THE "WALKING" CURE.

Doctors are of one mind in advocating walking as one of the best means of keeping the human machine in good working order, and one of New York's foremost medical authorities went as far as to say, in a lecture to young men studying for the profession, that if every adult could be persuaded to make a conscientious habit of walking five miles every day, there would be such a prompt and general improvement in health that doctors would soon have to be looking for other ways of making a living.—From Physical Culture for May.

AMERICA'S GREATEST CLOTHING SPECIALISTS

How About Your New Refrigerator? Have You Seen the White Mountain Lined?

The refrigerator you will decide on as soon as you see it. Because it's the best made, most sanitary, the lining of the food chamber is of solid, white stone, as smooth as wax—it cannot chip, crack, peel off or corrode. It will preserve milk, butter, eggs, cheese, onions, etc. all in the one compartment without the more delicate testing of the stronger—the air circulation is perfect. White Mountain Refrigerators are not high priced, expensive luxuries—they are built for practical people in practical homes—a real household necessity where pure food is appreciated.

REGULAR SEESION OF TRADES ASSEMBLY

Proceedings of Session Held at Kalamazoo Hall, April 14, 1911.

The first meeting for April of the Federated Trades assembly was called to order by President Jones. All officers present except Reading Clerk Rickard.

W. J. Dutcher was appointed as reading clerk. Minutes of previous meeting read and approved. John Lindstrom was seated as delegate from Typographical Union No. 136.

Bills.

Bills were ordered paid as follows: Labor World Directory Card for January, February and March \$3.00 Prindle & Co., Hall Rent 5.00 Miss Phelps, 50 letters and postage conference call 3.00 Total \$11.00

Communications.

From White Rat Actors' association referred to organization committee. Placed on file. Buck's Stove and Range Co.; Ostrander Hosiery mill, Little Falls, N. Y.; Button Workers' Protective association, Muscatine, Iowa; Carpet Weavers association, Toronto, Ontario; International Boot and Shoe workers, Boston; Metal Polishers and Buffers, St. Louis Missouri; American Association for Labor Legislation, New York.

Report of Officers.

Secretary reported shortage of stationery, moved and seconded to instruct secretary to purchase printed letterheads and envelopes and credential blanks. Motion carried.

Committee Reports.

Organization: New union of Shoe Repairers has been organized in the city.

Garment Workers have been reorganized. New garment shop will soon be in possession of the label.

Conference call had been issued and date for meeting set as follows: Monday night at Rowley's hall, April 24, Fifty or Sixty delegates are expected from at least 25 organizations.

Labor committee submitted final report which was accepted placed on file and the committee discharged.

Committee's collection \$687.95 Committee's disbursements .. 121.50

Balance \$566.45 Trade assembly hall \$283.22 Pavilion assessments 283.23 Total \$566.45

Moved and seconded to pay Richard Jones \$5.00 as remuneration for services rendered as chairman of Labor Day committee. Moved and seconded to amend amount to \$10.00. Amendment carried. Order was drawn for \$10.00. An unanimous vote of thanks was accorded to Labor Day committee.

New Business.

Jas. Powers was appointed member of organization committee to succeed W. P. Pevor.

Good and Welfare.

Delegate Wolff reported condition of labor movement in Superior as being in a prosperous condition.

Fred McGrath of Electrical Workers reported 50 per cent increase in Electrical Workers' union.

Severt Johnson reported Carpenters' union as increasing in membership and strength.

Adjournment at 9:45. WM. E. TOWNE, Secretary.

NEW YORK UNION MEN TO FIGHT BREAD TRUST

NEW YORK, April 20.—Three hundred thousand members of labor unions in New York city will be enlisted in the war which has been declared against the bread trust.

General Organizer Hugh Frayne of the American Federation of Labor sent a general circular to the central labor bodies of the city asking them to send delegates to a conference to devise ways and means for a war against the bread trust.

The man who proceeds with the conviction that he can win find that all things, even the hardest, are comparatively easy.

Do not attach a knife to the end of your tongue unless you wish to cut yourself loose from everything that is good and from everybody worth while.

STATE LAW MAKERS REACHED THE LIMIT

Continued from Page 1.

proved by the people of the state, would limit the number of senators any one county could have to seven, I was much impressed by the remarks of Senator Hackney of Ramsey county. He made an impassioned plea for the man in overalls, and was exceedingly solicitous upon the question of giving him proper representation in the state senate.

While the brilliant senator from Ramsey was talking I thought of the large number of bills in the senate, which if passed, would add to the economic welfare of the "man in the overalls," and I concluded that demagoguery was not a term to be monopolized by labor agitators.

Meritorious Bills Lost.

The child labor bill, passed by both houses, but amended in the senate, is not to become law. It was the most meritorious bill of the session, and lost out in the dying moments of the legislature by the filibuster started by the special interests.

The bill increasing the liability in case of death by wrongful act to \$7,500 passed the senate in the last moment by a vote of 33 to 28. It contained an amendment of just one word, but was returned to the house during the filibuster, and could not be acted upon.

Conduct of Certain Men.

I will write later in detail of the votes on this bill by several senators. Senator Rockne in particular, elected on a union labor fight in Red Wing, with the manufacturers against him, voted against the men who gave him his seat in the legislature. Senator W. W. Dunn voted against the bill, as he has done against every labor bill of importance during his career in the legislature.

Labor Handed Lemon.

That labor was handed a lemon by the 1911 legislature as was also all the people is well known. However, if there is anything in the old adage of "by thy fruits shall we know them" this legislature will teach the voters of Minnesota that it is time for them in the future to analyze well the position of their candidates for the legislature. A great educational campaign has been made possible, and during the next eighteen months it is to be known whether or not in the future the people will really rule this state.

JAPANESE POPULATION IS ON THE DECREASE IN U. S.

SAN FRANCISCO, April 20.—The number of Japanese laborers in the United States has decreased by 11,152 in the last three years, if figures prepared by the Japanese foreign office are correct. The figures were made public by Matsuzo Nagai, Japanese consul general for San Francisco. The report shows 14,257 laborers returned to Japan, from the United States, while only 3,105 left for this country in that time.

WHAT UNIONISM IS DOING FOR WORKERS

The Typographical union of Muskogee, Okla., recently signed a four-year contract with the employing printers which provides for a very substantial increase, the minimum pay being advanced from \$18 to \$22 during that time. This union was organized eight years ago and at that time the minimum wage scale was placed at \$12 per week. They have worked hard to increase their scale, and the result has been a steady increase every year until now they have signed for a \$22 minimum.

One year ago the International Brotherhood of Painters, Paperhangers and Decorators organized a local union in Salem, Ohio, and since that time the local has succeeded in having the wages of its members advanced twice; last year from \$2.50 to \$2.75 per day, and this year from \$2.75 to \$3 per day for nine hours.

The Typographical union of Canton, Ohio, recently succeeded in negotiating a new scale where by the men were benefited to the extent of an increase in wages of \$1.50 per week. The new agreement calls for the wage scale as follows: Foreman, morning papers, \$24 per week; hand compositors and floormen, morning papers, \$19.20 per week; evening papers, \$18; machine operators, morning papers, \$22 per week; evening \$19.20. Book and job foremen, \$21 per week; journeymen, \$18 per week. All time over eight hours to be paid for at the rate of time and one-half.

The housemaids of Boston, having failed to better the conditions of their class after trying many methods, have formed a union and will attempt to bring about better results. Among the things to demand are: One afternoon a week and two Sundays a month, regular family meals; a word of appreciation now and then; the establishment of their own employment agency and the establishment of a housemaids' home.

The eight-hour law for females has gone into effect, and, thanks to union labor, this humanitarian measure will always remain upon the statute books of California, or as long as there is need of such law.—Los Angeles Citizen.

Union Labor Gaining in Los Angeles. The granite cutters, who have been on strike in Los Angeles, Cal., for three years, have won a complete victory. On the heels of this comes the news that several brewery agencies have been unionized and that a large contracting firm of St. Louis has entered the Los Angeles field for the purpose of fighting the union hating contractors.

It is only a question of time until the tremendous efforts being made in that city by organized labor will win out in every branch of labor.

Birmingham Typographical Union, No. 104 will celebrate its twenty-fifth anniversary on Friday, June 23. The Birmingham union is composed of a lively bunch, and the union's silver anniversary will be celebrated in grand style.

CURRENT EVENTS IN THE WORLD OF LABOR

Live Items of News Affecting the Interests of the workers and the Cause Generally.

Engineers employed on the Iowa Central road, who, because of the existence of wage contracts which were permitted to run to maturity, were not included in the wage adjustment on 42 western railroads in Chicago, last year, will have their wage advanced 8 per cent in the near future. There will also be other wage adjustments on the Memphis & St. Louis and Iowa Central roads.

It was agreed with Vice President W. G. Bierd, when the association of Western Railroads was handling the wage schedules in Chicago, that all Minneapolis & St. Louis and Iowa Central contracts should be permitted to mature. The advances now being made are now in line with what was granted by the Chicago conference.

The working schedules will be figured out in the general offices at Minneapolis, and will require several weeks for completion.

Members of the International Printing Pressmen and Assistant's union have commenced to advocate San Francisco for the 1915 convention of the union. It will be a very desirable year in which to visit the coast, for them the Panama-Pacific international exposition will be in full blast in San Francisco.

A barracks costing \$5,000 has just been completed at Butler, Pa., to house the Pennsylvania "coosacks" by the Standard Steel Car company. Secret organization has been going on for some time among the thousands of workers in that plant, many of whom receive less than \$8 per week. The men work twelve hours a day and usually on Sunday. The plant is inclosed by a high board fence, on top of which barbed wire is stretched, which may be charged with electricity. This plan was first adopted at the Carnegie Homestead mills about twenty years ago. A strike is expected at Butler soon.

Big Union Aggregation. There are now 108 unions in the New York United Hebrew Trades, with an aggregate membership of 150,000 men and women. The central body has also with it a number of unions of Italian workers and several thousand workers in other nationalities, including English speaking people.

Vancouver (B. C.) city council has appointed a special committee to go into the question of civic employers wages generally. This action resulted from the demands of employees in various departments.

The Metropolitan Life Insurance company is arranging to build a tuberculosis sanatorium on Mount McGregor, situated about six miles from Saratoga Springs, N. Y., to be devoted to the treatment of its employees.

Shoe factories of Missouri in 1910 turned out products to the value of \$50,000,000, gave employment to 20,000 men and women; paid out about \$3,000,000 in wages and has a capital of \$20,000,000 invested in the business.

The executive council of the International Brotherhood of Bookbinders will meet at international headquarters in Indianapolis on April 17.

Among the important conventions to be held in Minneapolis and St. Paul this summer is that of the International Boot and Shoe Workers' union in St. Paul. The session will be in the old state capitol and will open the third Monday in June.

A concerted attempt is being made by union fishermen to control the salmon business of the Pacific coast. The Union Fishermen's Co-operative company, with headquarters at Astoria, is negotiating for the erection of additional plants.

Agitation for early closing of retail stores, which was started several years ago by the trades assemblies of Minneapolis and St. Paul, in conjunction with the two locals of the Retail Clerks' association, is to be renewed again shortly.

Bean Soup. Soak beans twenty-four hours, and then cook until almost soft before adding diced potatoes and onions, with salt to season. Let cook down until fairly thick, and when ready add a bit of butter or olive oil, though this is not essential.—From Physical Culture for May.

Imagine yourself doing what those are doing who have the power to do what you want to do. For increasing the strength of mind or body, this is a method that has proved itself to be remarkable.

NEW CIGAR COMPANY. Mr. Nels Anderson, a member of the local Cigar Makers' union has purchased the stock and good will of the Opulent Cigar company, located at 127 East Superior street, where he will continue the business under the firm name of Anderson Cigar Co. The Labor World wishes Mr. Anderson an abundance of success in his new enterprise, and we bespeak for him an extensive union patronage.

BIRTHDAY HONORS FOR LAWYER JONES

Continued from Page 1. Our warmest congratulations and heartiest felicitations on these several points, viz: 1. On the circumstances of his birth. 2. On the retention of a few sparsely settled portions his cerebral protection. 3. On the exceedingly appropriate and lucky number of years he has attained. 4. On his successful launching into the career of lawyer. 5. On his exceeding worthiness and

COPENHAGEN SNUFF

GUARANTEE OF QUALITY AND PURITY

Copenhagen Snuff is made of the best, old, rich, high-flavored leaf tobacco, to which is added only such ingredients as are component parts of natural leaf tobacco and absolutely pure flavoring extracts. The Snuff Process retains the good of the tobacco and expels the bitter and acid of natural leaf tobacco.
