ball team, the Junior Duluth Heights ball team and the second division will consist of boys and floats.

After the parade, exercises will be held at the fire hall. Dr. Summers will give the invocation and fifty little girls will sing "America." Milton Maghan will recite "A Dash for the Flag" and Ruth Wilson will also give a patriotic recitation.

The reading of the Declaration of Independence will be given by R. Donaldson and Mrs. Balmer will sing a solo. After a number by Spengler's band, W. E. McEwen, state labor commissioner, will give the oration of the day. The program at the hall will conclude with another song by the children.

After the exercises the citizens will repair to the ball grounds, where a game will be played between two local teams. Another ball game will be played in the afternoon and at 4:30 a program of sports, including races and a tug of war, will be given. Fireworks and the dance in the hall will conclude the celebration.

WORKINGMEN RIGHT IN THEIR DEMANDS

Courts of Our Land Should Protect the Weak Against the Strong.

Professor Wambaugh of Harvard law school says workingmen are right in demanding social reform in injunction proceedings. In an address on "The Injunction—Its Use and Abuse," before the members of the Economic Club of Worcester, Mass., he had this to say:

"I do not forget that I am not tonight addressing working men, but I want to say to you that this matter interests you more than it does the workingmen, for the injunction process is only in its infancy, and it may interest you to know that you are threatened by its growth even more than the workingman. The injunction today runs against the capitalist. The injunction is unwise, inartistic, dangerous, with the contempt procedure as it is now administered as a part of it.

The workingman feels today that the employer has everything, including the law, on his side. We must see to it that there is not the slightest ground for such belief, and that our

courts, like Caesar's wife, are above suspicion.

"If our system of jurisprudence fails at any point to protect the poor, the weak and the friendless or to exact equal justice between man and man, it is our business to seek and apply the necessary means to remedy it. It is idle for us to expect industrial peace in this country. It is not desirable. As long as the world lasts there will be a constant struggle between the capitalist and the employee to obtain a larger and larger measure of the fruits of their labor. As long as this condition lasts—and it will last forever—there will be labor disputes, and it is well that there should be, for be it remembered what these men are striving to do is to divide not

a loss, but a gain. When the workingman fights for a larger wage he is fighting for more leisure, for a brighter intellectual life, for a bigger life. He is fighting your battle and my battle and the battle of the future. On him depends the growth and advancement of the republic. He must have the same rights in the courts as his brother more fortunately situated in this world's goods. I don't want industrial peace, but I do want justice and I do want a state of society that as a lawyer I can defend, and not attack."

DISCUSSING LABOR TROUBLES.
KANSAS CITY, June 30.—Coal miners and operators from Missouri, Kansas, Oklahoma and Arkansas held a joint meeting here today and discussed recent labor troubles. The meeting will continue tomorrow.
