LABOR WILL RENEW IMMIGRATION FIGHT

A. F. of L. Gets New Encour-
agement from Report Issued
by Naturalization Bureau.

WASHINGTON, Dec. 23.—With the
convening of congress last week, the
American Federation of Labor is pre-
paring to renew its fight for immigra-
tion restriction legislation, which has
been passed by successive congresses,
only to be vetoed by the last three
presidents.

A recent document issued by the bu-
reau of naturalization, department of
labor, answers the claim of anti-restric-
tionists that all of our immigrants come
to America for the purpose of becoming
a part of democratic institutions. In
discussing its efforts to interest these
immigrants in citizenship, the bureau
says:

"While the above figures indicate a
large number among the foreign el-
ement of this country coming forward
for citizenship, the number does not ap-
pear relatively very large when it is
known that in 1910 there were nearly
14,000,000 foreigners in this country,
that of this number 9,000,000 were not
citizens and that the foreign body has
been increased nearly 1,000,000 annu-
ally since then.

"By far the larger portion of the for-
eign residents of this country have re-
tained their allegiance to the sov-
ereignty of their birth. Recently reports
in the public press have shown many of
these are ready to respond to the be-
hest of these sovereignties. It is well
known that large numbers returned im-
mediately upon the call of the country
of their nativity, leaving the ties, per-
sonal, family, industrial and others,
which have grown up in this country,
for the stronger call of allegiance to the
foreign sovereignty. This was the case
prior to the great war of Europe, in the
lessor was among the Balkan states.

"Among the approximately 14,000,000
foreign alien residents, 1,650,361 are
classified as illiterates. These illiterates
are the natural prey of the designing
and scheming foreigners and natives, as
well as every turn. They compel them
to pay tribute, both in cash and blood,
for every service, both real and im-
agined, and in the gratification of their
desires, however unscrupulous or un-
natural."

LABOR TEMPLE FOR DULUTH PROBABLE

Continued from Page 1.

labor to line up in support of the
philosophy of Henry George.

The machinists' union was re-
presented by R. J. Coole, who urged
that plans be made for the construc-
tion of the proposed Labor Temple
stating that the time had arrived
when such a matter should be given
serious consideration by the union
men of the Zenith city.

K. P. Miller of the Carpenters, and
J. H. Powers of the Painters closed
the speaking part of the pro-
gram, and after a few appropriate
remarks by the toastmaster, the gath-
ering disbanded, it being voted on
of the most successful banquets ever
held by the association.

LAKES SHIPYARDS BUILD OCEAN BOATS

The Great Lakes Engine rina, works
of Detroit and Ashtabula, has closed
a contract for the construction of a
steel bulk freight steamer for use on
the Atlantic coast. No plans are ob-
tainable as to the identity of the buy-
ers. The vessel is to be of Welland
canal size and must be completed for
delivery early in 1916. This order is
the eighth steamer booked for the
Great Lakes Engineering works within
two months. Of these six are for
use on the Atlantic and two for the
lakes, one being a 600-foot freighter
for the Pittsburgh Steamship company,
the other a carrier for a special trade.

THE BIG DULUTH WILL BE OPEN EVENINGS CHRISTMAS WEEK.

BLACKSMITHS WANT 8 HOURS.
BOSTON, Dec. 23.—Organized black-
smiths are conducting an eight-hour
campaign. International officers are
assisting and it is announced that ac-
tivation will continue indefinitely, if
necessary.

ASKS FOR CONFERENCE.
TORONTO, Can., Dec. 23.—Organized
mill hands have asked their employ-
ers to confer with them on the ques-
tion of wages and hours, which these
workers insist should be revised.

month at 11:30 P. M. 22 East First street.
(Captains). Officers same as Stage Em-
ployes' Union. Business representative, J.
Chellian, 22 East First street. Office Melrose
1247; residence, Grand 102.

A MERRY CHRISTMAS

FEWER IMMIGRANTS ARRIVE SINCE WAR

Tide of Aliens Lowest It Has
Been At Any Time In
Twenty Years.

ONLY 326,000 LANDED;
35,000 WERE ILLITERATES

Net Arrivals 50,000 Compared
With 769,000 a Year Ago—
Bring \$80 Each.

WASHINGTON, Dec. 23.—The tide
of immigration to the United States
ebbed to its lowest point in more
than 20 years during the past fiscal
year, according to figures made public
in the annual report of Secretary
Wilson, department of labor.

The total number of immigrant
aliens, the report shows, fell from
1,218,480 in the previous year to
326,700 in the period ending June
30, last. All admitted arrivals of
aliens, immigrant and nonimmigrant,
were only 434,244, compared with
1,403,801 the year before.

Departures Decrease
Departures of aliens likewise show
a notable decrease. For the fiscal
year of 1914, departures were 633,-
805; for 1915, 384,174. The fiscal
year of 1915 covers the period of
sailing home of reservists from the
beginning of war till June 30, last.
During that time the emigrant aliens,
presumably including the number
sailing to join the colors in Europe,
were 204,074, compared with 303,338
the previous 12 months. The non-
emigrant aliens departing totaled
180,100 for 1915 and 380,467 for
1914, showing a net decrease for all
alien departures of 249,631.

Excess of arrivals over departures,
aliens alone being considered, was
only 50,070 in 1915. In 1914, the
excess was 769,276.

Of the 326,700 immigrant aliens
admitted to the United States in the
15 fiscal year, 52,882 were under
14 years of age; 244,472 were over
14 to 44 years, and 33,246 were 45
or over. Those over 14 who could
neither read nor write numbered 35,-
057; those able to read but not write
were 292, making the total number
of illiterates over 14, 35,449, or 13
per cent.

Deported aliens numbered 26,675.
This included 24,111 excluded at ports
and sent back to their country of
origin and 2,564 arrested and expelled
from the country. Of those excluded
2,722 were denied admission because
they were contract laborers.

Immigrants Have \$80 Each.
Immigrants admitted showed to
customs officials money aggregating
\$19,568,000, an average of \$60 each.
Each of 55,711 immigrants had more
than \$50, while 137,744 had less than
\$50 each. One hundred and ninety-
thousand claimed to have paid their
own passage across the Atlantic; 128,-
140 said that their passage had been
paid by relatives and 7,697 that it
had been paid by persons other than
relatives. With reference to exclu-
sions, the report asserts:

Conditions during the past year
were abnormal and accurate com-
parisons with previous years are dif-
ficult. Exclusions in 1913 amounted
to 1.38 per cent of the number ap-
plying; in 1914 this was increased to
2.3 per cent and in the past year the
increase has been up to 5.3 per cent.

BUY YOUR CHRISTMAS GIFTS FOR THE MEN FOLKS AT THE BIG DULUTH.

"KICK-IN."

Interest runs high in the coming
of that splendid comedy-drama en-
titled "Kick-In" with Richard Ben-
nett for an engagement of eight days
at the Lyceum beginning Christmas
matinee.

The characters and the situations
of "Kick-In" are both new to the
stage and are said to be presented
without artificiality and in a fashion
that is decidedly logical, tense and
with a good round measure of warm
human sympathy. It is this sympa-
thetic note which is struck at once by
the shrewd author who makes his
crooks struggle for reform against a
hard police commissioner and a most
damning set of circumstances. Their
attempts to keep straight and at the
same time prove faithful to their
friends provide the plot for the play
and action enough to satisfy the most
hardened theatergoer.

SCENE FROM "KICK-IN" IN WHICH RICHARD BENNETT WILL BE SEEN AT THE LYCEUM FOR EIGHT
DAYS COMMENCING CHRISTMAS MATINEE.

If Prohibition's Dream Came True

Relative to industries that would be paralyzed if the idle dreams
of prohibitionists could be realized, it is well to submit a general
outline of calculated loss in the United States, thereby advising as
to the character of industries that would be affected, viz:

The brewing industries alone represent an investment of more
than \$3,748,826,562. The farmer who grows the barley, rye, corn,
hops and other grains used in processes of brewing would be hurt
annually more than \$108,000,000 worth. A sum of more than \$52,-
000,000 would no longer be put into labor that now produces beer
and the like. Lumber, rubber goods, steam engines, machinery tools,
plumbers' supplies, wagons, harness, builders' supplies, glass, filter-
ing materials, chemical supplies, paints, varnish, brushes, packing
house products, advertising signs, just a few items additional that
would mean annual loss of about \$15,000,000, and \$20,000,000 a
year that railroads get out of the brewers. Consider, further, the
wage loss per capita. In 1910 the average wage in various trades
was only \$438 a year, whilst an average of \$718 was paid to brewery
workers.

Summing up, the prohibitionist would destroy a market for the
farmer's grain that makes a territory equal to two states to grow.
Large armies of men would be thrown out of employment. The
prospects of making deserts of many farms and paupers of working-
men and their families does not deter the prohibitionist.

A MERRY CHRISTMAS

Dr. Alexander Graham On How to Be Healthy

Beginning with this issue of The
Labor World we have opened a de-
partment of health edited by Dr.
Alexander Graham, a local Chiro-
practor, with offices at 500 Columbia
building.

As Dr. Graham is a recognized ex-
ponent of drugless therapeutics the
readers of this paper would do well
to acquaint themselves with his ideas
as to the cause of human inefficiency
and ill health in general.

We are not sufficiently versed in
the nomenclature and principles of
his method of treatment to justify our
entering upon any extensive discus-
sion of its philosophy, but we do
know of a great number of cases in
which health was restored by Dr.
Graham that were actually marvel-
ous.

THE LAW OF LIFE AND HEALTH.

This departure is for the purpose
of educating the public upon health
matters—how to avoid sickness, and
how to be healthy, and in so doing
the writer shall aim to avoid as far
as possible, the use of technical
terms, and foreign nomenclature, ex-
cept in cases where no adequate Eng-
lish term seems available.

To maintain the highest standards
of physical perfection and attain to
long life, a knowledge of the laws of
life and health must be understood
and respected; otherwise the body
will degenerate and die prematurely.
The first law of nature, which is
self-preservation, is the one most
often violated. It is not because the
people are ignorant of this law, but
because they allow delusive impulses
to overcome their better judgment,
the majority of people know better
than to over eat, then bodily resist-
ance is low, overlooking in any
thing is a violation of this first law.
It has been truly said that, some peo-
ple would rather die than reform. In
my ten years' experience as a prac-
titioner in drugless therapeutics, I
have seen young men and women de-
cline and die from ailments brought
on themselves from errors of living
for which they would not accept ad-
vice that would put them on the way
to recovery.

Just now Duluth is passing through
one of the worst epidemics of colds,
and a gripe that has been witnessed
by its earliest inhabitants. Many of
those who in ordinary atmospheric
conditions were apparently in the
best of health are now suffering from
one or the other of those winter ail-
ments. This goes to show that those
who are now ill have overdone, from
their store of physical resistance.

A SAVINGS ACCOUNT GIVES CREDIT

The merchants of Duluth are interested in our Savings
Department because it acts as a guarantee fund for their
accounts.

If a man with a savings account is out of work for a few
weeks, the merchant is safe in granting him credit for he knows
that the Customer with the Savings Account Can Pay

A MERRY CHRISTMAS

ARMY SHOULD WORK DECLARES SENATOR

Suggests Soldiers Be Kept Busy
on Government Projects.
Now Idlers.

WASHINGTON, Dec. 23.—An army
educated in engineering and hardened
to the rigors of campaigning through
the reclamation of desert lands, the
reformation of large western tracts
and the protecting of the Mississippi
valley from floods, was advocated this
afternoon by Senator Works of Cali-
fornia just before congress adjourned
for the holidays.

He said such an army would do
away with two great evils; first, the
unpreparedness of the country; and
second, the danger in the present pre-
paredness plan of creating "a mili-
tary caste." Also, he said, "the sol-
diers recruited would be doing useful
work instead of becoming idlers.

"Let the men in this army gain
physical confidence by exercise," said
Works, addressing the senate. "Let
them gain the conquering spirit by
conquering the great forces in nature.
Give them some military drill.

"Such an army would open up vast
tracts and help to empty the slums
of our cities."

The senator's address contained an
attack on the Vera Cruz expedition of
last year as hasty and unwarranted,
and a denunciation of the "thralldom"
of the American soldier. He told of
a case where a private was tried and
disciplined for entering and remaining
in a saloon where an officer was.

Such a spirit, he said, was a nearer
and more dangerous enemy than any
foreign invader now in sight.

VIOLATE WOMEN'S LAW. FINE.
ATLANTIC CITY, N. J., Dec. 23.—
District Court Judge Shinn has fined
several shopkeepers for violating the
state law prohibiting a work day for
women in shops and factories of more
than 10 hours. This is the first At-
lantic City conviction under this law.
Complaint was made by Labor Com-
missioner Bryant.
