Plenty of Waist-Seam Suits and Overcoats Now!

The enormous clothing business done before Easter in the Columbia's Daylight Clothes Shop on the second floor, had depleted our stocks, especially of the popular Waist-Seam Suits and Overcoats.

A number of small lots received since then were hardly sufficient to supply the demand, but today we may breathe easier, for a big shipment of both suits and overcoats at what are present "medium prices" arrived yesterday.

A fine gray mixed single-breasted waist-seam suit at \$25—beyond dispute the best in town at this price.

Gray, green and tan double-breasted waist-seam suits, also a brown double-breasted silk-lined taped suit at \$35. Also a wide range of blue and striped suits at \$35, and some suits at \$50.

A handsome leather novelty in a double-breasted waist-seam suit at \$40.

Four new lines of waist-seam top coats at \$35.

Plain blue, green, dark tan and a gray novelty. Both double and single-breasted models. Something entirely different than what we showed before. No store shows the like at \$35.

These new suits and coats are now displayed in our corner window.

LADIES' KNOX HATS—new arrivals—plain Milan sailors with bell crowns—brown and navy—at \$15.

LADIES' TUNEDO COATS—Bousel knit, in blue with gray trimming—\$20.

BOYS' BLACK SATEEN BLOUSES are another new arrival—\$1.

Famous Filolette Gloves for boys—gray, at 85c.

A new lot of Boys' Caps in plain and fancy patterns. We are receiving new creations in both Boys' and Men's Caps as fast as they come out.

"THE SHEPHERD OF THE HILLS"

The author Harold Bell Wright with Elisabeth Reynolds his publisher has formed a company which will be known as the Harold Bell Wright Story-Picture Corporation, which will place upon the screen the best known of Mr. Wright's works. This announcement should be of interest not only to the countless millions of Mr. Wright's readers, as well as the leading motion picture producers, theatre managers and all others connected with the promotion of the motion picture industry, for in placing the stories of Mr. Wright in pictures a wealth of new and fine material will be given to the motion picture camera.

The first story to be pictureized is "The Shepherd of the Hills," perhaps the best-loved of all Mr. Wright's stories. The picture has been taken in the heart of the Ozarks and in California. It is a ten reel super-production with incidental music forming an evening's entertainment at the Orpheum week commencing Sunday May 4th.

FIREMEN'S DANCE HAS BANNER SEASON GROWD

About 3,000 people attended the dance given Monday evening at the Armory under the auspices of the Fire Fighters' union, local No. 101, and the committee in charge, including H. England, C. D. Goldsmith, C. Jones, J. Phillips, L. J. Jones, E. T. Miller and Lester Clark, are being congratulated on planning and carrying out such a successful beginning to what purposes to be a series of such annual affairs planned by Duluth firemen.

Helmer's orchestra played and the Allied colors were effectively used in decorating the Armory. A gong was installed in the Armory to care for any emergency call in case of a serious fire, and only the day force of firemen attended, as the night shift was kept on duty at the stations.

MISS KATHERINE KING NAMED STATE DIRECTOR

Miss Katherine King of Duluth was this week appointed director of the woman's department of the United States Employment service for Minnesota by Director Hugh V. Koch. The appointment comes as a well earned reward for the part Miss King played in putting the woman's department in Duluth and Minneapolis on a strong basis.

Miss King was for a number of years principal at the Bryant school where she gained considerable local fame by the organization of a community center. She later became identified with the Associated Charities, serving as secretary until she was selected for the employment service.

She was first assigned to the Duluth office, and having done so well here, Director Koch transferred her to Minneapolis where she lost no time in putting the bureau on its feet. Miss King's new work gives her supervision of all the employment service for women in the state.

LAWSON MAKES APPEAL FOR WAR SERVICE DATA

George W. Lawson, secretary-treasurer of the Minnesota State Federation of Labor, who is this week working in Duluth and northern Minnesota, reporting to unions the work of the state legislature which recently adjourned, is urging all unions to hurry with their reports on the number of members who served in the army or navy during the war.

Secretary Lawson is compiling data on the subject and will make a report to the New Uim convention. His appeal to the unions covers three questions:

- 1—Number of members in the service of our country.
- 2—Number killed in action or died in the service.
- 3—Money subscribed by unions and individual members to war activities as near as it can be ascertained.

ORDER OF HEARING ON PETITION FOR PROBATE

STATE OF MINNESOTA, COUNTY OF ST. LOUIS.—In Probate Court. In the Matter of the Estate of L. Olson, Decedent.

THE PETITION OF Swan Carlson as representative of the above named decedent, having been filed in this Court, representing, among other things, that for reason stated in said petition, it is necessary and for the best interests of the estate of said decedent and of all persons interested therein, to sell certain lands of said estate in said petition described and paying that license be to him granted to sell said lands.

IT IS ORDERED, That said petition be heard before this Court, at the Probate Court Rooms in the Court House, in Duluth, in said County, on Monday, the 26th day of May, 1919, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

MARSHALL-WELLS—NO. 13.

WHY THE ZENITH LINE IS BEST BY TEST

Marshall-Wells is the only wholesale hardware jobbing concern which has a testing laboratory, in which they inspect, test, select and reject—hardware, tools and cutlery.

They have been doing this for twelve years, because the average hardware manufacturer does not practically test his product and their inspections are too often merely superficial.

The factory inspector may be a relative of the workman. The mere goods that are passed as perfect, the better the temporary prosperity of the factory.

The inspector may know that the workman is off-color, or some family trouble causes him to turn out poor work, but he needs his wages.

The inspector may not reject his work and cause him to lose that money.

These are only a few of the reasons why factory inspection may be bad, but the chief reason it is bad is because they do not have up-to-date, decisive tests.

The factories say they do not need such tests, because only 10 per cent of their goods go to discriminating mechanics, and only 1 out of ten of these is ordinarily soft or defective.

They say they can afford to run this one chance in a hundred, and, if only 1 per cent of their goods are rejected, they are very fortunate.

Marshall-Wells have rejected 23 dozen out of 54 dozen levels, 105 out of 600 broad axes and 60 dozen out of one shipment of files, all of which were manufactured by the best known makers of these lines in the United States.

It is not enough that a manufacturer should say that his "plane is made of extra fine steel, it doesn't jump or chatter,"—because every plane is made of "extra fine steel" and none of them should jump and chatter, if they are properly fitted and properly inspected.

TELEPHONE RATES MUST BE HIGHER

Increased Operating Expenses Require More Money

Telephone expenses have gone up rapidly the last few years. Telephone rates have not advanced in proportion to the cost of furnishing the service.

The cost of furnishing telephone service has advanced because of the increased cost of material to the telephone company and the increased living expenses of employees.

Everyone realizes the necessity of paying more for rent, for food, for clothing, for wages and for transportation.

The telephone industry has been affected by the same conditions which have produced higher prices in all the necessities of life.

If this Company is to continue to furnish dependable telephone service to the public it must obtain such rates as will produce a revenue sufficient to cover the cost of providing the service.
