ONE SEASON COMES TO END

N. P. Shipped Last Ore Thursday—Shipments Show 2,000,000 Ton Shortage.

Ore shipments for the season of 1914 came to an end Monday night when the last steamer sailed from the Great Northern docks at Allouez bay, and the Soo line dock at St. Louis bay. The Northern Pacific dock at the East End shipped its last ore on Thursday.

Shipments have also ceased from other ports on the Great Lakes so that the carriers engaged in this trade will be withdrawn from commission upon their arrival at the lower lake ports.

The shipments from the three dock systems in Superior show a reduction of approximately 2,000,000 tons as compared to last season's figures. The loss was almost entirely in the Great Northern shipments.

The Great Northern this year shipped 10,459,000 tons of ore. The Soo line shipped 733,000 tons from the Cuyuna range, and the Northern Pacific shipped 137,000 tons from the same range.

While the shipments from the Northern Pacific docks are small, they represent the first season at the East End dock. Last year one or two cargoes were shipped at the end of the season after the dock was completed but they were of an experimental character to a large extent.

Next year the Northern Pacific shipments will show a big increase if the conditions in the steel and iron trade improve.

It is yet too early to venture any opinion as to next season's shipments according to local men engaged in the ore business. The war and its effects on business in general prevent anything like an accurate forecast. However, a boom is looked for in the steel business as soon as peace is restored abroad.

H. F. WOLFE GOES TO BRICKLAYERS' MEET

Henry F. Wolfe, of the Bricklayers and Masons union is in Racine attending the Wisconsin State Conference of that organization, which opened Tuesday morning.

Greysolon Java Wrappers, Havana Fillers.

FREAK MEASURE DEFEATED.

DETROIT, Mich., Dec. 4.—The voters of this state have defeated a proposed amendment to the Michigan fraternal law, which, if passed, would have destroyed many of the beneficiary features of labor unions. The fraternal amendment was opposed by the organized workers and members of fraternal organizations.

ANOTHER RECALL IN SUPERIOR

Petition Being Circulated for Ousting of Mayor J. S. Konkol.

That another effort is to be made to recall Mayor Konkol in Superior is evidenced by papers being quietly circulated throughout the city.

To date, all efforts to learn the names of those back of the movement have failed. Rumor had it that the Social Democratic party was the instigator but such has proved to be false, since the general opinion among the Socialists is that the move is premature.

Grounds upon which the recall is to be made are stated as follows: "I the undersigned do hereby demand the removal of J. S. Konkol from the office of Mayor of the city of Superior, Wisconsin and the election of a successor to said J. S. Konkol as mayor, pursuant to the provisions of section 925m-307 of the statutes of Wisconsin.

"I the undersigned am a qualified elector of the city of Superior, Wisconsin, and entitled to vote for a successor to said J. S. Konkol as mayor.

"The following is a general statement of the grounds upon which such removal is sought; that said J. S. Konkol is incompetent to perform the duties of said office of mayor; that said J. S. Konkol as mayor has shown favoritism in the enforcement of laws and ordinances governing the city of Superior; that said J. S. Konkol lacks the moral courage to properly perform the duties of said office; that said J. S. Konkol, as mayor, fails, neglects, and refuses to enforce the laws of the state of Wisconsin and ordinances of the city of Superior, which should be enforced for the best interests of the city of Superior and its people; that the best interests of the city of Superior require the removal of the said J. S. Konkol as mayor of Superior."

To make the recall petitions effective under the provisions of the commission government act they must be signed by a number of voters equal to 25 per cent of the total number of votes cast for governor at the last general election.

As the vote in the city for all the candidates for governor at the election on November 3 was 4,464, the requisite number of signatures is 1,116.

HORRORS IN PEACE-FUL INDUSTRIES

(Continued from page 1.) over a million men working underground, that will mean a yearly saving of more than 2,000 lives; and in the combined mining and mineral industries, employing two and one-third million men, I hope we can aid in preventing 30,000 to 40,000 accidents each year.

Hazardous. "It must not be forgotten that mining is and always will be a hazardous industry and that each year it will demand as its tribute to modern civilization a certain death roll. We cannot avoid the inevitable, but we can avoid the unnecessary; and that would mean each year the lives of at least two thousand miners spared to the nation's wage earners and to their wives and families; and a reduction to an extent of 30,000 to 40,000 in non-fatal accidents in the mining and metallurgical industries of the country. Surely this is something worth striving for."

SUPERIOR UNIONS DISCUSS TEMPLE

Plans Being Formulated to Purchase Building Site For Headquarters

At a mass meeting held Monday evening at which all unions affiliated with the Central body were present, ways and means were discussed for the purchase of a building site and the erection of a suitable labor temple for Superior.

It was decided to organize a building corporation which shall have authority to issue stocks and bonds for the purpose of raising sufficient funds, also to receive donations from the several organizations and individual labor unionists.

That three lots giving 75 foot frontage should be purchased immediately was the sense of those present. For the time being the committee of seven appointed by the Trades and Labor assembly will take the matter in hand, as to looking up a favorable site, drawing articles of incorporation etc. The committee is as follows: Edwin T. Harris, O. F. Erick, H. F. Wolfe, Wm. Hilland, O. E. Eby, Chas. Lapp and Alex. LaRook.

Another meeting will be called December 30th.

Greysolon Cigars are good.

TO BUILD LABOR TEMPLE. BAY CITY, Mich., Dec. 4.—The Bay City Labor Temple commission, consisting of seven members, has been created by the local Trades and Labor Council for the purpose of securing a home for the trade union movement.

The charge for the tailoring will be only \$1.00. THERE WILL BE NO EXTRA CHARGE FOR FINDINGS.

REVOCAION OF LICENSE ASKED

Labor Agent Charged With Abuse—64 Men Get Jobs on False Pretenses.

The revocation of the license of one of the agents of Superior's private employment offices was recommended by R. D. Scoon, deputy industrial commissioner and superintendent of the Free Employment office in a letter to the state industrial commission.

Sixty-four men, Scoon alleges, were hired by the employment agent for work on the Great Northern ore docks, with understanding that there would be at least two weeks' employment for them. Sixty of the men paid \$1 apiece for their jobs, three paid 50 cents and one paid 25 cents. They worked two days, and were then dismissed.

The Great Northern ore dock manager declares that he informed the employment agent that the work would be temporary so most of the responsibility is shifted to the employment agent. Scoon charged that the agent purposely avoided him, creating delay in the hope that many of the men would move on, so the number he would have to return the fee to would be lessened.

That the same agent has been convicted of many similar instances of misrepresentation, is the charge of Mr. Scoon in his letter to the industrial commission, urging the revocation of the license.

Tuesday a representative of the industrial commission was in the city investigating this matter and one other of a similar nature.

A FUTURE VISION

(Robert G. Ingersoll's Set to Verse) I see a world with no tyrant king, A world bereft of thrones; A land without aristocracy, No plundering, pillaging drons.

I see a world without a slave; Man is at last born free; The forces of Nature have conquered all, Applied to machinery.

Lightning and light and wind and wave, And all the powers of earth; As tireless toilers of the human race, Proclaim for man new birth.

I see in the end a word at peace, Adorned with beautiful art; With music and love and words of truth, To appease each aching heart.

I see a world where no prisoner mourns; No evil longing call; Where lips are rich with words of love, And the gibbet does not fall.

I see a world with full reward For labor's brawn and brain, Where work and worth go hand in hand; No scorn and no disdain.

I see the girl at her daily toil, The image of Venus, sublime; Her body not sold at the auction block, But free from shame and crime.

I see no beggar's outstretched palm Shivering in the wintry cold; No miser's heartless, stony stare, In search for glittering gold.

I see no piteous wail of want, Nor livid lips of lies; But peace and love and comradeship, Beneath celestial skies.

I see a race without disease, Of flesh or brawn or brain; Shapely and fair to look upon; Devoid of anguish or pain.

And as I look I see a world Blessed with eternal Love; The luminous star of human hope, Shines in the dome above.

—Edward O. Foss, M. D. Arcadia, Mich.—In The Tailor
