Complete House-furnishings. **R.R. Forward & Co.** YOUR CREDIT IS GOOD. NEW STORE: 122 AND 124 EAST SUPERIOR STREET.

PAPER-MAKERS WIN BIG CONCESSIONS

Strike of 10,000 Employees Is Averted Through Signing of Contract.

NEW YORK, July 10.—A general walkout of 10,000 men in the paper making trades employed by the International Paper Company was averted yesterday when the firm capitulated, granting some concessions to its workers, and signed an agreement with the unions concerned. The agreement with the paper company expired on May 1, since when twenty conferences have been held for the purpose of bringing about a settlement.

For a long time it appeared that a strike was imminent, when at the last conference, held about a month ago the company submitted a compromise offer to its employees. It was on the basis of this offer that a settlement was finally reached.

Many Trades Involved. The agreement covers all the trades in the employ of the International. Among them are paper makers, pulp and sulphite workers, machinists, electricians, plumbers, steam fitters, engineers, firemen, carpenters and several laborers organizations.

Among the concessions granted from the company are that the day workers be paid four hours' pay for all overtime work, no matter how long they have to work. In cases however, are the men to be paid time and a half for overtime work.

Labor Day, Christmas Day and Independence Day are to be considered legal holidays. In case the men are asked to work on these days they are to get the regular day's pay plus time and a half.

The paper makers' wage scale, which had been irregular, has been straightened and they will receive a slight increase in wages. The pulp and sulphite workers get an increase in wages of 1 cent per hour. Engine drivers get a minimum scale of wages of 30 cents an hour. This is satisfactory to the men as it gives them a flat rate which they have not enjoyed before.

Firemen Get Good Rates. First firemen working on less than five boilers get an increase of 1 cent an hour. Those working on more than five get 2 cents more.

The company also agreed to help establish an apprentice system in its thirty-two mills, a demand the union men have been after for years.

The signing of the agreement practically unites the entire paper industry throughout the country. The Great Northern Paper Company, St. Croix Paper Company, and the Grand Lake Paper Company signed agreements last May. These combined companies employ almost 7,000 men.

FOR MUNICIPALLY OWNED UTILITIES

Wanamaker and Blankenberg Give Views on City-Owned Plants.

PHILADELPHIA, July 9.—Public ownership of public utilities was approved in qualified terms, by Mayor Blankenberg and in unqualified terms by John Wanamaker before the Federal Industrial Commission last week in the Postoffice building.

"I believe that municipal ownership of public utilities is a goal toward which each city should work," said the Mayor.

When Wanamaker was asked point blank whether he favored public ownership, he briefly said, "I do." He did not qualify his approval, but he amplified it by stating that he had worked for the parcels post and postoffice savings bank, and added that if the government owned the railroads "we would have one cent postage."

Ring Controlled Gas Works. Mayor Blankenberg took the stand at the opening of the day's session and went into detail as to the workings of the city government. He told of the "ring" that once ran the gas works when they were owned and controlled by the city, and said that the experience of that time, the poor gas furnished, and the fact that the plant was managed for the benefit of a political party, had "disgusted the people of Philadelphia with public ownership."

Mr. Wanamaker followed the Mayor to the stand, and gave his views on industrial conditions, labor unions, the minimum wage scale for women, of which he does not approve and on other points at great length.

Mayor Blankenberg said that many men were out of work. "Fifty plants, I looked into were working on last year's contracts. Just how things are I don't know. But I do not think conditions are serious. The Philadelphia workmen make up the first body of men of the kind in the world. They won't apply for all until they are forced to by actual starvation."

Touching on the trolley strike of February, 1910, the Mayor told regretfully of the "rioting, bloodshed, loss of money caused by this unnecessary strike."

When asked what he considered as the "missing link" between capital and labor he replied:

"I would say that it is composed of prejudice and misunderstanding. Prejudice has today built up a Chinese wall between labor and capital. Of course, workmen have just as much right to organize as does capital, but it is unfortunate that many poor will carry chips on their shoulders."

"But we must realize in the final analysis that all wealth is made by labor proper."

Better Class of Unionists. Wanamaker was asked if he knew any "ring" in this prejudice could be done away with.

"One way," said Mr. Wanamaker, "is to unite labor organizations from politics. I will say, though, that in later years a much better class of men has come into the lead of the majority of labor organizations."

"Do you think that unions have raised wages?" was asked.

Mr. Wanamaker did not answer directly, but his reply was interpreted by Mr. Weinstein to mean that, he did not believe unions had done the most good in this direction.

Mr. O'Connell told of the establishment of a minimum wage for women in some States and asked Wanamaker if he were in favor of the establishment of a legal minimum wage for women.

Mr. Wanamaker answered that he did not approve an arbitrary minimum wage for women.

"The minimum wage, to my way of thinking, would work a hardship upon those at the bottom," said Mr. Wanamaker. "In other words, the plan would work out in such a way that those not capable of earning the minimum wage would not be employed at all."

BARTENDERS STRIKE. SCRANTON, Pa., July 10.—Bartenders in this city are on strike for a minimum weekly salary of \$16, double pay for overtime and notice before they are dismissed. Several parties have granted these requests for better working conditions.

MINERS WORKERS MAY PROTEST TO SOLONS

Congress to Decide Whether Gunmen Shall Rule the States.

In all probability a national conference of delegates representing the United Mine Workers, Western Federation of Miners and other organizations will be called to meet in Washington some time during the present year, perhaps in December, when the short session of Congress assembles, to consider the single question of government by gunmen, which has become an issue of overshadowing importance to the laboring people of the whole continent.

The miners, because of the fierce conflicts into which they have been plunged, are taking the initiative in this movement and many of their local unions in the middle west and the mountain states have adopted resolutions—feeling the fact that since the Homestead and A. R. U. struggles the business of strikebreaking has grown to enormous proportions small armies of criminals and professional thugs being employed in West Virginia, Michigan, Colorado and other states by irresponsible agencies to murder and wound workmen for a price.

It is pointed out that while death and desolation have been scattered broadcast by the various cutthroats, who have been transported from one state to another as they were needed and without hindrance, congress has been absolutely indifferent to this new form of brutal and murderous government that has taken root. The miners declare that the time has now arrived to take determined and drastic action. They demand that congress enact a national law to deal with the evil as far as possible, and that the various states follow along the same line, so that government by so-called detective agencies and their assassins and trouble breeders may be wiped out of business in this country for all time.

The accursed system prevails nowhere else, not even in Turkey or Russia. It is worse than the methods practiced by the feudal barons in the middle ages to maintain their power. Their minions were not armed with machine guns and rushed against unarmed men, women and children in "death specials". Those politicians who are in power at Washington and in the various state houses should blush with shame when they boast of our civilization and the supposed freedom that exists in America.

BARTENDERS RAISE WAGES. BILLINGS, Mont., July 10.—The Bartenders' union has been successful in securing an increase in wages without striking. A union of sheet metal workers has been formed by the Central Labor union.

CLASSIFIED ADS.

FLORIDA LANDS.

FOR SALE—9,500 acres of choice fruit and truck lands, located on the St. John River, in Lake county, Florida. In said county and state, on Saturday, Cheap River and railroad freight rates 3000 rods. Artesian wells. An old well tried section. Many orange groves and truck gardens flourish in our midst, proving to the new settler that has been done by others can be done by him. Land 10 to 25 feet above sea level, affording good natural drainage. Sold in 10-acre tracts at \$30 per acre and upward. No interest. No taxes. On terms of \$1 per acre down and \$1 per acre per month. Call or write for literature. Duluth-Florida Land Company, Room 5, Phoenix block, Duluth, Minn. Agents wanted.

SMALL FARMS RIGHT AT THE GATES OF THE CITY

Connected with Duluth and Superior by two splendid macadamized auto roads and three railway lines, with dozen trains daily, with daily mail and telephone service.

SUNNYSIDE GARDENS

offer every inducement that the small farmer can possibly want, and we predict that it will become the most profitable small fruit district in the country. There is a reason why—strawberry growers in this district have taken as high as \$1,000 per acre from their berries, and you can do as well if you follow their example.

5 and 10-Acre-Farms On Payments of \$5 to \$10 Monthly—Some a Little More. Let us take you out for a visit to our demonstration farm and be convinced.

HEIMBAUGH & SPRING, 1103 Tower Avenue, Superior, Wisconsin. D. N. T. Please send me free maps and literature of Sunnyside Gardens, telling of the success others are making in this district.

NAME ADDRESS

Necessity was the Mother of the Remington

WHEN the need of the typewriter came to the business world, the Remington came. Others followed. Remington was the first typewriter—it is still the first typewriter.

First in the field, the Remington organization began building experience, step by step, from the actual practice of typewriter users—always a step or two in advance of the user's need. Other makes followed.

Today the Remington Typewriter stands unique as the greatest revolution, the greater energizer the commercial world has ever seen. And by no means least of its beneficiaries are all other makes of typewriters—for the Remington created the typewriter industry and blazed the way for the others to follow.

12,500,000 Remington-written letters mailed in the United States alone every business day in every business day in every business day.

That tells the story of Remington pre-eminence, of the confidence of captains of commerce in it, of the faith of tens of thousands of efficient employees, of the limitless selection in choice of operators and choice of positions—the machine that has made work for the millions, and millions for the work.

Remington—the first Typewriter

Remington Typewriter Company
