TRADES ASSEMBLY GRINDS BIG GRIST

The regular monthly meeting of the Federated Trades Assembly was held at Kalamazoo hall Friday evening, July 27, 1910.

Excepting Vice-President W. R. Thompson, all the officers were present.

The minutes of the previous regular meeting were read and approved as corrected.

Attending delegates reported on trade conditions for their respective locals as follows: Butchers, Longshoremen, Typographical, good; Blacksmiths, Cigar-makers, Musicians, Painters, Tailors, Team Drivers, Tug Firemen's Protective Association, fair.

New Delegates.—The following credentials were presented, and the delegates elected: Geo. Northfield, Leo Bernhard, and E. A. Rickard, all of the Butchers' union.

Bills.—The following bills were ordered paid: R. S. McGregor, salary, postage and stationery, \$21.10; Otto Woelffer, cleaning back room, fifty cents.

Communications.—A communication from C. E. James, secretary of Board of Managers of Labor and Industrial Exhibit, stating that organizations of labor of Minnesota, under the auspices of the Minnesota State Federation of Labor, are arranging an industrial exhibit at the forthcoming state fair, and that a

space of 100 by 400 feet had been set aside by the management for the display, was read, and the secretary was directed to answer the same, to the effect that the assembly thought the intervening time too short to permit of arranging for a suitable and creditable exhibit. It was further decided that a committee of five be appointed to act on any reply. The following committee was appointed: James Walsh, H. Perreault, E. G. Wollgren, Geo. Northfield and H. Miller.

The following communications were read and ordered filed: From Mark Twain Lodge No. 537, I. A. of N. Hannibal, Mo., who are out on strike on account of failure to effect a satisfactory wage agreement with the Atlas Portland Cement Co., and ask for financial aid; from George E. Benz Badge & Regalia Co., submitting prices and terms for their supplies, and from the Macmillan Co. and the Whitehead & Hoag Co., advertising matter.

Sunbeam Theater Unfair. Special Committees.—The committee appointed to investigate the grievances of the Musicians' Union, in reference to the Sunbeam theater, reported that it had been extremely difficult to locate the manager of said theater, and that on a recent occasion, when the committee did succeed in meeting said manager, he refused to treat with the committee. It was moved and seconded that the report be accepted and the committee continued, but after some discussion on the question, the motion was by permission withdrawn. It was then moved that in view of the fact

WHAT'S BEHIND MUTILATION OF SCAB SEAMAN FRAZER

Sympathizers with the striking seamen on the chain of lakes will read with interest the following contribution to the Coast Seamen's Journal by W. H. Jenkins, of Conneaut, Ohio.

That sturdy seaman's leader hits the nail plumb on the head in his diagnosis of the motives behind the mutilation of a Lake Carriers' tool on the lower lakes last week. The hue and cry raised by the subsidized sheets that printed the story in scare heads shows which way the wind blows.

Here is Jenkins' deduction: The Cleveland Plaindealer, a paper notoriously unfair to the striking seamen, in its issue of July 1, gives front-page space to a story that Mr. Couliby, of the Pittsburg Steamship company, had received through the mails, the blood-covered ear of the scab sailor, who is alleged to have been mutilated at Buffalo several days previously, together with a threat to treat Mr. Couliby's heart the same way. For two years and six months the seamen of the lake district have fought a clean fight against the powerful union-busting Steel corporation. During this time hired thugs have shot down union pickets—murdered them in cold blood. The Plaindealer has approved. Every effort has been made by scab shipping masters to entice the striking seamen into unlawful riots and complying after complaint has been lodged in police stations that the strikers were interfering with the scabs. All without avail.

The striking seamen have proved every day that they are peaceful and law-abiding. This did not suit the union busters. Some crime must be committed and laid to union strikers, something that would cause indignation on the part of the public, and take away the sympathy which is steadily going in favor of the seamen. So—well, it happened, and not much attention was paid to it. Therefore the ear is reported to have been sent through the mails, and the police in all the Lake Erie towns began arresting union pickets. Who profits? The vessel-owning union busters. What other course was open to them? The union men would give them no hold, so the chances are big they did the work themselves.

If I were looking for the men who mailed that ear to Couliby (if it was mailed), I would look on the payroll of the Lake Carriers' association. They are easily capable of it; our members are not. We know their methods. Have we forgotten the cold-blooded murders of Comrades Richard Brown and William Woods, at Cleveland, last July? Have we forgotten the unprovoked murders of our two comrades last summer at Buffalo? Have we forgotten the testimony given by the three Italians in the police court in Escanaba in May, 1909, in which they testified that the shipping master gave them guns at Lorain and told them to shoot any union man who approached them? The Lake carriers' shopping masters stand convicted before God as murderers, and the chances are by big odds that they cut Fras-

er's ear off. Mr. Couliby is in no danger from union pickets; he could walk around unarmed and unafraid into any union hall on the lakes, and be perfectly safe. The same cannot be said of any union man walking into the vile small-pox ridden dens called "assembly rooms," rooms ruled by professional thugs, and inhabited by the scum of Europe and America. I defy any man to show me an armed picket, and I can show you all the armed scabs you want to see. The man on strike in this great and glorious republic is a "bum," a "thief," a "hard citizen." A scab, armed and ready to do murder, is a "poor working man," whom the "bums" are trying to prevent from making an honest living! That is the definition of the subject by police, newspapers, and union busters, subsidized of course. If the striking sailors were half as guilty of crime as those officials of the government concerned in the barefaced attempt to steal Alaska, they would have been placed in the penitentiary before this.

I firmly believe that the assault on Fraser was made at the instance of the scab shipping master in order to get the police to run the pickets away from their work. We are hurting them too much for their comfort. They begin to realize that we are going to win and that they will have to go to work, a possibility not at all pleasant to the class of criminals they belong to.

PROGRESSIVE PLANKS IN PLATFORM OF NEW PARTY IN ARIZONA

PHOENIX, Ariz., July 29.—The labor party of Arizona, just born in a convention of delegates gathered in this city from the various state locals of the Western Federation of Miners, American Federation of Labor and Socialist party, has received pledges of outside aid from national organizations that promises to make the coming campaign for the "newest" constitution memorable in history.

As soon as the resolution introduced by Kenneth Clayton, of Globe, was declared carried, and the convention had gone on record as favoring the permanent organization of a labor party, announcement was made that the Brotherhood of Locomotive Firemen and Enginemen would contribute \$1,500 to the campaign fund and that \$1,700 had been pledged from another source, making in all \$3,200 gathered for the war chest before the new party was a day old.

Mrs. Munds, chairman of the Territorial Equal Suffrage Association, offered the support of the 2,000 Arizona woman members as an auxiliary campaign committee to the labor party.

Miss Laura Gregg, organizer of the National Women's Suffrage Association, expressed her deep appreciation of the warm support given by the convention to the cause of equal suffrage and assured the delegates that the political battle coming in Arizona would enlist the aid of their best speakers and organizers.

Socialist delegates on the floor of the convention pledged their support and asserted that their party would not nominate a ticket in opposition to the Labor party.

Planks in the labor party's platform are to be as follows:

1. Equal men and women suffrage.
2. Election of senators by direct vote of the people.
3. Initiative, referendum and recall.
4. Two years' term for state officials.
5. State right to engage in industrial pursuits.
6. Anti-injunction law.
7. Employers' liability law.
8. Government by enacted law only.
9. Abolition of the fee system in all state courts.
10. State to have the right to seize property of any person or corporation refusing to comply with the law.
11. State to defray all expenses of the defense in criminal cases.
12. Power to declare laws unconstitutional to remain with the electors and to be exercised by referendum vote.
13. Six months' residence in the state necessary to qualify as an elector.
14. No private police permitted to operate in the state or give testimony.
15. No law to in any way limit the franchise.
16. No fee system permitted in primary, registration or election law.
17. All constitutional amendments to be made by majority vote of electors on the initiative of the legislature or the people.

PRAISE FOR ARMOUR GRAYS.
When the Armour \$25,000 prize team was in London, England, they created a sensation and among other things printed about these wonderful horses was the following:

"The Armour Grays made their first public appearance in this country at the horse parade in Regent's Park, where, of course, they were the 'observed of all observers.' Their driver, Billy Wales, as he drove into the narrow ring saw the opportunity for what he himself called a 'parlor trick.' To the astonishment of judges and spectators he swung this six-ton team with the 3 1/2 ton wagon behind them in a complete circle around the narrow enclosure and did the extraordinary feat almost entirely by word of mouth."
The Great Sells-Floto Show has

secured this exceptional feature and these wonderful animals are now being toured over the United States with this big circus. They are the genuine Armour grays and all of the valuable trophies, prizes, ribbons, etc., will also be displayed when the circus comes to Duluth next Monday, August 1.

AT THE THEATERS.

And now Mrs. Fiske will again come to us, this time in the greatest role she has ever played, that of "Becky Sharp." Harrison Grey Fiske announces that this is the play selected for her engagement at the Lyceum.

Mrs. Fiske will have the able support of the well-known and well-trained Manhattan company which has done service for her now these six years, and which contains many of the best players on the American stage. It must indeed be gratifying to Mrs. Fiske to return to that western country which was the scene of her early endeavors in this, her masterpiece. As a silent, frail girl, Minnie Maddern developed her wonderful art in that vast empire "The West," until finally equipped and in perfect mastery of it, she brought the repellent east to her feet and has ever maintained her position as the most distinguished actress of the day.

With the cost of living as high as it is, the folks who want to become fat or keep well cushioned, have to accomplish it in some other manner than by dining off the good things of the table and the Lyceum audiences this week have been following the adage, "Laugh and grow fat." The most serious sob-sides could not resist Gus A. Forbes and his company this week in "Mrs. Temple's Telegram." From the rise of the curtain until the going down of the same this farce-comedy has been played at the Lyceum to a ripling accompaniment of gentle laughter interspersed at intervals by hearty laughs. "Mrs. Temple's Telegram" is just a happy, care-free, enjoyable and screamingly funny play and hundreds have been finding pleasure in it all of this week. The piece will be given every evening with the usual matinees Wednesday, Saturday and Sunday.

Mr. Forbes has chosen "An Old Sweetheart of Mine" for the week beginning Monday, August 1. The play is one of those pretty stories that find favor with every class of theater goer and it is a play in which Mr. Forbes has won great applause. In the role of the hero of "An Old Sweetheart of Mine" he will have a part that will give him a splendid opportunity and one in which he was immensely popular in Brooklyn. "An Old Sweetheart of Mine" will probably prove one of the most popular plays presented during the season by this stock company which is the best that has ever played in the northwest. Hundreds of Duluthians are getting the stock company habit.

AUTOMOBILE WORKERS ARE ON STRIKE AT READING

READING, Pa., July 29.—The employees of the Parish Manufacturing company, makers of automobile frames, are on strike, and have closed the shop.

Strikers urge all men to keep away. They ask machinists, riveters and laborers to disregard advertisements for help here.

MESSANGER BOYS GO OUT.

NEW YORK, July 29.—About sixty Western Union messenger boys employed at the company's office at 16 Bond street walked out on strike this week, after the company had refused to recognize their requests for an increase in pay.

According to the striking messengers they asked for an increase of from 2 cents to 2 1/2 cents for delivering and calling for messages, and a rate of 15 cents an hour instead of 10 cents.

RUSSIA SAYS SHE OWNS BEST LABOR LAWS GOING

Russia, having been denounced all over the world as the worst oppressor of the working people, now comes forward with the unique claim that she has the best labor laws in the world.

Russia declares that "pluck-me" stores cannot exist in the country, as they do in America, for example. Employers are compelled to pay wages in cash, not in food, clothing, etc., and bosses disobeying the law are fined from \$25 to \$150. The employer is also required to take hygienic care of his laborers, and to supply them medical attendance free of charge.

In a factory where a thousand persons are employed, a hospital with at least ten beds must be provided and all medical attendance is free. The working day is limited between 6 a. m. and 7 p. m., labor on Sundays and forty holidays in the year is prohibited except in cases of actual necessity, and not more than 120 hours overtime may be worked in any year.

On the other hand, employers may fine workmen for any of these three causes: First, for defective work; second, for absence without sufficient cause; third, for any infraction of shop regulations. In determining what is defective work the employer is not the sole judge. The government factory inspector may be appealed to. The fines are calculated by the nature of the defects, and not by the loss sustained by the employer. The fines go into a special fund for the benefit of the employees. Fines for absence without sufficient cause may not be imposed unless the absence is for at least half a day. No fine for absence on account of

fire, flood, illness of the workman's wife or parents, or death or either. Strikes are prohibited and punishable by imprisonment for one week to 16 months, depending on the damage caused. The government also punishes employers by imprisonment not to exceed three months, and prohibits them from managing a factory for two years.

COMPERS ANNOUNCES DATE.

ST. LOUIS, Mo., July 29.—The date for the opening of the annual convention of the American Federation of Labor here has been announced for Monday, Nov. 14, by President Samuel Compers. The announcement followed a lengthy conference with local labor leaders.

"An infant in a Pullman car set up a loud wail, and would not be comforted," narrates a high railroad official, "and I came forward and told the young mother that I had helped to raise five, and that I thought I could secure a quietus. I put the little tum tum across my knees, and with a gentle joggling achieved beautiful results."

"Instead of giving me the credit I deserved some drummers in the car showed stern disapproval of my 'butting in.'"

"At 2 a. m. the baby woke up and staid awake, and kept every one else in the car awake. Finally a gruff voice asked:

"Where's that damn fool that put it to sleep this afternoon, I wonder?"

Got His at Home—Singleton—Are you going to attend the lecture at the hall tonight?

Wedderly—Not me.

Singleton—Why not?

Wedderly—What's the use of a married man giving up money to hear a lecture?

We Close at One Saturday to give our people a half holiday. Shop early in the week.
