JONES WILL SPEAK AT LABOR PICNIC

Novelty Stunts Being Arranged By Labor Day Committee. Everything New.

Novelty stunts and everything new in the line of entertainment is being provided by the Labor Day committee of the Federated Trades assembly for the picnic which will be held at Fairmont park on Labor Day, Sept. 6. It has been announced by the committee on speakers that Senator Richard Jones will be the speaker of the day. Senator Jones was the father of numerous labor bills in the last session of the legislature and voted consistently on all labor bills that came to the attention of the senate.

Details have been arranged by the joint committee of the Trades assembly and the Pavillion association. W. E. Thompson of the assembly is president of the committee and E. A. Rickard of the association is secretary. Other members of the committee are as follows:

Trades assembly—R. J. Coole, Peter Schaeffer, James Powers and A. G. Catlin. Pavillion association—Abe Jappe, J. G. Mork, O. H. Tarun and Fred McGrath.

No attempt will be made to hold a parade this year, but it is expected that the other events which have been arranged for will make the celebration this year one of the best yet held by the labor unions of Duluth.

GARMENT WORKER HEADS ARE RELEASED ON BAIL

NEW YORK, Aug. 20.—Secretary-Treasurer Sigman and seven other officers and members of the International Ladies' Garment Workers' union who have been in jail for the past three months on various charges, have been released on bail. At the time of their arrest the public press printed lurid accounts of the incident. Now Supreme Court Justice Ford, in admitting them to bail, says: "The evidence against them, as shown by the minutes of the grand jury which held the defendants, is, to say the least, inconclusive as to all, and of questionable probative force as to most."

The workers charge that the arrests were part of the manufacturer's plan to destroy their union, and show that the employers' abrogated an agreement with the union at the time the men were arrested. At a mass meeting held in this city June 12, 50,000 garment workers protested against these actions of the employers which were referred to by President Gompers, in his speech, as follows: "I don't know the reason behind the breaking of the protocol. Is it that the manufacturers believed the union could be crushed? Did they join in the movement to take the lives and liberties of the cloak makers' union? If it be their purpose to help take the lives and liberties of the men we believe to be innocent, they will be defeated. The killing of the men at Ludlow brings a suspicion that that is what they want to do here."

EXPRESS BUSINESS HIT BY GOVERNMENT RULING

WASHINGTON, Aug. 20.—The United States treasury department has announced that plans have been perfected by which, after August 15, all government money and securities will be transported by registered mail. The express companies have handled this business for 25 years, and their revenue from that source amounted to approximately \$500,000 annually. Despite claims first made by postoffice officials that the parcel post system was only intended to be a competitor of the express companies, it is now agreed that the companies have been injured and the end is not in sight. One company—the United States Express—has already gone out of business. This concern had the contract to transport money for the government.

The charge was 20 cents a thousand dollars from Washington to Philadelphia and other nearby places, and ranged up to a thousand to San Francisco. In the earlier days of the contract the company was paid \$1.50 a thousand to carry money to the Pacific coast. This contract alone netted \$375,000 in three years, of which \$245,000 was reimbursable by the national banks.

NEEDLE WORKERS UNITING.

NEWARK, N. J., Aug. 20.—Women workers on white goods in this city are joining the local affiliated to the International Ladies' Garment Workers' union because of low wages and poor working conditions. A system of fines in many of the factories has driven wages to a point where existence is impossible and the organizing campaign now on will offset the plan of New York employers who have moved across the river into New Jersey to escape what they term, "interference by the union."

ANOTHER EIGHT-HOUR DAY.

TOLEDO, Ohio, Aug. 20.—Officials of the Overland automobile factory announce that beginning Nov. 1 the plant will run on an eight-hour basis, which means a reduction of two hours a week. About 12,000 employees are affected. Wages will remain the same. The company only recently increased wages 5 per cent. It is stated that the company refused hours in anticipation of an eight-hour demand that might be made in the near future.

WANT SIX-HOUR DAY.
SAN FRANCISCO, Aug. 20.—The painters' district council has appointed a committee to inaugurate a campaign for a six-hour day for painters during the winter months, when a large number of these workers are unemployed.

SUPERIOR LEGISLATURE WILL ADJOURN NEXT WEEK

Bills Meeting Governor Philipp's Approval Not All Ready. Report Submitted.

MADISON, Wis., Aug. 20.—Adjournment sine-die will probably be taken by the legislature some time next week.

Assemblymen Caldwell, Hart and Helm with Speaker Whittet were on hand for the assembly session Tuesday to fix the date by joint resolution for final adjournment.

The governor has signed the fitney regulation bill, the bill for conservation of mussels in the Mississippi river and the bill allowing incipient cases of tuberculosis to be received in county sanatoriums and increasing state aid for county sanatoriums.

The resignation of E. J. Hedding, who was appointed civil judge of Milwaukee and George F. Hambricht appointed a member of the industrial commission, as members of the assembly were read in the assembly Tuesday afternoon. It was announced that another bill corrective of the statutes may be introduced.

ARKANSAS SHYLOCKS WANT MINERS' MONEY

FORT SMITH, Ark., Aug. 20.—Attorneys for the nonunion Bache-Dennmann Coal company still insist that their clients are entitled to damages under the Sherman anti-trust law and have filed a second demurrer to Federal Judge Youman's rulings.

The original suit involved about 200 union miners and their officials, who were asked to hand over three times \$427,320.77, as provided by the Sherman anti-trust law, because of alleged damages following a strike when the company placed its mines on a nonunion basis.

When the suit came for trial, the miners' attorneys held that the coal company was not interstate and did not therefore come under the Sherman anti-trust law. Judge Youmans sustained this position. The company presented a demurrer to this decision, but the court refused to concur.

The company then presented a second demurrer, which the court is now considering.

Attorneys for the miners are hopeful that their succession of victories will continue.

WORKERS NEED NOT TAKE RISKS STATE COURT

TRENTON, N. J., Aug. 20.—Justice Kallsch of the state supreme court has ruled that a human being is not compelled to take a risk of death, however slight, in order that the money obligations created by law in a workman's favor may be minimized. This decision was made in the case of a worker who was injured while in the employ of a railroad. A serious case of hernia developed and in the suit for damages the worker was only allowed partial compensation by the lower court, which sustained the company in its claim that an operation would cure the worker in six months.

STATE BOARD URGES SICKNESS INSURANCE

COLUMBUS, O., Aug. 20.—Sickness insurance for all industrial workers is advocated by the state board of health in its monthly bulletin. Such insurance, to be under the supervision of the state, would be a logical sequel to workmen's compensation insurance which the state now conducts for the benefit of victims of industrial accidents.

"The success of state compensation in case of accidents in Ohio and other states," the bulletin says, "is at least partial proof that the second phase of insurance by the state, could be well and successfully developed. Sickness insurance plans should differ from the state compensation scheme, which places practically all of the burdens—in the first instance—on employers. The board favors sickness insurance costs being divided between the state, the employer and the employee."

UNIONISTS SAY LICENSE LAW IS BEING IGNORED

TORONTO, Ontario, Aug. 20.—Representatives of the International Union of Steam Engineers say that the law providing for the licensing of engineers is almost totally ignored in certain lumber sections of this province. In the smaller mills wages are low and the engines are in charge of so-called "handy-men." It is claimed that the location of these mills is the only reason why the public does not hear of numerous accidents and fatalities.

WANT SIX-HOUR DAY.
SAN FRANCISCO, Aug. 20.—The painters' district council has appointed a committee to inaugurate a campaign for a six-hour day for painters during the winter months, when a large number of these workers are unemployed.

WILL ASK \$5,000 FOR PLAYGROUND

Malicious Destruction of Property Has Fallen Off 50 Per Cent in Year.

Five thousand dollars for supervised play will be sought next year, according to a statement Wednesday by Capt. Henry Cleveland, manager of the park department.

"I'm going to ask the council for an appropriation of \$5,000 for next year's playgrounds; that's how I feel about the subject," said Captain Cleveland.

"I shall ask the school board, also, to make an appropriation for playgrounds. Supervised play is the best thing under the sun for growing boys and girls."

"Beats Missionary Work" "Supervised play beats all the missionary work in the world. It makes clean boys and girls, and when that's done, they'll pick out their own religious preference—and they'll pick right."

"Since supervised play has been adopted in Duluth, malicious destruction of property by boys has fallen off more than 50 per cent. Is supervised play doing anything for Duluth?"

"Supervised play makes little boys and girls self-reliant. On the playgrounds there is no papa nor mamma to ask for favors; there all the children are equal and the one with the most square wins, not the one who has parents most favorably situated in life."

MINERS MAKE GAINS IN PENNSYLVANIA

SCRANTON, Pa., Aug. 20.—The organizing campaign of the United Mine Workers' union in the anthracite districts is being vigorously waged and large crowds everywhere greet President White and his associates to hear the gospel of trade unionism again defended and explained. The recent convention of district No. 1, held in this city, has stimulated interest throughout the anthracite section, because the demands made indicate the possibilities of a 100 per cent organization.

These demands include an eight-hour day for all men and boys in and around the mines; a general wage advance of 25 per cent; time and one-half for holidays, and double time for Sundays; the abolishment of contract mining and an increased wage for firemen, carpenters, blacksmiths and other workers other than miners.

N. Y. PAPER MAKERS RENEW AGREEMENT

ALBANY, N. Y., Aug. 20.—The International Brotherhood of Paper Makers has renewed an agreement with the International Paper company that has been in force since April, 1915. The renewal extends until May 1, 1916. One section of the contract provides: "It is mutually agreed and understood that the policy and practice of trade union employment will be carried out, which means that employees who enter or remain in the service and fail or neglect to affiliate themselves with the trade unions will be considered as unsatisfactory to the parties to this agreement."

GREAT HALF PRICE SUIT SALE. GREAT VALUES AT THE BIG DULUTH.

ELECTRICAL WORKERS WIN AFTER LONG FIGHT

WORCESTER, Mass., Aug. 20.—Persistence by the Electrical Workers' union has finally brought results and the Delta Electric company, working on a nonunion basis since the strike of 1906, has signed an agreement with the union.

ALABAMA CITIZENS IN CONVICT LEASING PROTEST

MONTGOMERY, Ala., Aug. 20.—Trade unionists, railroad brotherhoods, farmers' organizations and associations of business men have joined in an appeal to Alabama citizens to assist in the fight against convict leasing in this state. With this joint appeal is the report of the legislative investigating committee, which depicts the horrors of this system and the working of convicts in mines and in camps for commercial reasons.

THOMAS HAMLIN, VISITOR.

Among the visitors at The Labor World office this week was Thomas Hamlin, former editor of the Minneapolis Labor Review, now publisher of a "trade" paper known as Amusements.

RAILROAD STRIKE SETTLED.

KANSAS CITY, Mo., Aug. 20.—A joint strike of railroad shop workers employed by the City of Kansas has been satisfactorily settled. About 300 workers were involved.

Twin Port Merchants Sell Union Label Products

The Glass Block Store
"The Shopping Center of Duluth"

Smart New Fall Frocks \$16.75 up to \$32.75

Have you seen the new Princess styles in dresses for Fall? We're showing any number of Fall styles; but you'll enjoy seeing these self stripe satin frocks at \$22.75. They show the latest variation of the "Princess," a quaint "coatee" effect, made with a flat panel back, white Georgette crepe vestee and collar, and the new sleeve (cutaway 4 inches at the wrist.)

We're showing Fall dresses in Satin, Taffeta, Messaline, Crepe de Chine, etc., and smart combinations of Serge and Satin. Navy blue predominates in the combination dresses.

At \$22.75 there are a number of models absolutely new in style made with a little Serge jacket over long Taffeta sleeves, two-tier Taffeta skirt, (each tier finished with five rows of blue silk braid), piping around the deep cut arm pits and curious green disc jacket buttons. Ask to see them!

Quaint, New Style Features in Fall Suits

There's a world of charm and interest in the quaint new style tricks which characterize the Fall season. We're showing plain tailored suits, and suits trimmed surprisingly—far more of a contradiction than have been seen in a long while. Without the exact copying of military features, most of the new suits suggest the European uniform. There are braided frogs, of the trefoil shape, jacket belts and plaits, like those used by the British army; elaborate embroidery buttonholing, lacing, piping and smocking. Even the plain tailored models show a touch of the military in the buttoning and straight flare effects.

Ask to see our Fall suits at \$19.75 and up. —Second Floor.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND.

STATE OF MINNESOTA, COUNTY OF ST. LOUIS.—ss. District Court, Eleventh Judicial District.

In the matter of the application of Fred J. Turner to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: Lots 18 and 19, Block 4, Duluth Heights, 5th Division. Fred J. Turner, Applicant.

Amanda D. Meier, City of Duluth, unknown heirs of Rensselaer D. Hubbard, deceased, G. W. Bautin, John L. Prosser, and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein.

The State of Minnesota to the above named defendants: You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the clerk of said court, in said county, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the court for the relief demanded therein.

Witness, J. P. Johnson, clerk of said court, and the seal thereof, at Duluth, in said county, this 19th day of August, A. D. 1915. (Seal) J. P. JOHNSON, Clerk. By R. E. JOHNSON, Deputy.

JOHN H. NORTON, Attorney for Applicant. L. W. Aug. 21, 28, Sept. 4, 1915.

WIRE MEN FINALLY WIN.

WORCESTER, Mass., Aug. 20.—Persistence by the Electrical Workers' union has finally brought results and the Delta Electric company, working on a nonunion basis since the strike of 1906, has signed an agreement with the union.

Being president isn't a soft snap—not all of the time.—Philadelphia Press.

RAILROADS CONTINUE INCREASING EARNINGS

WASHINGTON, Aug. 20.—Railroads of this country continue to increase their earnings despite pleas that higher rates are necessary to give them proper returns.

In June last, 67 of the principal roads reported net revenues of \$406 a mile, according to an interstate commerce commission report. In June, 1914, this revenue was \$357, giving the roads an increase of \$49 a mile this year.

The operating revenues of the companies in June totaled \$106,315,869 and the operating expenses \$69,934,210, leaving net operating revenues of \$36,381,659.

ONLY SURE RESTORER FOR HUMAN AILMENTS

Removal of Obstructions to Nature's Recuperating Powers Adequate Method.

Dr. A. Graham, 500 Columbia Building, Duluth. God, through the laws of nature which He has made, is the only physician who can cure disease. It would be just as sensible to say that the farmer creates the products of his farm as to say that a doctor, of any school, cures his patients. The farmer can work, fertilize and cultivate the land. He can remove the noxious weeds that would interfere with the crop's growth, and otherwise protect it, but that is all he can do. Nature, by its invisible, mysterious process builds up little by little the wonderful growth of stalk and ear. So in the treatment and cure of disease, nature through her effective laws of repair, in her own marvelous way, is the great restorer.

All that human agency can do, or ever did do, is to assist nature by removing the impediments and intelligently making the condition as favorable as possible for nature to do her work.

This is precisely what my method of treatment aims to do, and is successfully accomplishing in every case where a cure is possible, and the ravages of disease have not become wholly irreparable.

I have no marvelous remedies to sell you; there are no drug bills attached to my system; I do not believe in serums, poisons or drugs.

From my ten years experience as a practitioner in the healing art, I know that more good can be accomplished by natural methods—such as the proper combination of food, proper rest of body and mind, proper exercise, spinal adjustment to keep the nerves free, and all other methods that have a tendency to make the condition as favorable as possible for nature to do the curing.

"As a matter of fact," said the lawyer for the defendant, trying to be sarcastic, "you were scared half to death, and don't know whether it was a motor car or something resembling a motor car that hit you."

"It resembled one all right," the plaintiff made answer. "I was forcibly struck by the resemblance."

Forward's Big August Clean-up Sale
The Entire Stock at Big Discounts.
122 and 124 EAST SUPERIOR STREET.

WHERE AND HOW TO LIVE PROBLEMS
are two great

We generally have a few desirable renting proportions on hand, but still better we have lots in all part of the city upon which we will erect you a home so you may save rent. If you have a vacant lot or a piece of land partly paid for or paid up in full, we can trade you in something that will be of use and enjoyment to you. IF YOU ARE RENTING OR COMING TO THE CITY be sure and call on us and we will help you.
