PACKERS CALL SALESMEN TO WORK IN STOCK YARDS

The Butcher Workmen's union of Duluth is receiving daily advice of strike conditions in the packing industry and they will be read at a meeting of the union to be held next Tuesday evening.

The daily bulletins indicate that 65,800 men and women are on strike. In some plants the claim is made that the union is 100 per cent strong at some points and not less than 75 per cent in others effected by the strike.

"The packers seek to fool the public by mangling a few hundred head of live stock in Chicago each day," says one bulletin. "This work is being done by officials, branch house managers and salesmen, who are being ordered to the plants from agencies in other cities. Everything is going to the tanks except the carcass itself. No effort is being made to save edible fats or by-products."

"At no point has there been a weakening of our members. Hundreds are joining the ranks daily. The packers are attempting to break our morale by appealing to the courts for injunctions, which have only tended to fire the strikers with greater zeal. There were 30,000 people in attendance at a Chicago mass meeting of strikers."

PRINTERS' PICKETS HIT BY COURT INJUNCTION

BRIDGEPORT, Conn., Dec. 22.—The Post Publishing company, publishers of the Bridgeport Post, Telegram and the Sunday Post, has obtained a temporary restraining order prohibiting the Bridgeport typographical union, its members, sympathizers or agents from picketing or "in any manner interfering with" the strikebreaking employees of the company. A court hearing on an application to make it permanent will be held on Dec. 6.

The composing room employees of the Post Publishing company have been on strike since Aug. 20.

**—A MERRY CHRISTMAS—
UNION TAKES UP
HEAT FRANCHISE**

Plumbers and Steam Fitters Appoint Committee to Investigate Proposed Ordinance.

It was announced in the Herald in a recent issue that "the Steam Fitters' union" would meet Tuesday to endorse the proposed ordinance to grant the heating franchise. There is no such organization in Duluth. The plumbers and steamfitters are in one union. It is known as Local Union No. 11, United Association of Plumbers, Gas and Steam Fitters of the United States and Canada.

That union met Tuesday evening. A member brought up the ordinance and it was discussed at some length by both plumbers and steamfitters. It became a question as to whether it would not be better in the long run for the city to own the plant and extend the service to all settled portions of the city.

It was argued that the installation of a central plant supplying only the business section of the city would give employment to a few men during the constructing of the plant. There would not be many steamfitters employed as all the joints to be connected would be welded. Screw joints would be used on all expansion couplings. On the other hand if the city owned the plant and extended the service throughout the settled portion of Duluth it would create a constant demand for fitters in the installation of radiators and pipes in dwellings now using hot air furnaces and heating stoves.

The matter was referred to a committee to make thorough investigation of the proposal. H. R. Tinkham was made chairman of the committee. The election of officers was put over until the next meeting to be held Tuesday, January 3. A smoker will be given that evening.

INTEREST ON LIBERTY BONDS IS FREE OF TAX

NEW YORK, Dec. 22.—Wall street is happy over the discovery that the repeal of the excess profits tax in the new revenue bill wipes out the tax on Liberty bonds held by corporations. The bonds were issued with the provision that their income, or interest, should be included by corporations when reporting their profits, under the excess profits section of the revenue act. With the repeal of the excess profits tax the income from millions of these Liberty bonds, held by corporations will be free from taxation.

**—A MERRY CHRISTMAS—
BOARD OF TRADE
FULLY LAUNCHED**

Twenty-Six Unions Join; Representative G. O. Lockhart Is Elected President.

Representative G. O. Lockhart, treasurer of the "Brotherhood of Railroad Trainmen" was unanimously elected president of the St. Louis county Board of Trade, which was launched last Friday evening at the new Moose hall. Twenty six unions were represented.

J. H. Opperman of the Public Service employees' union was chosen first vice-president; H. R. Tinkham of the Plumbers' union, second vice president and Neils Espeland of the Carpenters' union, representative of the Federated Trades assembly, third-vice president.

Articles of incorporation as submitted by Attorney A. G. McKnight were adopted and were filed Monday with Mike Holm, secretary of state, at St. Paul.

Directors chosen for three years were: Joseph La. Fortuna of the plasterers' union; F. A. Borreen, machinist; J. H. Liljander, bricklayers; F. C. Barrett, structural iron workers; and William Martin, sheet metal workers.

Directors until May, 1923, are: Gust Lyskating, railway carmen; John Pelletier, electrical workers; John Cyrol, brewers; Peter Nelson, state employes, and Ed McKeever, fire fighters.

Directors until May, 1922, are: W. J. Farmer, printers; E. T. Hogenstad, carpenters; Erling Yonkeby, painter; H. Percaust, cigarmakers, and Charles Esse, barbers.

There are 60 unions in the city. Those not members of the new trade board are expected to join as soon as they hold meetings. Many of the unions are planning to take out more than 100,000 membership, which cost \$50 under the provisions of the articles.

The highest liability of the organization is \$50,000. Though a union may have as many memberships in the central body as it desires, the incorporation articles provide that no union shall be entitled to more than one vote.

Other provisions in the articles are virtually the same as those that have been adopted by the Ramsey county board of trade.

One of the first moves will be the incorporation of a building and loan association, and the putting into operation of the Union service company which already has been incorporated. Approximately \$10,000 already has been subscribed by the 26 unions now members.

MILWAUKEE ROAD CLOSES SHOPS IN MINNEAPOLIS

The Chicago Milwaukee & St. Paul railroad put into effect Tuesday an order closing its repair shops in Minneapolis. More than 1,200 skilled workmen were thrown out of employment to swell the ranks of the unemployed in Minnesota.

The shutdown is for an indefinite period of time. Seven hundred men were effected directly and 500 indirectly. No reasons are cited for the shutdown, except that it is understood the road will have its repair work done in contract shops.

HEATING FRANCHISE NOT HAVING EASY SLIDING THROUGH COUNCIL

Commissioner Merritt Propounds Some Interesting Questions. Sectional Plant Would Deny Service to Others; Can't Rush Snively.

It is not as rosy at the city hall for the proposed heating ordinance as the friends would want it to be. Commissioner Merritt, always a good warrior and ever looking out for the best interest of the people, has submitted a grant with a series of questions propounded to Mr. Dacey. The majority of the questions indicate that he will not vote for the ordinance, not unless it is free from every restriction that will prevent the city from getting control of the heating plant when it is ready to buy.

A franchise must receive a four-fifths vote of the city council to pass. It can then be submitted to the people, either by vote of the council or by referendum petitions filed with the city clerk. Any franchise granted by the council must run the chance of final public approval or disapproval, a fact well known to the Duluth Street Railway company.

Mr. Merritt struck the nail on the head when he propounded the following question to Mr. Dacey: "If you thought covering the congested portion of the town with this franchise would prevent other sections from indefinitely getting similar benefits, would you vote me this franchise should our places be reversed?"

Mr. Dacey did not answer that question. Should the city grant a sectional franchise to a private interest there will be no inducement to extend the service to territory that will not yield a profit on top of the interest and depreciation on the investment and on the cost of

supplying the service. The city would extend the service when a sufficient guarantee shall have been made to cover nominal interest on the cost of construction and the cost of furnishing the service without regard to profit. That's what we do in our water and light department.

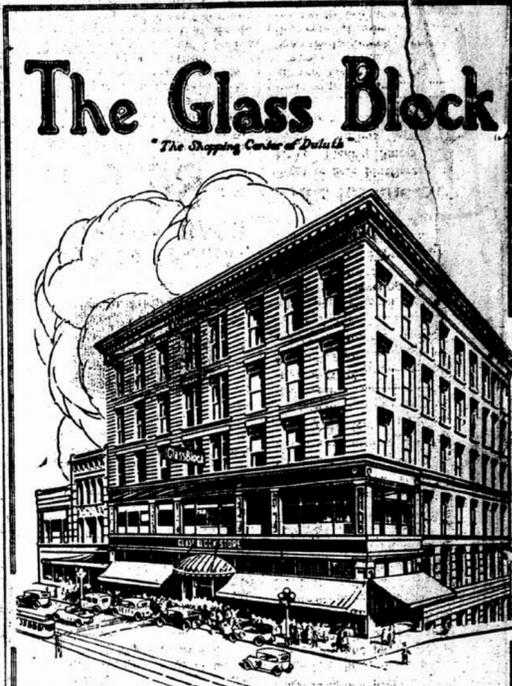

Commissioner Merritt also took occasion at the Monday meeting of the council to ask questions of several impetuous citizens who appeared before the council at its Monday session to urge the "immediate" passage of the ordinance.

"They didn't consider it their duty as citizens to protect their interests as such, they looked only at the 'business side' of it and the help it would be to a few business men and property owners in the central portion of the city. They thought nothing of the comfort of 100,000 other folks.

Mayor Snively, too, will not permit himself to be rushed. He wants to safeguard every interest of the public. He wants to prevent some things that have occurred in the past such as padding construction accounts and the installation of an inferior quality of material that some day may be palmed off on the people at a fabulous price. It would be refreshing to hear from some of our labor men at the city hall as to how they stand on this proposed franchise.
