UNIONISTS AND FARMERS UNITE FOR LEGISLATION

ATLANTA, Ga., Aug. 6.—The state federation of labor, the Farmers' union, and the brotherhood of railway firemen will act jointly in urging the state legislature to pass the following legislation:

Factory inspector, semi-monthly pay day, public printer, the recall, school books at cost and the Torrins land system.

CREAMERY WORKERS INCREASE WAGES

BOSTON, Aug. 6.—The Creamery Workers' union has raised wages from \$1 to \$3 a week and nearly 50 new members have joined this local. Numerous conferences were held with employers but the workers failed to secure concessions. A strike resulted and after the plants were completely tied up three hours the employers were willing to settle.

MACHINISTS WILL HOLD JOINT PICNIC

Van Lear and Harthill Expected Feature Program Arranged. Business Agents to Race.

Saturday, Aug. 7, Proctor, Two Harbors, Superior and Duluth machinists will hold their annual joint picnic at Fairmount park. Thos. Van Lear and Louis Harthill of Minneapolis are expected to be in Duluth to take part in the program.

A big program has been arranged by the committee and it is expected that a large representation will be had from the four cities. The feature of the program will be a mile race between the several business agents. The second best event will be a race between the nine committeemen. Nine prizes have been arranged for the committeemen's race so that in case any one is badly defeated in the paths he need feel no keen disappointment, he will be amply rewarded for his tireless and fearless efforts.

A happy time is assured the kiddies and mothers, also the dads and bat-chelors. A special request to attend is extended to the young people in the organizations as the annual events of the machinists are the greatest get-together gatherings of the season where the machinists of the several localities have an opportunity to become acquainted with each other.

NEWS OF THE UNIONS

KONKEL, OF TYPOS TAKES UNTO HIMSELF, A WIFE

Fred Konkel, member of Duluth Typographical union No. 136, was married last Wednesday evening to Miss Pearl Hart of Duluth. The marriage ceremony was solemnized by Rev. N. J. Lockem at the home of the bridegroom's father, Mayor J. S. Konkel, in Superior.

Miss Hart, the bride, is the daughter of P. J. Hart of Eau Claire. The bridemaid was Miss Grace Konkel and Carl Oesterreich was best man. After the ceremony Mr. and Mrs. Konkel were the "victims" of a ruse and were "escorted" to the train by the "arm of the law." The ride to the train was taken in the police patrol wagon. They departed Wednesday for the Twin Cities on their honeymoon.

OPINIONS OF OTHERS

A Little Light on a Big Subject. By A. Graham, Chiropractor, 500 Columbia Building, Duluth.

Every little while our attention is called to the vast army of human beings who die at a comparatively early age, and also those who are life long invalids, from what is called preventative diseases.

Large financial appropriations are being made from time to time for the suppression of this unnecessary taking off of human life, but in accordance with the latest statistics, the grim reaper seems to be as busy as ever.

In view of this lamentable state of affairs, would it not appear quite reasonable to assume that the proper methods for the conservation and education of the public health, are not yet known to scientists who claim to be authorities on such subjects?

The writer has a very positive conviction that human transgressions are largely responsible for human ailments, and this is chargeable in a large measure to the haste, hurry and worry of the artificial life born of our modern civilization. Whenever a person persists in violating the laws of nature, illness of body or mind may be expected because outraged nature demands compensation. There is no escape, the penalty is usually paid for with the sacrifice of human life.

Is it not more in keeping with common sense and good wisdom, to put into practice those virtues and habits of living that are in their very nature calculated to contribute to healthfulness of body and mind, rather than the participation in methods and habits of living that are non-conducive to good health? Discipline, and self-denial are very important factors in the accomplishment of good health. A patient that cannot be disciplined, or advised and refuses to follow the straight and narrow path to health, need not expect to get well.

Too many precious lives have already been sacrificed upon the altar of guess work and medical superstition that drugs and serums will cure a disease that is built by wrong methods of living, and it is high time a halt was called on thus educating the public under the pretense of the conservation of public health. Should you question the reliability of my contention in this matter, I will ask, would it be possible to cure a person of the drink habit so long as he persisted in drinking? Would it be possible to affect a cure in a case of indigestion so long as eating beyond digestive ability was practiced? Right living is the only cure for the results of wrong living.

Regular prices ranged \$1.50 to \$2.00. Because size lines are broken, choice 95c the pair.

KANSAS REGULATES TELEGRAPH COMPANIES

TOPEKA, Kans., Aug. 6.—Hereafter telegraph companies must ask the state public utilities commission for permission to place in localities that furnish little business. The supreme court has upheld the commission's order to this effect. The companies, however, will continue to tell the public they have "the right to run their own business" whenever workers ask for better conditions or increased wages.

HIBBING AND MINING COMPANIES CONFER

The controversy between the village of Hibbing and the Oliver Iron Mining company, a subsidiary of the steel trust is proving to be of real interest to Northern Minnesota.

The controversy arose over the refusal of the Oliver Iron Mining company to pay the taxes which have been assessed against it by the village. The company charges the village with extravagance and injustice in expenditures made.

Through the failure of the company to pay its taxes the finances of the village have been practically exhausted and Mayor Power and the city employees and called upon Governor Hammond to place the village under state control until such time as the mining company should comply with the requirements of the law.

The outcome of the appeal to the governor was a conference between mining officials and the village trustees at the Holland hotel in Duluth, at the time The Labor World went to press nothing definite had been settled upon.

SINGLE TAX GROWTH IN UNITED STATES

So far, the Single Tax has been an issue at elections in the United States in the following places, receiving votes as noted:

Seattle, Wash., March 1912 . . . 13,000
Everett, Wash., Nov. 1912 . . . 4,858
Missouri, No. 1912 . . . 86,647
Pueblo, Colo., Nov. 1913 . . . 2,711
Oregon, Nov. 1914 . . . 64,825
California, Nov. 1914 . . . 267,618
Houston, Tex. (for Pastoriza), April 1915 . . . 5,659
Colorado Springs, Colo., April 1915 . . . 992
Denver, Colo., May 1915 . . . 7,988

Total, three states and six cities . . . 454,298

Estimated National Strength

These places contained in 1910 a combined population of 6,931,311 or 7 1/2 per cent of the total population of the United States. At first glance this would seem to indicate that the Single Tax vote of the United States, if proportionate to those figures, would be 6,975,200, which would not be far short of the vote cast for Wilson for President.

But further examination shows such a result to be exaggerated. Since woman suffrage prevails in Oregon, California, Washington and Colorado these places must contain more than 7 1/2 per cent of the total number of voters in the country.

Woman suffrage has increased the number of voters from 50 to 75 per cent, so these places must contain from 10 to 12 per cent of the voters of the country. That would make a proportionate Single Tax vote in a nationwide contest vary from 3,800,000 to 4,500,000. Even the lowest figure would be a showing of remarkable strength. Single Taxers have every reason to feel encouraged.

CAN CHRISTOPHER COLUMBUS BE UPSET

Unique Challenge Given To Secretary Redfield By Goodrich Line.

A challenge, said to have been inspired by a letter written by the Chicago Federation of Labor protesting against the permit allowing the whaleback passenger steamer to carry 3800 passengers, has been sent to Secretary Redfield according to information received from Milwaukee.

The challenge if accepted will be interesting to the people of Duluth since the Christopher Columbus carried excursionists from Duluth to nearby ports several years ago. Since leaving Duluth the steamer has been engaged in the excursion and passenger business between Chicago and Milwaukee by the Goodrich Steamship line.

According to their information received A. W. Goodrich, president of the Goodrich Transit company, has issued a defy to the government to try to tip over the whaleback, but it is not stated whether the test if made will be made in Milwaukee or Chicago.

In a letter to W. C. Redfield, United States secretary of commerce, Goodrich asks that the secretary of the navy conduct a series of experiments to determine the stability of the Columbus.

"Five thousand bags of sand, each weighing 100 pounds to represent passengers, can be piled on the decks," says Goodrich, "and every facility afforded newspaper men and photographers to record the results of the effort to tip the boat. If the old whaleback goes over she is done for; if she stands the test we want the public appraisal of the fact at once."

No word has yet been received from the government representatives.

SINGLE TAX ADVOCATES ORGANIZE "GEORGE CLUB"

At a well attended meeting of single tax advocates last Wednesday evening at the Elks' club where a dinner was served, the first steps were taken towards the organization of a state body of single taxers.

Plans were made to invite the single taxers of the state to a general meeting in Duluth on Sept. 2, the birthday of Henry George.

The officers chosen at the meeting were as follows: President Marcus L. Fay, vice president, William Bussellman, secretary-treasurer, A. G. Catlin. The executive committee consists of the three head officers and Miss Edna G. Meeker, and Dr. M. B. Cullum.

District Judge Bert Fesler presided at the meeting.

CITY HALL IN BIG ELECTION TANGLE

Supreme Court Upsets Peace In Municipal Court and Causes General Strife.

The Supreme Court of Minnesota last Thursday proved to be a far greater disturber of the peace than soap-boxes and other nuisances, often complained of in Duluth.

The court decided that Judges Dancer and Fesler foisted themselves in believing Capt. Smallwood had defeated Judge Windom last April and then went a step or rather a jump further and decided that the people of Duluth had guessed wrong when they thought they wanted the preferential system of voting.

This latter part was easily settled; Marcus L. Fay said he'd be a sport and submit to the decision of the first trial court which declared Mayor Prince elected. Commissioner Farrel was game and won't ask for back salary but the municipal judges are the most pestiferous fellows that ever happened.

Judge Windom declares he's been tagged "it" and since the decision of last week persists in sitting in the big swing chair at the "Civil" bar. True he doesn't have much to do but it gives him a lot of satisfaction and he gets a much needed opportunity to relax. Judge Smallwood in his boyish playfulness insists on being "it" and he has succeeded in holding down the office chair and sitting at the "criminal" bar.

In the meantime the commission and City Attorney Greene are speculating on "who is to be or not to be." It's the all absorbing question. Following close on the heels of Mayor Power of Hibbing the City Council has sent a request to Governor Hammond to "butt in" and do something "useful" for his state.

It is expected that the decision of the Supreme Court will soon be complied with.
